Saxe, B. Heidi Ellis, Adam D. Brown, 2015-11-11 For too many traumatized children and their families chronic stressors such as poverty substance abuse and family or community violence coupled with an overburdened care system pose seemingly insurmountable barriers to treatment This empowering book provides a user friendly blueprint for making the most of limited resources to help those considered the toughest cases Evidence based strategies are presented for effectively integrating individualized treatment with services at the home school and community levels Written in an accessible modular format with reproducible forms and step by step guidelines for assessment and intervention the approach is grounded in the latest knowledge about child traumatic stress It has been recognized as a treatment of choice by state mental health agencies nationwide      *Evidence-Based Programming for Older Adults* Marcia G. Ory, Matthew Lee Smith, 2015-06-17 There is increased world wide concern about the impact of multiple chronic conditions especially among the rapidly aging population Simultaneously over the past decade there has been an emergence of state wide and national initiatives to reduce the burden of chronic conditions that draw upon the translation of evidence based programs EPB into community practice Yet little has been written about the national and international implementation dissemination and sustainability of such programs This Research Topic features articles about EBPs for older adults including a range of articles that focus on the infrastructure needed to widely disseminate EBP as well as individual participant impacts on physical mental and social aspects of health

and well being Using a pragmatic research perspective this Research Topic will advance knowledge that aims to enhance practice inform policy and build systems of support and delivery in regard to the reach effectiveness adoption implementation and maintenance of evidence based interventions for older adults The focus is on knowledge transfer rather than knowledge generation but with a dual emphasis on the dissemination and sustainability of EBP that have been tested and shown effective as well as the adaptation of practice based interventions into evidence based programs This Research Topic draws upon grand scale efforts to deliver these programs and include both U S as well as international examples Commentaries discuss processes in the development and measurement of EBP and reflect perspectives from program developers and major national and regional funders of EBP as well as professionals and practitioners in the field The full length articles focus on four major programmatic areas 1 chronic disease self management programs 2 fall prevention programs 3 general wellness and physical activity programs and 4 mental health programs Additionally articles are included to discuss cross cutting issues related to building partnerships and the research infrastructure for the implementation evaluation and dissemination of evidence based programming The intent of this Research Topic is to enhance practice inform policy and build systems of support and delivery for EBP It is written for a diverse audience and contains practical implications and recommendations for introducing delivering and sustaining EBP in a multitude of settings **Da Truth**

[Guide To Popular Diets For Muscle Building Regimens \(Fitness, Bodybuilding, Performance\)](#) Tyler Lacoma, 2012-02-12

ABOUT THE BOOK Planning on weight training to build serious muscle? Then take a second before you hit the gym. Working out is only half the story. You can lift all the weights you want, but if your diet isn't crafted to build muscle, your gains will look more like toning. Sure, you'll see muscle more easily, but you won't see any increase in size. For real gains, you need to start eating the right foods, too. A Google search for muscle building diets will yield hundreds of different examples. Many do not work, while many others exist mostly to make money. Fortunately, nutritionists, trainers, and physical therapists have been working on power foods for many years now, so they have some proven facts. Make no mistake: the most important element of your diet is you. Always tailor meals to your own habits, your current goals, and your health. But as you customize, pick what works. With a steady regimen of the right foods at the right times, you can pack on muscle and make every trip to the gym worth it. Here are some popular diet ideas with tips on how you can get the most muscle and energy.

MEET THE AUTHOR Tyler Lacoma writes on business, environmental, and fitness topics, but squeezes in some time for fiction, too. He graduated from George Fox University and lives in beautiful Oregon, where he fills spaces between writing with outdoor fun, loud music, and time with family and friends.

EXCERPT FROM THE BOOK Does this sound like strange advice? Not for a muscle diet. Your body needs a steady flow of caloric energy to keep on repairing the small rips your muscles develop every time you work out. Cutting calories cuts fat, but it also keeps you from growing more muscle, so get ready to eat a little more than you do right now. However, your body also needs the right building blocks to repair muscles, and this means including a lot of protein in your diet. Take your current body weight and assign one gram of protein for every pound. This is a handy guideline for daily protein intake. A little less protein (0.8 grams per pound) works for lighter workouts, while a little more (1.5 grams or more) works well if you prefer intense, high weight and low repetition workouts most days of the week. The moment you start searching online or in your bookstore, you'll run into lists of power foods to help hit your protein target while giving you energy. Generally, good diets include meats, fruits, vegetables, carbohydrate sources, and healthy fats. This leaves a lot of leeway in specific food groups, so feel free to experiment. Buy a copy to keep reading.
