Francette Pacteau, 2013-06-01 For a woman in the Western world there is no escaping beauty Either she possesses it or she lacks it If she lacks it she may hope to gain it If she already has it she will certainly lose it But what is it Not an objective thing Francette Pacteau tells us but a generic term for an unspecifiable number of psychological experiences in the mind of the observer What these experiences are what causes them and how they manifest themselves as a notion of beauty is the subject of this book Less interested in the contingent object of desire than the fantasy that frames it Pacteau considers the staging of the aesthetic emotion Her analysis extends from the Classical ideals of beauty through Renaissance poetry to the recent formulations of Hollywood Her book is an ambitious attempt to describe the mise en sc ne of beauty within a particular field of representations that of the beauty of a woman

Sex, Culture, and Justice Clare Chambers, 2010-11 Autonomy is fundamental to liberalism But autonomous individuals often choose to do things that harm themselves or undermine their equality In particular women often choose to participate in practices of sexual inequality cosmetic surgery gendered patterns of work and childcare makeup restrictive clothing or the sexual subordination required by membership in certain religious groups In this book Clare Chambers argues that this predicament poses a fundamental challenge to many existing liberal and multicultural theories that dominate contemporary political philosophy Chambers argues that a theory of justice cannot ignore the influence of culture and the role it plays in shaping choices If cultures shape choices it is problematic to use those choices as the measure of the justice of the culture Drawing upon feminist critiques of gender inequality and poststructuralist theories of social construction she argues that we should accept some of the multicultural claims about the importance of culture in shaping our actions and identities but that we should reach the opposite normative conclusion to that of multiculturalists and many liberals Rather than using the idea of social construction to justify cultural respect or protection we should use it to ground a critical stance

toward cultural norms The book presents radical proposals for state action to promote sexual and cultural justice A

Alexander, 2019-11-15 This book considers melancholy language in representative works by several British women writers in
late Stuart England To understand how these women writers understood and reframed the discussion about melancholy and
women s experience of suffering in their art it turns to the twentieth century French feminist theorist Julia Kristeva whose
radical work on melancholy in *Black Sun Depression and Melancholia* 1989 provides an alternative psychoanalytic
perspective for considering melancholy discourse created by women experiencing alienation depression and anguish in
earlier periods Kristeva offers a theoretical lens for understanding loss as a significant and ongoing perspective on life
experience that finds expression through art and language This text argues that early women writers created a new
expressive mode revising existing models to account for their own losses during a time of cultural and political transitioning
in England These writers provide a melancholy aesthetic in their works or depict depressed female figures reflecting artistic
angst and a new discourse within language for articulating pain *Because of You* , 1955 *Because of Your* United States.
