in the reality of magic and the irresistibility of its circuits and waves These rituals utilise juxtaposition and movement across boundaries They are sites of liminality and thus power They are games toys and the most serious technology we have ever had These rituals offer a space of *communitas* a suspended community in the liminal ritual space a mode of being with others that is utterly transformative These rituals are magpie nests built from all the shiny symbolism and structure I could lay my greedy hands upon These rituals can be anything you want them to be solemn rites or fantasies mystery plays or literary provocations Their reading offers a carnival of images in which to saturate your soul Their performance offers lessons in being in doing and in *communitas* You may gain as much or as little from them as from a journey on the train Abide for a while and watch the phantasmic flora and fauna glide past the window of your literary vision You will not seem to move yet it will be that you have travelled very far
