The Road to Corlay Richard Cowper, 1979-01-01 Richard Cowper SF Gateway Omnibus Richard Cowper, 2014-11-25

From the vaults of the SF Gateway the most comprehensive digital library of classic SFF titles ever assembled comes an ideal introduction to one of the unique voices of British science fiction John Middleton Murry Jr who wrote his best work under the pen name Richard Cowper The son of the famous critic John Middleton Murry Cowper announced himself to the science fiction world in 1967 with BREAKTHROUGH which found favour for a subtlety and richness of characterisation not seen in most contemporary SF The idea of a transformed future England became his signature leitmotif and it is this theme that informs the Corlay tales contained in this omnibus This is the complete Corlay sequence featuring introductory novella PIPER AT THE GATES OF DAWN and novels THE ROAD TO CORLAY A DREAM OF KINSHIP and A TAPESTRY OF TIME THE ROAD TO CORLAY On the Eve of the Fourth Millennium a slowly building civilization struggling out of the rubble of the Drowning was crushed beneath the sceptre of a powerful and repressive Church But on the Eve of the Fourth Millennium the sound of a magical pipe was heard and the air was filled with songs of freedom and enlightenment And on the Eve of the Fourth Millennium the Boy appeared bringing the gift of sacrilege a harbinger of the future heralding the arrival of the White Bird of Dawning It is the coming of a New Age A glorious future bearing the presents of the past A DREAM OF KINSHIP They came to destroy The treacherous Falcons uniformed in the black leather tunics of the fanatic Secular Arm descended on Corlay to burn and kill Commanded by Lord Constant ruler of the Seven Kingdoms they were determined to crush the religious heresy of Kinship But a new dream rose from the ashes When four Kinsmen escaped the carnage of their beloved land each helped to fulfill the miracle that had been foretold the coming of the Child of the Bride of Time A TAPESTRY OF TIME Twenty years have passed since the martyrdom of the Boy piper at York twenty years in which his legacy the movement of Kinship has challenged the tyranny of the Church Militant in Britain's seven island kingdoms Now his namesake Tom bearing the Boy's own pipes and perhaps himself imbued with the spirit of the White Bird is wandering Europe in company with the girl Witchet But disaster overtakes them and Tom in a flurry of vengeance breaks his vow of Kinship A terrible path lies before him one that transcends his own world As he travels it Tom must come to understand the true nature of the wild White Bird of The Bride of Time and her Child and of the Song the Star Born sang *The Road to Corlay Sf* Richard Cowper, 1978

Anthropocene Fictions Adam Trexler, 2015-04-20 Since the Industrial Revolution humans have transformed the Earth's atmosphere committing our planet to more extreme weather rising sea levels melting polar ice caps and mass extinction This period of observable human impact on the Earth's ecosystems has been called the Anthropocene Age The anthropogenic climate change that has impacted the Earth has also affected our literature but criticism of the contemporary novel has not adequately recognized the literary response to this level of environmental crisis Ecocriticism's theories of place and planet meanwhile are troubled by a climate that is neither natural nor under human control *Anthropocene Fictions* is the first

systematic examination of the hundreds of novels that have been written about anthropogenic climate change Drawing on climatology the sociology and philosophy of science geography and environmental economics Adam Trexler argues that the novel has become an essential tool to construct meaning in an age of climate change The novel expands the reach of climate science beyond the laboratory or model turning abstract predictions into subjectively tangible experiences of place identity and culture Political and economic organizations are also being transformed by their struggle for sustainability In turn the novel has been forced to adapt to new boundaries between truth and fabrication nature and economies and individual choice and larger systems of natural phenomena *Anthropocene Fictions* argues that new modes of inhabiting climate are of the utmost critical and political importance when unprecedented scientific consensus has failed to lead to action Under the Sign of Nature Explorations in Ecocriticism *A Tapestry of Time* Richard Cowper, 2011-09-29 The first coming was the Man The second was Fire to burn Him The third was water to drown the Fire The fourth is the Bird of Dawning Twenty years have passed since the martyrdom of the Boy piper at York twenty years in which his legacy the movement of Kinship has challenged the tyranny of the Church Militant in Britain's seven island kingdoms Now his namesake Tom bearing the Boy's own pipes and perhaps himself imbued with the spirit of the White Bird is wandering Europe in company with the girl Witchet But disaster overtakes them and Tom in a fury of vengeance breaks his vow of Kinship A terrible path lies before him one that transcends his own world As he travels it Tom must come to understand the true nature of the wild White Bird of The Bride of Time and her Child and of the Song the Star Born sang **Armageddons** Gardner Dozois, Jack Dann, 2013-03-15 It's the end of the world but not as we know it As the new millennium approaches speculations about Earth's destruction abound This collection presents twelve world ending scenarios that are all too frightening and all too real _Fermi and Frost by Frederik Pohl _A Desperate Calculus by Gregory Benford _Evolution by Nancy Kress _A Message to the King of Brobdingnag by Richard Cowper _The World As We Know It by Howard Waldrop _The Peacemaker by Gardner Dozois _The Screwfly Solution by Raccoona Sheldon _A Pail of Air by Fritz Leiber _The Great Nebraska Sea by Allan Danzig _Inconstant Moon by Larry Niven _The Last Sunset by Geoffrey A Landis _Down in the Dark by William Barton At the publisher's request these titles were sold without DRM Digital Rights Management **The Year's Best Science Fiction: Second Annual Collection** Gardner Dozois, 1985-05-15 This collection is the second installment in the popular and long running The Year's Best Science Fiction series Fantastic Science Fiction The Year's Best And Biggest Collection Here's the cream of the crop short stories novelettes novellas by science fiction writers already famous and awarded for their high quality work in science fiction Writers like Robert Silverberg Lucius Shepard Jack McDevitt Octavia E Butler Connie Willis Richard Cowper John Varley Gene Wolfe The Mammoth Book of Best New Horror 2003 Stephen Jones, 2012-03-01 The finest exponents of horror fiction writing today Neil Gaiman China Mieville Ramsey Campbell Kim Newman Graham Joyce Paul McCauley Stephen Gallagher Caitlin R Kiernan Basil Cooper Glen Hirshberg Jay Russell feature in the world's premier

Bridges to Science Fiction George Edgar Slusser, 1980 Ten new critical essays written for presentation at the first Eaton Conference on Science Fiction and Fantasy Literature held 24-25 February 1979 at the University of California Riverside While critical discussion of science fiction has become increasingly sophisticated during the past decade there remains a tendency among some teachers and readers to consider science fiction as an independent phenomenon that exists unconnected to the mainstream of our cultural inheritance These essays by Harry Levin Irving Babbitt Professor of Comparative Literature at Harvard University Kent T Kraft Assistant Professor of Comparative Literature at the University of Georgia Athens Stephen Potts writer and instructor at San Diego State University Gregory Benford writer and Associate Professor of Physics at the University of California Irvine Robert Hunt an editor at Glencoe Publishing Eric S Rabkin Professor of English at the University of Michigan Patrick Parrinder instructor at the University of Reading England Thomas Keeling Lecturer in English at the University of California Los Angeles Carl D Malmgren instructor at the University of Oregon Eugene and Thomas Hanzo Professor of English and Chairman of the department at the University of California Davis suggest the connections that exist between science fiction and other aspects of Western cultural tradition Ranging in interest from the specifically philosophical to the specifically literary the essays relate science fiction to such topics as medieval cosmological discourse classical empirical philosophy fairy tale epic and Gothic fiction Emerging from the volume as a whole are both a coherent view of science fiction as a genre and a heightened sense of its complex relation to our cultural heritage

The Mammoth Book of Apocalyptic SF Mike Ashley, 2010-05-27 The last sixty years have been full of stories of one or other possible Armageddon whether by nuclear war plague cosmic catastrophe or more recently global warming terrorism genetic engineering AIDS and other pandemics These stories both pre and post apocalyptic describe the fall of civilization the destruction of the entire Earth or the end of the Universe itself Many of the stories reflect on humankind's infinite capacity for self destruction but the stories are by no means all downbeat or depressing one key theme explores what the aftermath of a cataclysm might be and how humans strive to survive
