Carol K. Lindeen

Rivers And Lakes Science Files Earth:

Rivers & Lakes Chris Oxlade, 2002 Part of a series exploring the astounding habitats of the world around us this is a study of rivers lakes It presents scientific and geographical information in an easy to read style focusing on green issues and how mankind has affected the environment It should be particularly useful for pupils studying areas of the curriculum involving geography and ecological topics Colourful diagrams and photographs are included Life in a Stream Carol K. Lindeen, 2003-09 Text and photographs introduce the stream biome describing its environment plants and animals that live in or near streams including fish insects and bears Islands Chris Oxlade, 2003 Thousands of island dot Earth You may know that there are many very small islands but did you know that some islands are the tops of the largest mountains on Earth Discover Earth s numerous islands how they develop and the people and animals living on them Book jacket Geological Survey of Canada, Open File 2507 , *American Book Publishing Record* , 2003 *The Earth Observer* , 2019 *Basic Research Opportunities in Earth Science* National Research Council, Commission on Geosciences, Environment, and Resources, Board on Earth Sciences and Resources, Committee on Basic Research Opportunities in the Earth Sciences, 2001-02-01 Basic Research Opportunities in Earth Science identifies areas of high priority research within the purview of the Earth Science Division of the National Science Foundation assesses cross disciplinary connections and discusses the linkages between basic research and societal needs Opportunities in Earth science have been opened up by major improvements in techniques for reading the geological record of terrestrial change capabilities for observing active processes in the present day Earth and computational technologies for realistic simulations of dynamic geosystems This book examines six specific areas in which the opportunities for basic research are especially compelling including integrative studies of the near surface environment the Critical Zone geobiology Earth and planetary materials investigations of the continents studies of Earth s deep interior and planetary science It concludes with a discussion of mechanisms for exploiting these research opportunities including EarthScope natural laboratories and partnerships **Oceans** Anita Ganeri, 2003 Most of Earth s surface is covered by oceans You may know that oceans are full of creatures large and small but did you know that the oceans are the largest habitat on the planet Discover Earth s oceans how we use them and the vast variety of plants and animals that thrive in them Book jacket **Geological Survey of Canada, Open File 6543** , **Material Fluxes on the Surface of the Earth** National Research Council, Division on Earth and Life Studies, Commission on Geosciences, Environment and Resources, Board on Earth Sciences and Resources, 1994-02-01 Understanding the ebb and flow of materials on the earth s surface is vital to comprehending environmental change We need to differentiate between those that represent a progression of natural events from those that might be human induced The latter can be managed by changing policies the former probably cannot This volume presents what researchers know and do not know about the base or natural level of surficial fluxes and their dynamics Leading experts in the field offer a historical perspective on geofluxes

and discuss the cycles of materials on the earth's surface from weathering processes to the movement of material through the river system and oceans to their deposition. The committee sets research directions in five areas: shallow water studies, mapping rates of change, sample dating, and most critical, understanding whether human influence can exceed the natural variability in geoflux processes. This volume will be important reading for geophysical scientists, researchers, faculty, and students as well as environmental policymakers.
