Darwin's Watch Terry Pratchett, Ian Stewart, Jack Cohen, 2015-06-09 When Charles Darwin writes the wrong book and reverses the progress of science Unseen University's wizards must once again save Roundworld Earth that is from an

apocalyptic end Ever since a wizardly experiment inadvertently brought about the creation of Roundworld the wizard scholars of Unseen University have done their best to put things on the right course In Darwin s Watch they may face their greatest challenge yet A man called Darwin has written a bestselling book called The Theology of the Species and his theory of scientific design has been witlessly embraced by Victorian society As a result scientific progress has slowed to a crawl and the wizards must find a way to change history back to the way it should have been DARWIN S WATCH EXPLORES THE REVERBERATIONS of major scientific advances on our planet and our culture the dangers of obscurantism and the theory of evolution as you have never seen it before This brilliant addition to Pratchett s beloved Discworld series illustrates with great wit and wisdom how the laws of our universe truly are stranger than fiction

The Use of Artificial Intelligence for Space Applications Cosimo Ieracitano,Nadia Mammone,Marco Di Clemente,Mufti Mahmud,Roberto Furfaro,Francesco Carlo Morabito,2023-06-16 This book is an ideal and practical resource on the potential impact Artificial Intelligence AI can have in space sciences and applications AI for Space Application presents a hands on approach to browse in the subject and to learning how to do AI is not yet fully accepted as a pervasive technology in space applications because they are often mission critical and the cost of space equipment and modules raises skepticism on any practical use and reliability However it is evident that its potential impact on many aspects is dramatic Starting from either actual or experimental realizations the book accompanies the reader through such fascinating subjects like space exploration autonomous navigation and landing rover control and guidance on rough surfaces image analysis automation for planet or star classification and for space debris avoidance without human intervention This kind of approach may facilitate further investigations on the same or similar subjects as the future of space explorations is going toward adopting AI The intended audience of the book are researchers from academia and space industries and practitioners in related start ups
