W. McLeod, 2023-06-06 When Astero enlisted into the army during World War II he accepted the dangerous consequences Little did he know he signed himself up to battle in not just one but two wars Humans and magical creatures alike joined the battle and he finds himself thrust into this new world when the vicious witch Catarina detains him for her own special brand of questioning Magdiana wanted to keep her head down but when a distant family member comes to her for help she accepts the mission There is one man who can turn the tides in the war and they must liberate him at all costs The pair find themselves stranded and must make a treacherous journey to civilization but what awaits them is more fear death and duty It s always one last mission for the greater good but when their next job sends them into the clutches of a demon and his summoner the pair know they are headed to their doom If they can finish the job they might help turn the tides of the war in their favor and if they fail it could all come tumbling down *A War of Logistics* Charles R. Shrader, 2015-10-23 Following the French reoccupation of Indochina at the end of World War II the pro Communist Vietnamese nationalists or Viet Minh launched a grassroots insurgency that erupted into a full fledged war in 1949 After nearly ten years of savage combat the western world was stunned when Viet Minh forces decisively defeated the French Union army at the battle of Dien Bien Phu in May 1954 Logistics dominated every aspect of the First Indochina War dictating the objectives the organization of forces the timing and duration of the operations and even the final outcome In A War of Logistics Charles R Shrader meticulously examines both French Union and Viet Minh logistical units during the period of active conventional warfare as well as external support provided to the French by the United States and to the Vietnamese by China Although the Vietnamese had few advantages over their opponents their military leaders brilliantly employed a highly committed network of soldiers and civilians outfitted to accommodate the challenging terrain on which they fought Drawing on extensive research such as declassified intelligence documents the reports of French participants and accounts by Viet Minh leaders including Vo Nguyen Giap and Ho Chi Minh A War of Logistics provides in depth coverage of the often ignored but critically important topic of logistics in modern military campaigns *The Indiana Jackass Regiment in the Civil War* Phillip E.
