Restoring Justice Daniel W. Van Ness, Karen Heetderks Strong, Jonathan Derby, L. Lynette Parker, 2022-05-30 Restoring Justice An Introduction to Restorative Justice Sixth Edition offers a clear and convincing explanation of restorative justice a movement within criminal justice with ongoing worldwide influence The book explores the broad appeal of this vision and offers a brief history of its roots and development as an alternative to an impersonal justice system focused narrowly on the conviction and punishment of those who break the law Instead restorative justice emphasizes repairing the harm caused or revealed by criminal behavior using cooperative processes that include all the stakeholders The book presents the theory and principles of restorative justice and discusses its four cornerpost ideas Inclusion Encounter Repair and Cohesion Multiple models for how restorative justice may be incorporated into criminal justice are explored and the book proposes an approach to assessing the extent to which programs or systems are actually restorative in practice The authors also suggest six strategic objectives to significantly expand the use and reach of restorative justice and recommended tactics to make progress towards the acceptance and adoption of restorative programs and systems

Restorative Justice & Responsive Regulation John Braithwaite, 2002 Braithwaite's argument against punitive justice systems and for restorative justice systems establishes that there are good theoretical and empirical grounds for anticipating that well designed restorative justice processes will restore victims offenders and communities better than existing criminal justice practices Counterintuitively he also shows that a restorative justice system may deter incapacitate and rehabilitate more effectively than a punitive system This is particularly true when the restorative justice system is embedded in a responsive regulatory framework that opts for deterrence only after restoration repeatedly fails and incapacitation only after escalated deterrence fails Braithwaite's empirical research demonstrates that active deterrence under the dynamic regulatory pyramid that is a hallmark of the restorative justice system he supports is far more effective than the passive deterrence that is notable in the stricter sentencing grid of current criminal justice systems

recovery communities A further unique component of this book is the inclusion of material from the adolescents and young adults whose lives have been changed by these programs This book was published as a special issue in the Journal of Groups in Addiction and Recovery Forgiveness and Reconciliation Ani Kalayjian,Raymond F. Paloutzian,2009-07-21 We all long for peace within ourselves families communities countries and throughout the world We wonder what we can do about the multitude of conflicts currently wreaking havoc across the globe and the continuous reports of violence in communities as well as within families Most of the time we contemplate solutions beyond our reach and overlook a powerful tool that is at our disposal forgiveness As a genocide survivor I know something about it As the genocide unfolded in Rwanda in 1994 I was devastated by what I believed to be the inevitable deaths of my loved ones The news that my parents and my seven siblings had indeed been killed was simply unbearable Anger and bitterness became my daily companions Likewise I continued to wonder how the Hutus and Tutsis in Rwanda could possibly reconcile after one of the most horrendous genocides of the 20th century It was not until I came to understand the notion of forgiveness that I was able to see the light at the end of the tunnel Common wisdom suggests that forgiveness comes after a perpetrator makes a genuine apology This wisdom informs us that in the aftermath of a wrongdoing the offender must acknowledge the wrong he or she has done express remorse express an apology commit to never repeating said harm and make reparations to the extent possible
