The Public Relations Strategic Toolkit Alison Theaker, Heather Yaxley, 2012-08-21 The Public Relations Strategic Toolkit provides a structured approach to understanding public relations and corporate communications. The focus is on professional skills development as well as approaches that are widely recognised as best practice. Original methods are considered alongside well established procedures to ensure the changing requirements of contemporary practice are reflected. Split into four parts covering the public relations profession, campaign planning, corporate communication and stakeholder engagement, this textbook covers everything involved in the critical practice of public relations in an accessible manner. Features include definitions of key terms, contemporary case studies, insight from practitioners, handy checklists, practical activities and assignments. Covering the practicalities of using traditional and social media as well as international considerations, ethics and PR within contexts from politics to charities, this guide gives you all the critical and practical skills you need to introduce you to a career in public relations.

Introduction to Strategic Public Relations Janis Teruggi Page, Lawrence J. Parnell, 2017-11-30 Winner of the 2019 Most Promising New Textbook Award from the Textbook Academic Authors Association. TAA Introduction to Strategic Public Relations: Digital, Global and Socially Responsible Communication prepares students for success in today's fast-changing PR environment. Recognizing that developments in technology, business and culture require a fresh approach, Janis T. Page and Lawrence Parnell have written a practical introductory text that aligns these shifts with the body of knowledge from which the discipline of public relations was built. Because the practice of public relations is rooted in credibility, the authors believe that students must become ethical and socially responsible communicators more concerned with building trust and respect with diverse communities than with creating throwaway content. The authors balance this approach with a focus on communication theory, history, process and practice and on understanding how these apply to strategic public relations planning as well as on learning how to create a believable and persuasive message.
