Readings On Equal Education Volume 13:

The Racial Crisis in American Higher Education William A. Smith, Philip G. Altbach, Kofi Lomotey, 2012-02-01 Why is it that as we enter the twenty first century the nation's predominantly white colleges and universities continue to be settings where people of color feel unwelcome and marginalized The contributors to this volume dissect a variety of structural and attitudinal factors that are prevalent in the higher education community organizational constructs and value orientations which seem to hark more to the past than to the future They comment on the political social and economic factors that have shaped academic culture and buttressed its quietly efficient maintenance of racially discriminatory practices The American system of higher education is often regarded as the best in the world Smith Altbach and Lomotey have edited a volume that implicitly asks how much better still it could be if it embraced people of color and provided them with a supportive and nurturing environment one which encouraged them to reach their fullest creative and intellectual potential Indeed this will probably be the most significant challenge that the academy faces in the twenty first century William B Harvey Vice President and Director Office of Minorities in Higher Education American Council on Education Washington D C

The Dreamkeepers Gloria Ladson-Billings, 2009-03-23 In the second edition of her critically acclaimed book *The Dreamkeepers* Gloria Ladson Billings revisits the eight teachers who were profiled in the first edition and introduces us to new teachers who are current exemplars of good teaching She shows that culturally relevant teaching is not a matter of race gender or teaching style What matters most is a teacher's efforts to work with the unique strengths a child brings to the classroom A brilliant mixture of scholarship and storytelling *The Dreamkeepers* challenges us to envision intellectually rigorous and culturally relevant classrooms that have the power to improve the lives of not just African American students but all children This new edition also includes questions for reflection

Reading America Matthew Guillen, 2007 Is there a unique visual infrastructure that keeps and defines a culture Professor Guillen discusses a culture built entirely on the visual modality and most significantly on that province of the visual we negotiate through the written word Although this work analyzes features critical to the American legal tradition from its origins in Anglo Saxon jurisprudence to recent Supreme Court decisions substantially exploring Judge Scalia s originalist movement and Posner s law and economics theories the presiding agency remains the power of the written language to provide scaffolding to American culture Writing it is argued contours our worldview our laws morality science social problems and affects film media broadcasting comics and literary criticism The effects of our national formation and the literature that sprung up to discuss the new nation and define its people have directly led to the evolution of our idiosyncratic legal and philosophical perspectives The title of this work purposely carries a double meaning since it proposes to deal with a reading of American culture through its legal and cultural legacy as well as concluding with questions revolving around a well informed American readership essential for the preservation of the culture as well as the continued existence of a national collective conscience *School Education* ,1889 **The Pennsylvania School Journal** Thomas Henry Burrowes, James Pyle Wickersham, Elnathan Elisha Higbee, David Jewett Waller, Nathan C.
