Graduate School, 1929 *Why Women Over 30 Should Consider Graduate School* Olivia Bronst, 2012-02-29 ABOUT THE BOOK Deciding whether or not you should pursue graduate studies can be a difficult decision to make particularly when you consider the financial costs and time commitments that are involved Don't kid yourself graduate studies are nothing like what you may remember in your heyday of being an undergraduate student when you were enjoying the student lifestyle Being a graduate student is hard work that involves long hours You'll probably have very little money to spend on entertainment and at the end of it while you may have that coveted degree in your hand chances are you'll still face uncertainties regarding your future If you make the mistake of pursuing graduate studies without being clear about your reasons for doing so you run the risk of pulling out of the course later on and wasting a lot of your time and hard earned money Before pursuing graduate studies there are several things that you seriously need to consider EXCERPT FROM THE BOOK While certain careers such as becoming a doctor or a lawyer require an advanced degree many other careers offer plenty of opportunities for individuals who just have an undergraduate degree In fact in some situations if you have little or no job experience having an advanced degree can actually harm your career prospects It's important to understand the marketplace and what it values One of the easiest ways of figuring this out is to take a look at other people who are working in a career or field that you aspire to and checking out to see whether they have the qualifications that you're considering pursuing If you have any doubt whatsoever about your professional goals consider putting off graduate school and instead spend some time working on some self assessment and career planning Buy a copy to keep reading *So You Want to Go to Graduate School: A Step-by-Step Guide to Getting Accepted* Hannah Litwiler, 2017 Trying to score well on the GRE is hard enough let alone choosing the schools you want to apply to You are part of about 17 percent of college students that have decided to go on to grad school you want to make sure you get through all the stages of acceptance Whether you are applying to graduate school to prepare for a profession to get a specific job to potentially earn more or simply for personal achievement this book will explain exactly what you need to know in simple easy to understand

terms You will learn how to fill out the application form how to write your personal statement and how to conduct an effective on site visit You will learn tips and tricks to help you pass the GRE as well as practice tests to help you allocate your time well Case studies from both students and professors fill this book You will learn how to get the best letters of recommendation from your favorite professors as well as how to handle financial aid situations By book s end you will have increased your chances of receiving that crisp white letter of acceptance which puts you one step closer to achieving your academic goals *Complete Book of Graduate Programs in the Arts and Sciences* Princeton Review (Firm),2004-09 Our Best 357 Colleges is the best selling college guide on the market because it is the voice of the students Now we let graduate students speak for themselves too in these brand new guides for selecting the ideal business law medical or arts and humanities graduate school It includes detailed profiles rankings based on student surveys like those made popular by our Best 357 Colleges guide as well as student quotes about classes professors the social scene and more Plus we cover the ins and outs of admissions and financial aid Each guide also includes an index of all schools with the most pertinent facts such as contact information And we ve topped it all off with our school says section where participating schools can talk back by providing their own profiles It s a whole new way to find the perfect match in a graduate school Surveying and Mapping ,1961 **(section IV, pt. 1) Education.
