## **Riverine Force:**

Mobile Riverine Force - Vol II (Limited) ,2005-08      What Lessons Can be Drawn From U.S. Riverine Operations During the Vietnam War as the U.S. Navy Moves Into the Twenty-First Century? DAVID J. SPANGLER,2025-05-22 This study examines U S riverine force operations in the Vietnam War to determine why the force was established how and why it evolved and what significance it held for the war as a whole This study begins with Operation Game Warden continues through Mobile Riverine Force operations and ends with the completion of the SEALORDS campaign The impetus for this research arose from the current debate in Washington as to whether or not the U S military has a real need for riverine forces and if those forces should be stood up today Looking back through history gives an opportunity to view past riverine warfare conducted by the American military and determine the contributions such operations have made to the overall conduct of wars This study shows that riverine operations have been crucial to success in certain environments in the past and points to their possible use in similar environments today This study measures the effect of U S riverine operations in Vietnam and evaluates the contribution this type of force made to our war effort in that environment This study promotes the use of Task Force 194 which conducted the SEALORDS campaign as the model for establishing U S riverine forces today This study points out that the nucleus of a riverine force must be maintained doctrine modernized and crew currency maintained in order to have any reasonable expectation for success at the outset of future riverine conflicts This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant      **Riverine Warfare: Vietnam** United States. Naval History Division,1972      **Vietnam War After Action Reports ,      Vietnam Studies - RIVERINE OPERATIONS 1966-1969 [Illustrated Edition]** Major General William B. Fulton,2014-08-15 Includes 2 charts 6 diagrams 16 maps and 21 illustrations This monograph describes U S Army Riverine planning and operations in the Republic of Vietnam during the years 1966 through 1969 Since the personal experience of the author was with preparations for riverine operations and the initial operations themselves emphasis has been placed on these activities through early 1968 In summarizing operations conducted in the balance of the three year period particular attention has been called to significant trends or changes in

riverine operations in Vietnam a co operative enterprise of the U S Army and the U S Navy Looking back from the vantage point of early 1972 this study attempts to reconstruct the events and describe the situation as it was from 1966 through 1969 using official records reports and personal interviews The Author Major General William Fulton was intimately involved in the early development of the riverine warfare concept as commander of the 2d Brigade 9th Infantry Division which arrived in Vietnam in January 1967 and immediately began combat operations in the Mekong Delta In March the brigade moved into Dong Tam the base created by dredging sand from the bottom of an arm of the Mekong River In early June the brigade teamed with Navy Task Force 117 to form the Mobile Riverine Force During World War II General Fulton fought in Italy and during the Korean War served on the staff of Army Forces Far East Advance *Supplemental Appropriations for Fiscal Year 2007* United States. Congress. House. Committee on Armed Services. Projection Forces Subcommittee,2006 **The Birth Of Modern Riverine Warfare: US Riverine Operations In The Vietnam War** Lieutenant Commander William B. Bassett,2014-08-15 This paper examines U S riverine operations in the Vietnam War With the current drive to establish a riverine capability within the U S Armed Forces as an integral part of the GWOT and small wars of the future the evolution and operation of the U S riverine force during the Vietnam War serves as an effective blueprint for the conduct of modern riverine warfare American riverine forces in Vietnam operated in a diverse range of brown and green water environments successfully conducting a wide variety of missions The evolution of these forces reflected the continuing need to develop the capabilities necessary for these operations Their success was largely derived from experience which resulted in the creation of a variety of discrete riverine task forces specially configured for their specific missions as the situation dictated U S riverine operations in Vietnam illustrate the complex nature of operations in brown and green water and the inherently joint requirement of the forces involved The lessons learned as a result of these operations should be incorporated as a fundamental part of the creation of any modern riverine force Terrorism ,1979 **Department of Defense**
