Ritual and Pilgrimage in the Ancient Andes Brian S. Bauer, Charles Stanish, 2001-06-01 The Islands of the Sun and the Moon in Bolivia s Lake Titicaca were two of the most sacred locations in the Inca empire A pan Andean belief held that they marked the origin place of the Sun and the Moon and pilgrims from across the Inca realm made ritual journeys to the sacred shrines there In this book Brian Bauer and Charles Stanish explore the extent to which this use of the islands as a pilgrimage center during Inca times was founded on and developed from earlier religious traditions of the Lake Titicaca region Drawing on a systematic archaeological survey and test excavations in the islands as well as data from historical texts and ethnography the authors document a succession of complex polities in the islands from 2000 BC to the time of European contact in the 1530s AD They uncover significant evidence of pre Inca ritual use of the islands which raises the compelling possibility that the religious significance of the islands is of great antiquity The authors also use these data to address broader anthropological questions on the role of pilgrimage centers in the development of pre

modern states Handbook of South American Archaeology Helaine Silverman, William Isbell, 2008-04-06 Perhaps the contributions of South American archaeology to the larger field of world archaeology have been inadequately recognized. If so, this is probably because there have been relatively few archaeologists working in South America outside of Peru, and recent advances in knowledge in other parts of the continent are only beginning to enter larger archaeological discourse. Many ideas of and about South American archaeology held by scholars from outside the area are going to change irrevocably with the appearance of the present volume. Not only does the *Handbook of South American Archaeology* (HSA) provide immense and broad information about ancient South America, the volume also showcases the contributions made by South Americans to social theory. Moreover, one of the merits of this volume is that about half the authors (30) are South Americans, and the bibliographies in their chapters will be especially useful guides to Spanish and Portuguese literature as well as to the latest research. It is inevitable that the HSA will be compared with the multi-volume *Handbook of South American Indians* (HSAI) with its detailed descriptions of indigenous peoples of South America that was organized and edited by Julian Steward. Although there are heroic archaeological essays in the HSAI by the likes of Junius Bird, Gordon Willey, John Rowe, and John Murra, Steward states frankly in his introduction to Volume Two that archaeology is included by way of background to the ethnographic chapters.

Sacrifice, Violence, and Ideology Among the Moche Steve Bourget, 2016-05-03 In a special precinct dedicated to ritual sacrifice at Huaca de la Luna on the north coast of Peru, about seventy-five men were killed and dismembered; their remains and body parts were then carefully rearranged and left on the ground with numerous offerings. The discovery of this large sacrificial site, one of the most important sites of this type in the Americas, raises fundamental questions: Why was human sacrifice so central to Moche ideology and religion? And why is sacrifice so intimately related to the notions of warfare and capture? In this pioneering book, Steve Bourget marshals all the currently available information from the archaeology and visual culture of Huaca de la Luna as he seeks to understand the centrality of human sacrifice in Moche ideology and, more broadly, the role(s) of violence in the development of social complexity. He begins by providing a fully documented account of the archaeological contexts, demonstrating how closely interrelated these contexts are to the rest of Moche material culture, including its iconography, the regalia of its elite, and its monumental architecture. Bourget then probes the possible meanings of ritual violence and human sacrifice and their intimate connections with concepts of divinity, ancestry, and foreignness. He builds a convincing case that the iconography of ritual violence and the practice of human sacrifice at all the principal Moche ceremonial centers were the main devices used in the establishment and development of the Moche state.

Ritual Violence in the Ancient Andes Haagen D. Klaus, J. Marla Toyne, 2016-07-26 Traditions of sacrifice exist in almost every human culture and often embody a society's most meaningful religious and symbolic acts. Ritual violence was particularly varied and enduring in the prehistoric South American Andes, where human lives, animals, and material objects were sacrificed in secular rites or as offerings to the divine. Spectacular discoveries of sacrificial sites containing the victims

of violent rituals have drawn ever increasing attention to ritual sacrifice within Andean archaeology Responding to this interest this volume provides the first regional overview of ritual killing on the pre Hispanic north coast of Peru where distinct forms and diverse trajectories of ritual violence developed during the final 1 800 years of prehistory Presenting original research that blends empirical approaches iconographic interpretations and contextual analyses the contributors address four linked themes the historical development and regional variation of north coast sacrifice from the early first millennium AD to the European conquest a continuum of ritual violence that spans people animals and objects the broader ritual world of sacrifice including rites both before and after violent offering and the use of diverse scientific tools archaeological information and theoretical interpretations to study sacrifice This research proposes a wide range of new questions that will shape the research agenda in the coming decades while fostering a nuanced scientific and humanized approach to the archaeology of ritual violence that is applicable to archaeological contexts around the world

The Taking and Displaying of Human Body Parts as Trophies by Amerindians Richard J. Chacon, David H. Dye, 2007-08-21 This edited volume mainly focuses on the practice of taking and displaying various body parts as trophies in both North and South America The editors and contributors which include Native Peoples from both continents examine the evidence and causes of Amerindian trophy taking Additionally they present objectively and discuss dispassionately the topic of human proclivity toward ritual violence This book fills the gap in literature on this subject

The Art and Archaeology of the Moche Steve Bourget, Kimberly L. Jones, 2009-06-03 Renowned for their monumental architecture and rich visual culture the Moche inhabited the north coast of Peru during the Early Intermediate Period AD 100 800 Archaeological discoveries over the past century and the dissemination of Moche artifacts to museums around the world have given rise to a widespread and continually increasing fascination with this complex culture which expressed its beliefs about the human and supernatural worlds through finely crafted ceramic and metal objects of striking realism and visual sophistication In this standard setting work an international multidisciplinary team of scholars who are at the forefront of Moche research present a state of the art overview of Moche culture The contributors address various issues of Moche society religion and material culture based on multiple lines of evidence and methodologies including iconographic studies archaeological investigations and forensic analyses Some of the articles present the results of long term studies of major issues in Moche iconography while others focus on more specifically defined topics such as site studies the influence of El Ni o Southern Oscillation on Moche society the nature of Moche warfare and sacrifice and the role of Moche visual culture in decoding social and political frameworks

The Routledge Handbook of the Bioarchaeology of Human Conflict Christopher Knüsel, Martin Smith, 2013-12-17 If human burials were our only window onto the past what story would they tell Skeletal injuries constitute the most direct and unambiguous evidence for violence in the past Whereas weapons or defenses may

simply be statements of prestige or status and written sources are characteristically biased and incomplete human remains offer clear and unequivocal evidence of physical aggression reaching as far back as we have burials to examine Warfare is often described as senseless and as having no place in society Consequently its place in social relations and societal change remains obscure The studies in The Routledge Handbook of the Bioarchaeology of Human Conflict present an overview of the nature and development of human conflict from prehistory to recent times as evidenced by the remains of past people themselves in order to explore the social contexts in which such injuries were inflicted A broadly chronological approach is taken from prehistory through to recent conflicts however this book is not simply a catalogue of injuries illustrating weapon development or a narrative detailing progress in warfare but rather provides a framework in which to explore both continuity and change based on a range of important themes which hold continuing relevance throughout human development

The Archaeology of Andean Pastoralism José M. Capriles, Nicholas Tripcevich, 2016-05-01 In this book leading experts uncover and discuss archaeological topics and themes surrounding the long term trajectory of camelid llama and alpaca pastoralism in the Andean highlands of South America The chapters open up these studies to a wider world by exploring the themes of intensification of herding over time animal human relationships and social transformations as well as navigating four areas of recent research the origins of domesticated camelids variation in the development of pastoralist traditions ritual and animal sacrifice and social interaction through caravans Andeanists and pastoral scholars alike will find this comprehensive work an invaluable contribution to their library and studies

Us and Them Richard Martin Reyecraft, 2005-05-01 This volume brings together a corpus of scholars whose work collectively represents a significant advancement in the study of prehistoric ethnicity in the Andean region The assembled research represents an outstanding collection of theoretical and methodological approaches and conveys recent discoveries in several subfields of prehistoric Andean anthropology including spatial archaeology mortuary archaeology textile studies ceramic analysis and biological anthropology Many of the authors in this volume apply novel research techniques while others wield more established approaches in original ways Although the research presented in this volume has occurred in the Andean region many of the novel methods applied will be applicable to other geographic regions and it is hoped that this research will stimulate others to pursue future innovative work in the prehistoric study of ethnic identification

Rituals of the Past Silvana Rosenfeld, Stefanie Bautista, 2017-04-01 Rituals of the Past explores the various approaches archaeologists use to identify ritual in the material record and discusses the influence ritual had on the formation reproduction and transformation of community life in past Andean societies A diverse group of established and rising scholars from across the globe investigates how ritual influenced permeated and altered political authority economic production shamanic practice landscape cognition and religion in the Andes over a period of three thousand years Contributors deal with theoretical and methodological

concerns including non human and human agency the development and maintenance of political and religious authority ideology cosmologies and social memory and relationships with ritual action The authors use a diverse array of archaeological ethnographic and linguistic data and historical documents to demonstrate the role ritual played in prehispanic colonial and post colonial Andean societies throughout the regions of Peru Chile Bolivia and Argentina By providing a diachronic and widely regional perspective Rituals of the Past shows how ritual is vital to understanding many aspects of the formation reproduction and change of past lifeways in Andean societies Contributors Sarah Abraham Carlos Angiorama Florencia Avila Camila Capriata Estrada David Chicoine Daniel Contreras Matthew Edwards Francesca Fernandini Matthew Helmer Hugo Ikehara Enrique Lopez Hurtado Jerry Moore Axel Nielsen Yoshio Onuki John Rick Mario Ruales Koichiro Shibata Hendrik Van Gijseghem Rafael Vega Centeno Verity Whalen

Gallinazo Jean-Francois Millaire, Magali Morlion, 2009-12-31 Over the last decades considerable effort has been directed towards the study of early complex societies of northern Peru and in recent years archaeologists have expressed a strong interest in the art and archaeology of the Moche Lambayeque and Chimu societies Yet comparatively little attention has been paid to the earlier cultural foundations of north coast civilization the Gallinazo In the recent years however the work of a number of north coast specialists brought about a large quantity of data on the Gallinazo occupation of the coast but a coherent framework for studying this culture had yet to be defined The present volume is the result of a round table which gathered some thirty scholars from Europe and North and South America to discuss the Gallinazo phenomenon In fourteen chapters authors with different perspectives and backgrounds reconsider the nature of the Gallinazo culture and its position within north coast cultural history while addressing wider issues about the development of complex societies in this area and within the Andean region in general The contributions reveal a diversity of perspectives on north coast archaeology something that is likely to stimulate methodological and theoretical debates among Andeanists pre Columbian specialists and New World archaeologists in general
