Road To Mobocracy Popular Disorder In New York City 1763 1834:

The Road to Mobocracy Paul A. Gilje, 1987 Road to Mobocracy Popular Disorder in New York City 1763 1834

Revolting New York Neil Smith, Don Mitchell, 2018-04 Occupy Wall Street did not come from nowhere It was part of a long history of riot revolt uprising and sometimes even revolution that has shaped New York City From the earliest European colonization to the present New Yorkers have been revolting Hard hitting revealing and insightful Revolting New York tells the story of New York s evolution through revolution a story of near continuous popular and sometimes not so popular uprising Richly illustrated with more than ninety historical and contemporary images historical maps and maps drawn especially for the book Revolting New York provides the first comprehensive account of the historical geography of revolt in New York from the earliest uprisings of the Munsee against the Dutch occupation of Manhattan in the seventeenth century to the Black Lives Matter movement and the unrest of the Trump era Through this rich narrative editors Neil Smith and Don Mitchell reveal a continuous if varied and punctuated history of rebellion in New York that is as vital as the more standard histories of formal politics planning economic growth and restructuring that largely define our consciousness of New York s story Contributors Marnie Brady Kathleen Dunn Zolt n Gluck Rachel Goffe Harmony Goldberg Amanda Huron Malav Kanuga Esteban Kelly Manissa McCleave Maharawal Don Mitchell Justin Sean Myers Brendan P O Malley Raymond Pettit Miguelina Rodriguez Jenjoy Roybal McNair Scott Erin Siodmak Neil Smith Peter Waldman and Nicole Watson **The Making of**

Urban America Raymond A. Mohl, Roger Biles, 2023-10-03 The revised and updated third edition of The Making of Urban America includes seven new articles and a richly detailed historiographical essay that discusses the vast urban history literature added to the canon since the publication of the second edition The authors extensively revised introductions and the fifteen reprinted articles trace urban development from the preindustrial city to the twentieth century city With emphasis on the social economic political commercial and cultural aspects of urban history these essays illustrate the growth and change that created modern day urban life Dynamic topics such as technology immigration and ethnicity suburbanization sunbelt cities urban political history and planning and housing are examined The Making of Urban America is the only reader available that covers all of U S urban history and that also includes the most recent interpretive scholarship on the subject

How the Irish Became White Noel Ignatiev, 2012-11-12 from time to time a study comes along that truly can be called path breaking seminal essential a must read How the Irish Became White is such a study John Bracey W E B Du Bois Department of Afro American Studies University of Massachusetts Amherst The Irish came to America in the eighteenth century fleeing a homeland under foreign occupation and a caste system that regarded them as the lowest form of humanity In the new country a land of opportunity they found a very different form of social hierarchy one that was based on the color of a person s skin Noel Ignatiev s 1995 book the first published work of one of America s leading and most controversial historians tells the story of how the oppressed became the oppressors how the new Irish immigrants achieved acceptance

among an initially hostile population only by proving that they could be more brutal in their oppression of African Americans than the nativists This is the story of How the Irish Became White Rogue Performances P. Reed,2009-06-22 Rogue Performances recovers eighteenth and nineteenth century American culture s fascination with outcast and rebellious characters Highwaymen thieves beggars rioting mobs rebellious slaves and mutineers dominated the stage in the period s most popular plays Peter Reed also explores ways these characters helped to popularize theatrical forms such as ballad opera patriotic spectacle blackface minstrelsy and melodrama Reed shows how both on and offstage these paradoxically powerful persistent and troubling figures reveal the contradictions of class and the force of the disempowered in the American theatrical imagination Through analysis of both well known and lesser known plays and extensive archival research this book challenges scholars to re think their assumptions about the role of class in antebellum American drama **Slavery and Freedom Among Early American Workers** Graham Russell Hodges,2016-07-01 Covering a chronological span from the seventeenth century to the Civil War the book reunites black and labor history including such major topics as the formation of slavery in the North the American Revolution blacks and the Workingmen s Movement and interracial marriage before the Civil War This book provides fascinating reading for students of American history labor history urban history and black history **Mr. Lancaster's System** Adam Laats,2024-09-17 This work explains how a failed school reform system championed by a delusional narcissist ended up creating modern urban public education in the US in the early 1800s

Rioting in America Paul A. Gilje,1999-03-22 a sweeping analytical synthesis of collective violence from the colonial experience to the present American Studies Gilje has written the book on rioting throughout American history The Historian a thorough illuminating and at times harrowing account of man s inhumanity to man William and Mary Quarterly fulfills its title s promise as an encyclopedic study an impressive accomplishment and required reading for anyone interested in America s contentious past Journal of the Early Republic Gilje has written a thought provoking survey of the social context of American riots and popular disorders from the Colonial period to the late 20th century a must read for anyone interested in riots Choice In this wide ranging survey of rioting in America Paul A Gilje argues that we cannot fully comprehend the history of the United States without an understanding of the impact of rioting Exploring the rationale of the American mob brings to light the grievances that motivate its behavior and the historical circumstances that drive the choices it makes Gilje s unusual lens makes for an eye opening view of the American people and their history The Overseas Trade of British America Thomas M. Truxes,2021-01-01 A sweeping history of early American trade and the foundation of the American economy We could have no better guide than Truxes explaining incisively how American colonial merchants enriched their communities through licit and illicit trade and how this enrichment was the product of slavery and the slave trade Nicholas Canny author of Imagining Ireland s Pasts In a single readily digestible coherent narrative historian Thomas M Truxes presents the three hundred year history of the overseas trade of British America Born from seeds planted in Tudor England in the sixteenth

century Atlantic trade allowed the initial survival economic expansion and later prosperity of British America and brought vastly different geographical regions each with a distinctive identity and economic structure into a single fabric Truxes shows how colonial American prosperity was only possible because of the labor of enslaved Africans how the colonial economy became dependent on free and open markets and how the young United States owed its survival in the struggle of the American Revolution to Atlantic trade

A Nation Without Borders Steven Hahn, 2017-12-05 A Pulitzer Prize winning historian's breathtakingly original Junot Diaz reinterpretation of the eight decades surrounding the Civil War Capatious and buzzing with ideas The Boston Globe Volume 3 in the Penguin History of the United States edited by Eric Foner In this ambitious story of American imperial conquest and capitalist development Pulitzer Prize winning historian Steven Hahn takes on the conventional histories of the nineteenth century and offers a perspective that promises to be as enduring as it is controversial It begins and ends in Mexico and throughout is internationalist in orientation It challenges the political narrative of sectionalism emphasizing the national footing of slavery and the struggle between the northeast and Mississippi Valley for continental supremacy It places the Civil War in the context of many domestic rebellions against state authority including those of Native Americans It fully incorporates the trans Mississippi west suggesting the importance of the Pacific to the imperial vision of political leaders and of the west as a proving ground for later imperial projects overseas It reconfigures the history of capitalism insisting on the centrality of state formation and slave emancipation to its consolidation And it identifies a sweeping era of reconstructions in the late nineteenth and early twentieth centuries that simultaneously laid the foundations for corporate liberalism and social democracy The era from 1830 to 1910 witnessed massive transformations in how people lived worked thought about themselves and struggled to thrive It also witnessed the birth of economic and political institutions that still shape our world From an agricultural society with a weak central government the United States became an urban and industrial society in which government assumed a greater and greater role in the framing of social and economic life As the book ends the United States now a global economic and political power encounters massive warfare between imperial powers in Europe and a massive revolution on its southern border the remarkable Mexican Revolution which together brought the nineteenth century to a close while marking the important themes of the twentieth

New York State: Peoples, Places, and Priorities Joanne Reitano, 2015-08-11 The state of New York is virtually a nation unto itself Long one of the most populous states and home of the country's most dynamic city New York is geographically strategic economically prominent socially diverse culturally innovative and politically influential These characteristics have made New York distinctive in our nation's history In New York State Peoples Places and Priorities Joanne Reitano brings the history of this great state alive for readers Clear and accessible the book features Primary documents and illustrations in each chapter encouraging engagement with historical sources and issues Timelines for every chapter along with lists of recommended reading and websites Themes of labor liberty lifestyles land and leadership running

throughout the text Coverage from the colonial period up through the present day including the Great Recession and Andrew Cuomo s governorship Highly readable and up to date New York State Peoples Places and Priorities is a vital resource for anyone studying teaching or just interested in the history of the Empire State

Sensory Worlds in Early America Peter Charles Hoffer, 2004-12-01 Honorable Mention History Category Professional and Scholarly Publishing Awards Association of American Publishers Over the past half century historians have greatly enriched our understanding of America s past broadening their fields of inquiry from such traditional topics as politics and war to include the agency of class race ethnicity and gender and to focus on the lives of ordinary men and women We now know that homes and workplaces form a part of our history as important as battlefields and the corridors of power Only recently however have historians begun to examine the fundamentals of lived experience and how people perceive the world through the five senses In this ambitious work Peter Charles Hoffer presents a sensory history of early North America offering a bold new understanding of the role that sight sound smell taste and touch played in shaping the lives of Europeans Indians and Africans in the New World Reconstructing the most ephemeral aspects of America s colonial past the choking stench of black powder the cacophony of unfamiliar languages the taste of fresh water and new foods the first sight of strange peoples and foreign landscapes the rough texture of homespun the clumsy weight of a hoe Hoffer explores the impact of sensuous experiences on human thought and action He traces the effect sensation and perception had on the cause and course of events conventionally attributed to deeper cultural and material circumstances Hoffer revisits select key events encounters and writings from America s colonial past to uncover the sensory elements in each and decipher the ways in which sensual data were mediated by prevailing and often conflicting cultural norms Among the episodes he reexamines are the first meetings of Europeans and Native Americans belief in and encounters with the supernatural the experience of slavery and slave revolts the physical and emotional fervor of the Great Awakening and the feelings that prompted the Revolution Imaginatively conceived deeply informed and elegantly written *Sensory Worlds of Early America* convincingly establishes sensory experience as a legitimate object of historical inquiry and vividly brings America s colonial era to life

The Market Revolution Charles Sellers, 1994-05-19 In *The Market Revolution* one of America s most distinguished historians offers a major reinterpretation of a pivotal moment in United States history Based on impeccable scholarship and written with grace and style this volume provides a sweeping political and social history of the entire period from the diplomacy of John Quincy Adams to the birth of Mormonism under Joseph Smith from Jackson s slaughter of the Indians in Georgia and Florida to the Depression of 1819 and from the growth of women s rights to the spread of the temperance movement Equally important he offers a provocative new way of looking at this crucial period showing how the boom that followed the War of 1812 ignited a generational conflict over the republic s destiny a struggle that changed America dramatically Sellers stresses throughout that democracy was born in tension with capitalism not as its natural political expression and he shows how the massive national resistance to commercial interests

ultimately rallied around Andrew Jackson An unusually comprehensive blend of social economic political religious and cultural history this accessible work provides a challenging analysis of this period with important implications for the study of American history as a whole It will revolutionize thinking about Jacksonian America *The Archaeology of Gender* Diana diZerega Wall, 1994-02-28 Historical archaeologists often become so involved in their potsherd patterns they seldom have time or energy left to address the broader processes responsible for the material culture patterns they recognize Some of us have urged our colleagues to use the historical record as a springboard from which to launch hypotheses with which to better understand the behavioral and cultural processes responsible for the archaeological record Too often this urging has resulted in reports designed like a sandwich having a slice of historical background followed by a totally different archaeological record and closed with a weevil ridden slice of interpretation of questionable nutritive value for understanding the past The reader is often left to wonder what the archaeological meat had to do with either slice of bread since the connection between the documented history and the material culture is left to the reader's imagination and the connection between the interpretation and the other disparate parts is tenuous at best The plethora of stale archaeological sandwiches in the literature has resulted at the methodological level from a too narrow focus on the specific history and archaeology of a site and the individuals involved on it rather than a focus on the explanation of broader processes of culture to which the actors and events at the site specific level responded **A History of New York** François Weil, 2004 Exploring the quintessential symbol of American enterprise and energy this compelling single volume history takes on the New York of myth and offers an original analysis of how it actually developed into a global city 60 photos maps *The Encyclopedia of New York City* Kenneth T. Jackson, Lisa Keller, Nancy Flood, 2010-12-01 Covering an exhaustive range of information about the five boroughs the first edition of The Encyclopedia of New York City was a success by every measure earning worldwide acclaim and several awards for reference excellence and selling out its first printing before it was officially published But much has changed since the volume first appeared in 1995 the World Trade Center no longer dominates the skyline a billionaire businessman has become an unlikely three term mayor and urban regeneration Chelsea Piers the High Line DUMBO Williamsburg the South Bronx the Lower East Side has become commonplace To reflect such innovation and change this definitive one volume resource on the city has been completely revised and expanded The revised edition includes 800 new entries that help complete the story of New York from Air Train to E ZPass from September 11 to public order The new material includes broader coverage of subject areas previously underserved as well as new maps and illustrations Virtually all existing entries spanning architecture politics business sports the arts and more have been updated to reflect the impact of the past two decades The more than 5 000 alphabetical entries and 700 illustrations of the second edition of The Encyclopedia of New York City convey the richness and diversity of its subject in great breadth and detail and will continue to serve as an indispensable tool for everyone who has even a passing interest in the American metropolis Rethinking

Class Wai-chee Dimock, Michael T. Gilmore, 1994 In recent years as the centrality of race and gender has been established in literary studies class has often been seen as a crude and reductionist concept For this volume the editors have commissioned essays arguing for the continuing vitality as well as the energizing problematics of the category of class **Mrs. Astor's New York** Eric Homberger, 2004-09-01 Mrs Astor queen of New York society in the decades before World War I used her prestige to create a social aristocracy in the city Mrs Astor's story told here by Eric Homberger sheds light on the origins extravagant lifestyle and social competitiveness of this aristocracy Spreading the Word Peter J. Wosh, 2018-05-31 Civil war the completion of transcontinental railroads rapid urbanization and industrialization the rise of managerial capitalism and new entanglements abroad rent the fabric of life in nineteenth century America Through all the turmoil the American Bible Society thrived This engaging book tells how a modest antebellum reform agency responded to cataclysmic social change and grew to be a nonprofit corporate bureaucracy that managed among other projects what was one of the largest publishing houses in the United States **Divided We Stand** Bruce Nelson, 2021-03-09 Divided We Stand is a study of how class and race have intersected in American society above all in the making and remaking of the American working class in the nineteenth and twentieth centuries Focusing mainly on longshoremen in the ports of New York New Orleans and Los Angeles and on steelworkers in many of the nation's steel towns it examines how European immigrants became American and white in the crucible of the industrial workplace and the ethnic and working class neighborhood As workers organized on the job especially during the overlapping CIO and civil rights eras in the middle third of the twentieth century trade unions became a vital arena in which old and new immigrants and black migrants forged new alliances and identities and tested the limits not only of class solidarity but of American democracy The most volatile force in this regard was the civil rights movement As it crested in the 1950s and 60s the Movement confronted unions anew with the question Which side are you on This book demonstrates the complex ways in which labor organizations answered that question and the complex relationships between union leaders and diverse rank and file constituencies in addressing it Divided We Stand includes vivid examples of white working class agency in the construction of racially discriminatory employment structures But Nelson is less concerned with racism as such than with the concrete historical circumstances in which racialized class identities emerged and developed This leads him to a detailed and often fascinating consideration of white working class ethnicity but also to a careful analysis of black workers their conditions of work their aspirations and identities their struggles for equality Making its case with passion and clarity Divided We Stand will be a compelling and controversial book

Unveiling the Magic of Words: A Overview of "**Road To Mobocracy Popular Disorder In New York City 1763 1834**"

In a global defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their power to kindle emotions, provoke contemplation, and ignite transformative change is truly awe-inspiring. Enter the realm of "**Road To Mobocracy Popular Disorder In New York City 1763 1834**," a mesmerizing literary masterpiece penned with a distinguished author, guiding readers on a profound journey to unravel the secrets and potential hidden within every word. In this critique, we shall delve into the book is central themes, examine its distinctive writing style, and assess its profound effect on the souls of its readers.
