Readings In Philosophy Eastern Western Sources:

Readings in Philosophy George Cronk, Toby De Marco, Peter Dlugos, Paul Eckstein, 2004 *Religious Studies Scholars as Public Intellectuals* Sabrina D. Misir Hiralall, Christopher L. Fici, Gerald S. Vigna, 2018-06-13 The prominence of religion in recent debates around politics identity formation and international terrorism has led to an increased demand on those studying religion to help clarify and contextualise religious belief and practice in the public sphere While many texts focus on the theoretical development of the subject this book outlines a wider application of these studies by exploring the role of religious studies scholars and theologians as public intellectuals This collection of essays first seeks to define exactly what makes an intellectual public It then goes on to deal with a few questions of concern How do public intellectuals construct knowledge in religious and theological scholarship What is the link between public intellectuals of higher education and their role in society Do higher education institutions have a responsibility to endorse public intellectualism Looking at the individual and collective role of religious studies scholars and theologians in public life this book will be of great interest to all scholars and academics involved in religious studies and theology across the academy **Ethical Leadership** Robert M. McManus, Stanley J. Ward, Alexandra K. Perry, 2023-09-06 The world cries out for ethical leaders We expect the best but we are often left profoundly disappointed While leadership programs may feature ethics as part of their curriculum the approach is often either simplistic or overly esoteric This second edition addresses this scarcity of resources for training ethical leaders providing a primer of several ethical frameworks accompanied by extended examples to help inform decision making It also addresses several leadership models that claim an ethical component The new edition also includes new chapters on the ethics of care and toxic leadership and new case studies for all chapters By providing a consistent case analysis based on the Five Components of Leadership Model readers benefit from a comprehensive approach to understanding ethical leadership

Orthodox Readings of Aquinas Marcus Plested, 2012-11 The foremost Roman Catholic theologian of the middle ages Thomas Aquinas was hugely popular in the last days of the Orthodox Byzantine Empire in contrast to his largely negative reception by later Orthodox commentators This book is the first to explore the long history of Orthodox fascination with Aquinas Encyclopedia of Asian Philosophy Oliver Leaman, 2006-10-19 Incorporating cultural and religious contexts this unique Encyclopedia provides a vital guide to the main concepts and thinkers in Asian philosophy starting with Abhidharma and ending with Zurvan The main philosophical trends and thinkers in each geographical area are featured with an emphasis on endtemporary developments and movements The A Z structured encyclopedia emphasizes that Asian philosophy is not merely an ancient form of thought but that it is a living philosophy with roots in the past and also a potent and animate presence today This translates into the reciprocal exchange of theories between Eastern and Western thinking for example of new schools of thought such as orientalism Requiring no prior knowledge of philosophy religion or Asian cultures this book is essential reading for students teachers and the interested individual who wishes to gain an understanding of the

philosophical basis to Asian cultural systems **Eastern Influences on Western Philosophy** A. L. Macfie, 2019-08-05 This Reader explores the extent of Oriental influence on European thought primarily in the period of the Enlightenment and the nineteenth century period of doubt and scepticism that followed it It is the first Reader to bring together in one place a series of specific historical and textual studies of Oriental influence upon European thinkers **A Guide to Philosophical Bibliography and Research** Richard T. De George, 1971 *Directory of Graduate and Undergraduate Programs and Courses in Middle East Studies in the United States, Canada and Abroad* , 1976 **Methods of Doing Eastern Philosophies** Chanh Phan, Kyoto in Davos. Intercultural Readings of the Cassirer-Heidegger Debate , 2023-12-28 What does it mean to be human We invite the reader to discuss this most fundamental issue in philosophy and to do so in an intercultural framework The question of the human was the starting point for a legendary discussion between two German philosophers who met in Davos in 1929 We return to this historical event and re imagine the debate between Martin Heidegger and Ernst Cassirer from a global perspective Generating twenty papers from elaborate discussions our authors contribute to the thought experiment by inviting the Japanese philosopher Nishida Kitaro from Kyoto and other Japanese thinkers into the debate to overcome the challenge of Eurocentrism inherent to these historic days in Davos **Death, Contemplation and Schopenhauer** R. Raj Singh, 2016-05-13 The connections between death contemplation and the contemplative life have been a recurrent theme in the canons of both western and eastern philosophical thought This book examines the classical sources of this philosophical literature in particular Plato's *Phaedo* and the *Katha Upanishad* and then proceeds to a sustained analysis and critical assessment of the sources and standpoints of a single thinker Arthur Schopenhauer whose work comprehensively pursues this problem Going beyond the well examined western influences on Schopenhauer Singh offers an in depth account of Schopenhauer's references to eastern thought and a comprehensive examination of his eastern sources particularly Vedanta and Buddhism The book traces the pivotal issue of death through the whole range of Schopenhauer's writings uncovering the deeper connotations of his crucial notion of the will to live **The Philosopher's Guide to Sources, Research Tools, Professional Life, and Related Fields** Richard T. De George, 1980 **Philosophy East & West** , 1986 *Central and Eastern European Literary Theory and the West* Michał Mrugański, Schamma Schahadat, Irina Wutsdorff, 2022-12-05 Literary theory flourished in Central and Eastern Europe throughout the twentieth century but its relation to Western literary scholarship is complex This book sheds light on the entangled histories of exchange and influence both within the region known as Central and Eastern Europe and between the region and the West The exchange of ideas between scholars in the East and West was facilitated by both personal and institutional relations both official and informal encounters For the longest time however intellectual exchange was thwarted by political tensions that led to large parts of Central and Eastern Europe being isolated from the West A few literary theories nevertheless made it into Western scholarly discourses via exiled scholars Some of these scholars such as Mikhail Bakhtin become widely known in the West and their

thought was transposed onto new Western cultural contexts others such as Olga Freidenberg were barely noticed outside of Russia and Poland This volume draws attention to the schools circles and concepts that shaped the development of theory in Central and Eastern Europe as well as the histoire croise the history of translations transformations and migrations that conditioned its relationship with the West **Reading the Old Norse-Icelandic "Mariu saga" in Its Manuscript**

Contexts Daniel C. Najor, 2021-02-08 Mar u saga the Old Norse Icelandic life of the Virgin Mary survives in nineteen manuscripts While the 1871 edition of the saga provides two versions based on multiple manuscripts and prints significant variants in the notes it does not preserve the literary and social contexts of those manuscripts In the extant manuscripts Mar u saga rarely exists in the codex by itself This study restores the saga to its manuscript contexts in order to better understand the meaning of the text within its manuscript matrix why it was copied in the specific manuscripts it was and how it was read and used by the different communities that preserved the manuscripts **Ritual and Belief** David

Hicks, 2010-03-15 Ritual and Belief Readings in the Anthropology of Religion is a collection of 41 readings in religion magic and witchcraft The choice of readings is eclectic no single anthropological approach or theoretical perspective dominates the text Theoretical significance scholarly eminence of the author and inherent interest provide the principal criteria and each reading complements its companion chapters which are pedagogically coherent rather than ad hoc assemblages Included among the theoretical perspectives are structural functionalism structuralism Malinowskian functionalism cultural materialism and cultural evolutionism also included are the synchronic and diachronic approaches The book offers a mixture of classic readings and more recent contributions and the world religions are included along with examples from the religions of traditionally non literate cultures As diverse a range of religious traditions as possible has been embraced from various ethnic groups traditions and places **History of Islamic Philosophy** Oliver Leaman, Seyyed Hossein

Nasr, 2020-08-17 Islamic philosophy has often been treated as being largely of historical interest belonging to the history of ideas rather than to philosophical study This volume successfully overturns that view Emphasizing the living nature and rich diversity of the subject it examines the main thinkers and schools of thought discusses the key concepts of Islamic philosophy and covers a vast geographical area This indispensable reference tool includes a comprehensive bibliography and an extensive index Integrating Multilingual Students into College Classrooms Johnnie Johnson Hafernik, Fredel M.
