Transhumanist Dreams and Dystopian Nightmares Maxwell J. Mehlman, 2012-10-01 What will happen when technology allows us to direct our own evolution Transhumanists advocate for the development and distribution of technologies that will enhance human intellectual physical and psychological capacities even eliminate aging What if the dystopian futures and transhumanist utopias found in the pages of science journals Margaret Atwood novels films like *Gattaca* and television shows like *Dark Angel* are realized What kind of world would humans have created Maxwell J Mehlman considers the promises and perils of using genetic engineering in an effort to direct the future course of human evolution He addresses scientific and ethical issues without choosing sides in the dispute between transhumanists and their challengers However *Transhumanist Dreams and Dystopian Nightmares* reveals that radical forms of genetic engineering could become a reality much sooner than many people think and that we need to encourage risk management efforts Whether scientists are dubious or optimistic about the prospects for directed evolution they tend to agree on two things First

however long it takes to perfect the necessary technology it is inevitable that humans will attempt to control their evolutionary future and second in the process of learning how to direct evolution we are bound to make mistakes Our responsibility is to learn how to balance innovation with caution

Pay for Play Ronald A. Smith,2011 In an era when college football coaches frequently command higher salaries than university presidents many call for reform to restore the balance between amateur athletics and the educational mission of schools This book traces attempts at college athletics reform from 1855 through the early twenty first century while analyzing the different roles played by students faculty conferences university presidents the NCAA legislatures and the Supreme Court

Pay for Play A History of Big Time College Athletic Reform also tackles critically important questions about eligibility compensation recruiting sponsorship and rules enforcement Discussing reasons for reform to combat corruption to level the playing field and to make sports more accessible to minorities and women Ronald A Smith candidly explains why attempts at change have often failed Of interest to historians athletic reformers college administrators NCAA officials and sports journalists this thoughtful book considers the difficulty in balancing the principles of amateurism with the need to draw income from sporting events

Indigenous, Traditional, and Folk Sports Mariann Vaczi,Alan Bairner,2023-10-06 This is the first book to focus on indigenous traditional and folk sports and sporting cultures It examines the significance of sporting cultures that have survived the emergence and diffusion of western sports and have carved out a unique position not only in spite of modernity but also in response to it Presenting case studies from around the world including from Europe Asia Africa and the Americas this book draws on multidisciplinary work from sociology anthropology history cultural studies and political science exploring key themes in the social sciences including nationalism identity decolonisation and gender From Turkish oil wrestling kabaddi in South Asia Iroquois lacrosse to wushu and sumo in East Asia and various European traditional sports these sporting practices continue to capture the indigenous imagination on the margins of the western hegemonic sport complex Situated in the fissures between the local the national and the global between the archaic and the modern and between ritual and record they inhabit a liminal space of transformation as they assume new cultural and political meanings offering important perspectives on the complexities and contradictions of modernity The volume s decolonial perspective lies in its promotion of indigenous and subaltern worldviews through their traditional movement cultures on the margins of the
