John Feierabend,2021-04 From The Wheels on the Bus to Eensy Weensy Spider these classic songs combine movement and music to create a high energy fun experience for children At the same time children learn coordination skills and the musical concepts of form and expression Easy to learn and fun to sing fingerplays and action songs are a wonderful way to engage children while at the same time plant seeds of musical sensitivity and imagination This special book for the first time collects the most cherished of these songs some in danger of being lost or forgotten enabling your family to carry on the tradition of laughter and learning that fingerplays and action songs have inspired for generations

**Popular Fingerplay Activities.**

**Step-By-step with Pictures** Helen Winter,2020-02-08 Storytelling and activity songs and rhymes have a long tradition and at times they have passed down from generation to generation Our book has more pictures than words in order to methodically introduce each movement and associate it with a spoken word We use two kinds of pictures 1 pictures that tell a story or plot which can be discussed and 2 pictures showing motions that will be repeated throughout the activity songs and rhymes They are detailed so it is not necessary to go back each time In our book you will find 5 popular activity rhythms with very detailed pictures of each gesture You and your kids will be able to learn each finger hand movement step by step bringing enjoyment to both of you Contents I've got Five Fingers in My Pocket A Sailor Went to Sea Sea Sea Open Shut Them Open Shut Them One Little Fish You might ask why you should buy books with fingerplays when there are so many free videos on YouTube We believe that parents should define the development and entertainment of their children Video content is entertainment not a participatory game It is created by somebody else not the child and grabs the attention of kids against their will This book also provides instruction for the hand movements but gives the child the space for their own sense of creation Hand gestures are not done for the child but by the child Here is a chance for kids to think learn and to try for themselves Also the book suggests more activities compared with simply repeating from an image on a screen Kids can see

all gestures step to step try them and feel them This gives them the chance to see themselves from the outside looking in modifying when necessary to get it just right This self analyzing ability is an extremely important skill for their future lives
