The West Of Ireland And The Atlantic Coast

Sea, Sky and Mountain

The Cliffs of Moher, Co. Clare

The winds that blow so frequently over Ireland have played a major part in shaping both her landscape and history. They are a constant factor in the climate and there are few days in the year when the air is still. Savage autumn gales from the Atlantic, icy gusts crossing Europe from Siberia and warm African breezes originating in the Sahara, all end up on the Irish shores. These never-ending patterns of winds cause the changes in light which make the landscape hazy and muted on one day and bright and clear on another.

Ireland, particularly in its western regions, is a land of horizons made glorious by towering, cloudy skies. The artist Paul Henry captured this aspect brilliantly in his landscape paintings, placing huddled cottages against dark hills and mountains dwarfed by huge skies. More than anything else, perhaps, the relationship between the western coasts and the world beyond is defined by the vast emptiness that stretches to the western horizon from cliffs where the land abruptly meets the wild Atlantic sea.

The unique western Irish landscape must be amongst the most beautiful in the world. Since man first arrived on these coasts, great forests of oak and elm have disappeared from the slopes of the mountains, whilst blanket bogs have formed a shroud over arable lands that once held the settlements of Neolithic pastoralists. Yet the bones of the land remain the same; now, as then, the impressive peaks still rise from the western edge of Ireland to break the flatness of her central plain.

Like human beings everywhere, the Irish have given a central role to mountains in their mythology as the homes of the Gods. Yet the nearness of the comparatively low Irish peaks suggests an uncommon intimacy between the deities of the high places and

Real Ireland People And Landscape:

 Real Ireland Liam Blake,Brendan Kennelly,1984   *The Real Ireland* Harvey O'Brien,2004 The Real Ireland is the first study of Irish documentary film but more than that it is a study of Ireland itself of how the idea of Ireland evolved throughout the twentieth century and how documentary cinema both recorded and participated in the process of change More than just a film studies work it is a discussion of history politics and culture which also explores the philosophical roots of the documentary idea and how this idea informs concepts of society self and nation It features rare and previously unseen illustrations and a detailed documentary filmography the first of its kind in print anywhere   **Real Ireland** Brendan Kennelly,1984-03-01   *Ireland* David Pritchard (Writer on Ireland),2014   **Medbh McGuckian** Borbála Faragó,2014-03-27 This book offers a wide ranging analysis of the entire corpus of Medbh McGuckian s published work Its objective is to provide both a readable synthesis of existing criticism in a fashion which will be generally useful to academics and students and also to offer an original contribution to the field of contemporary Irish literary studies on the basis of new research The book investigatesa variety of previously neglected themes in particular McGuckian s exploration of ideas of creativity and performativity in her poetry Over the past two decades McGuckian has been recognized by both her fellow poets and by literary critics as one of the most original daring and important poetic voices in contemporary Ireland Since 1982 she has published fifteen volumes of poetry extraordinary not merely for its sustained quality and linguistic and technical virtuosity but also for its constant evolution and reinvention This book provides an original perspective on her work both thematically and methodologically From a thematic perspective the process of artistic creation is a key preoccupation of McGuckian s poetry which recurs in every volume of her oeuvre but has previously escaped critical attention By adapting and refining theories of singularity and creativity the book allows for a coherent analysis of this central aspect of McGuckian s work Methodologically it differs from previous studies in the scope of its approach Uniquely it pursues its investigation across the entire breadth of the poet s published output and emphasizes the thematic unity of individual volumes in the light of the poet s constant change and development Throughout the book the reading of McGuckian s work concentrates on poems in their entirety an approach which has not figured to any notable degree in the existing secondary literature on the poet not least because of the perceived difficulty of her writing A critical investigation however which respects both the integrity of the individual poems and the internal coherence of her various volumes allows for a far deeper understanding both of the poet s thematic preoccupations and of the evolution of her distinctive poetic voice   *Rural Ireland, Real Ireland?* Jacqueline Genet,1996 This collection draws a picture of rural Ireland through Irish literature from the 18th century with William Chaigneau Maria Edgeworth and Lady Morgan through the numerous rich productions of the 19th century up to the present time with Patrick Kavanagh and Flann O Brien   <u>Ireland</u> Andrew Halpin,Conor Newman,2006 Ireland is a country rich in archaeological sites Ireland An Oxford Archaeological Guide provides the ultimate handbook to this fascinating

in an Irish context interrogating the ethical and political problematics of such discursive importation Flannery s work highlights the operative dynamics of imperial modernity together with its representational agents in Ireland and also divines moments of explicit and implicit resistance to modernity s rationalising and accumulative urges The book is pioneering in the facility and ease with which it navigates the interdisciplinary terrain of Irish studies Flannery provides enabling and challenging new readings of the poetry of the bi lingual poet Michael Hartnett the politically imaginative vistas of the republican mural tradition in the North of Ireland the gothic anxieties inherent in the fiction of Eugene McCabe and the semi fictional writing of Seamus Deane and the differential codes of visual surveillance apparent in Irish tourist posters and late nineteenth century photography in Ireland Versions of Ireland does not dwell on the exclusively theoretical but offers rich critical analyses of a range of Irish cultural artefacts in terms of Ireland s protracted colonial history and contested postcolonial condition *The Routledge Companion to Media and Tourism* Maria Månsson,Annæ Buchmann,Cecilia Cassinger,Lena Eskilsson,2020-07-07 The Routledge Companion to Media and Tourism provides a comprehensive overview of the research into the convergence of media and tourism and specifically investigates the concept of mediatized tourism This Companion offers a holistic look at the relationship between media and tourism by drawing from a global range of contributions by scholars from disciplines across the humanities and social sciences The book is divided into five parts covering diverse aspects of mediatization of tourism including place and space representation cultural production and transmedia It features a comprehensive theoretical introduction and an afterword by leading scholars in this emerging field delving into the ways in which different forms of media content and consumption converge and the consequential effects on tourism and tourists The collection is an invaluable resource for students and scholars of tourism studies cultural studies and media and communication as well as those with a particular interest in mediatization convergence culture and contemporary culture **Ireland and Ecocriticism** Eóin Flannery,2015-10-05 This book is the first truly interdisciplinary intervention into the burgeoning field of Irish ecological criticism Providing original and nuanced readings of Irish cultural texts and personalities in terms of contemporary ecological criticism Flannery s readings of Irish literary fiction poetry travel writing non fiction and essay writing are ground breaking in their depth and scope Explorations of figures and texts from Irish cultural and political history including John McGahern Derek Mahon Roger Casement and Tim Robinson among many others enable and invigorate the discipline of Irish cultural studies and international ecocriticism on the whole This book addresses the need to impress the urgency of lateral ecological awareness and responsibility among Irish cultural and political commentators to highlight continuities and disparities between Irish ecological thought writing and praxis and those of differential international writers critics and activists and to establish both the singularity and contiguity of Irish ecological criticism to the wider international field of ecological criticism With the introduction of concepts such as ecocosmopolitanism deep history ethics of proximity Gaia Theory urban ecology and postcolonial environmentalism to Irish cultural studies it

takes Irish cultural studies in bracing new directions Flannery furnishes working examples of the necessary interdisciplinarity of ecological criticism and impresses the relevance of the Irish context to the broader debates within international ecological criticism Crucially the volume imports ecological critical paradigms into the field of Irish studies and demonstrates the value of such conceptual dialogue for the future of Irish cultural and political criticism This pioneering intervention exhibits the complexity of different Irish cultural and historical responses to ecological exploitation degradation and social justice
