Road To Tokyo:

Richard Tregaskis Ray E. Boomhower, 2021-11-15 In the late summer of 1942 more than ten thousand members of the First Marine Division held a tenuous toehold on the Pacific island of Guadalcanal As American marines battled Japanese forces for control of the island they were joined by war correspondent Richard Tregaskis Tregaskis was one of only two civilian reporters to land and stay with the marines and in his notebook he captured the daily and nightly terrors faced by American forces in one of World War II s most legendary battles and it served as the premise for his bestselling book *Guadalcanal Diary* One of the most distinguished combat reporters to cover World War II Tregaskis later reported on Cold War conflicts in Korea and Vietnam In 1964 the Overseas Press Club recognized his first person reporting under hazardous circumstances by awarding him its George Polk Award for his book *Vietnam Diary* Boomhower s riveting book is the first to tell Tregaskis s gripping life story concentrating on his intrepid reporting experiences during World War II and his fascination with war and its effect on the men who fought it

The Tôkaidô Road Jilly Traganou, 2004-08-02 The Tôkaidô Road offers a comparative study of the Tôkaidô road s representations during the Edo 1600 1868 and Meiji 1868 1912 eras Throughout the Edo era the Tôkaidô highway was the most important route of Japan and transportation was confined to foot travel In 1889 the Tôkaidô Railway was established at first paralleling and eventually almost eliminating the use of the highway During both periods the Tôkaidô was a popular topic of representation and was depicted in a variety of visual and literary media After the installation of the railway in the Meiji era the Tôkaidô was presented as a landscape of progress modernity and westernisation Such representations were fundamental in shaping the Tôkaidô and the realm of travelling in the collective consciousness of the Japanese people

War in the American Pacific and East Asia, 1941-1972 Hal M. Friedman, 2019-02-22 Before 1940 the Japanese empire stood as the greatest single threat to the American presence in the Pacific and East Asia To a lesser degree the formerly hegemonic colonial powers of Britain France and the Netherlands still controlled portions of the region At the same time subjugated peoples in East Asia and Southeast Asia struggled to throw off colonialism By the late 1930s the competition exploded into armed conflict Japan looked like the early victor but the United States eventually established itself as the hegemonic power in the Pacific Basin by 1945 Yet when it comes to the American movement out into the Pacific there is more to the story that has yet to be revealed In *War in the American Pacific and East Asia 1941 1972* editor Hal Friedman brings together nine essays that explore lesser known aspects and consequences of America s military expansion into the Pacific during and after World War II This study explores how the United States won the Pacific War against Japan and how it sought to secure that victory in the decades that followed ensure it never endured another Pearl Harbor style defeat and saw the Pacific fulfill a Manifest Destiny like role as an American frontier projected toward East Asia The collection explores the role of the US military in the Pacific Basin in different ways by presenting essays on interservice rivalry and military advising as well as unique topics that are new to military history such as the investigations of strategic

communications military public relations institutional cultures of elite forces foodways and the military's interaction with the press Together these essays provide a path for historians to pursue groundbreaking areas of research about the Pacific and establish the Pacific War as the pivotal point in the twentieth century in the Pacific Basin **Seabee Roads to Victory** ,

"Nick" Mueller,2025-06-06 Preserving the Legacy offers a comprehensive and compelling look at the founding and first two decades of The National WWII Museum now one of the largest and most immersive military museums in the United States Before its inception friends and historians Gordon H Nick Mueller and Stephen E Ambrose recognized the need for an institution dedicated to preserving the oral histories of WWII veterans and the history of World War II more generally Their efforts resulted in the opening of the D Day Museum on June 6 2000 With funding from the federal government the state of Louisiana and numerous individuals including actor Tom Hanks and director Steven Spielberg the Museum rapidly expanded Following Ambrose's death in 2002 the U S Congress designated the institution as America's National World War II Museum Today it consists of seven separate pavilions that span the entirety of the war and boasts several multifaceted educational programs many of which are held in the Museum's Higgins Hotel and Conference Center Its twenty five year history is one of remarkable success Preserving the Legacy begins with a foreword by famed journalist and longtime champion of the Museum Tom Brokaw Nick Mueller then narrates the growth of the Museum detailing its leadership and the various intellectual challenges involved in accurately portraying the scale of wartime sacrifice and loss He traces the development deliberations and decisions of the many boards and committees that helped transform the embryonic institution into a sprawling museum complex in the heart of New Orleans Far surpassing the modest intentions of its founders The National WWII Museum not only provides today's visitors with authentic historical context but also will serve as a valuable educational resource for generations to come *The Road to Tinian: the Story of the 135th USNCB* , **Swimming Beyond Limits: The Extraordinary Journey of Jessica Long** J.G. Washington,2022-01-31 Christians have never constituted one percent of Japan s population yet Christianity had a disproportionately large influence on Japan s social intellectual and political development This happened despite the Tokugawa shogunate s successful efforts to criminalize Christianity and even after the Meiji government took measures to limit its influence From journalism and literature to medicine education and politics the mark of Protestant Japanese is indelible Herein lies the conundrum that has interested scholars for decades How did Christianity overcome the ideological legacies of its past in Japan How did Protestantism distinguish itself from the other options in the religious landscape like Buddhism and New Religions And how did the religious movement s social relevance and activism persist despite the government s measures to weaken the relationship between private religion and secular social life in Japan In *Church Space and the Capital in Prewar Japan* Garrett L Washington responds to these questions with a spatially explicit study on the influence of the Protestant church in imperial Japan He examines the physical and social spaces that Tokyo s largest Japanese led congregations cultivated between 1879 and 1923 and their broader social ties These churches developed alongside and competed with the locational architectural and social spaces of Buddhism Shinto and New Religions Their success depended on their pastors decisions about location and relocation those men s conceptualizations of the new imperial capital and aspirations for Japan and the Western style buildings they commissioned Japanese pastors and laypersons grappled with Christianity s relationships to national identity political ideology women s rights Japanese imperialism and modernity church based group activities aimed to raise social awareness and improve society Further it was largely through attendees externalized ideals and networks developed at church but expressed in their public lives outside the church that Protestant Christianity exerted such a visible influence on modern Japanese society *Church Space* offers answers to longstanding questions about Protestant Christianity s reputation and influence by using a new space centered perspective to focus on Japanese agency in the religion s metamorphosis and social impact adding a fresh narrative of cultural imperialism **World War II in Literature for Youth** Patricia Hachten Wee,Robert James Wee,2004-11-10 This comprehensive volume provides a wealth of information with annotated listings of more than 3 500 titles a broad sampling of books on the war years 1939 1945 Includes both fiction and nonfiction works about all aspects of the war Professional resources for educators aligned to the educational standards for social studies technical references periodicals and electronic resources a directory of WWII museums memorials and other institutions and topics for exploration complement this excellent library and classroom resource **The Far Eastern Review** ,1928 **Japan Report** ,1967 **Japanese Industrial History** Carl Mosk,2016-09-16 A detailed examination of the industrial development of Japan since the Meiji

Restoration The Sirens of Wartime Radio and How the American Print Media Presented Them Scott A. Morton, 2020-10-05 The Sirens of Wartime Radio and How the American Print Media Presented Them The Stories the Intrigue and the Evolving Coverage of Their Legacies analyzes press coverage from the American print media that helped construct popular images of Tokyo Rose Axis Sally Seoul City Sue and Hanoi Hannah Coverage of these radio sirens essentially constructed and defined these women's legacies for an American audience Scott A Morton examines newspaper and magazine coverage from the periods of each broadcaster and in doing so analyzes four primary research inquiries Morton discusses how American newspapers and magazines portrayed each woman to American readers how the American mass media's portrayal of them evolved overtime from the mid 1940s through the present the ways in which the American mass media responded to these five female propagandists either directly or indirectly through print radio and visual media and how the legacy of each woman has been kept alive in popular culture in the decades since their last broadcasts Morton argues that for the most part coverage of the sirens was borne out of fascination and aversion fascination stemming from the novelty of women acting as high profile agents of enemy propaganda organizations and aversion stemming from the potential power they had over U S servicemen and the fact that they were viewed as traitors to the U S Scholars of media studies history and international relations will find this book particularly useful An Unbroken Spirit: The Inspiring Journey of Afghanistan's Paralympic Heroes!
