Encountering the Everyday Michael Hviid Jacobsen,2017-09-16 Everyday life is something we tend to take for granted something that just is something unnoticed But everyday life is perhaps the most important dimension of society it s where we live most parts of our lives with each other This book provides a clear contemporary and comprehensive overview of the sociologies of everyday life Looking at everyday activities and experiences from language and emotions to popular culture and leisure Encountering the Everyday explores what social structures orders and processes mean to us on a daily basis The book carefully leads the reader through historical developments in the field beginning at the earlier Chicago school and finishing with up to date ideas of postmodernism and interactionism Each chapter relates theoretical ideas directly to case studies and real empirical research to make complex concepts and core issues accessible relevant and engaging Written by leading international scholars in the field this truly global book will inspire and inform all students and scholars of everyday life sociology

The Interactionist Imagination Michael Hviid Jacobsen,2017-07-01 This book outlines the history and developments of interactionist social thought through a consideration of its key figures Arranged chronologically each chapter illustrates the impact that individual sociologists working within an interactionism framework have had on interactionism as perspective and on the discipline of sociology as such It presents analyses of interactionist theorists from Georg Simmel through to Herbert Bulmer and Erving Goffman and onto the more recent contributions of Arlie R Hochschild and Gary Alan Fine Through an engagement with the latest scholarship this work shows that in a discipline often focused on macrosocial developments and large scale structures the interactionist perspective which privileges the study of human interaction has continued relevance The broad scope of this book will make it an invaluable resource for scholars and students of sociology social theory cultural studies media studies social psychology criminology and anthropology

Interactionism Andrea Salvini, Joseph A. Kotarba, Bryce Merrill, 2012 **Rebel populism** Philip Proudfoot, 2022-05-17

Workers from the Syrian diaspora have maintained a presence in Lebanon for decades building multimillion dollar apartment complexes toiling for backbreaking hours in grocery stores From the mid 2000s liberalising reforms saw accelerating levels of poverty among workers often paid as low as 20 per day Instead of opportunity workers faced the prospect of indefinite economic exile the unending drudgery of hard labour and a constant struggle to make ends meet But in 2011 revolution came to Syria Rural towns and villages exploded in revolt but even those workers who remained in Beirut found means to protest at a distance Their movement which this book identifies as rebel populism represents an early instance of an increasingly common global contentious political formation a form of mass politics that emerges not via a charismatic orator or developed ideological convictions but through the weaving together of grievances aimed at the ruling class Climate Trauma E. Ann Kaplan, 2015-12-04 Each month brings new scientific findings that demonstrate the ways in which human activities from resource extraction to carbon emissions are doing unprecedented perhaps irreparable damage to our world As we hear these climate change reports and their predictions for the future of Earth many of us feel a sickening sense of d j vu as though we have already seen the sad outcome to this story Drawing from recent scholarship that analyzes climate change as a form of slow violence that humans are inflicting on the environment Climate Trauma theorizes that such violence is accompanied by its own psychological condition what its author terms Pretraumatic Stress Disorder Examining a variety of films that imagine a dystopian future renowned media scholar E Ann Kaplan considers how the increasing ubiquity of these works has exacerbated our sense of impending dread But she also explores ways these films might help us productively engage with our anxieties giving us a seemingly prophetic glimpse of the terrifying future selves we might still work to avoid becoming Examining dystopian classics like Soylent Green alongside more recent examples like The Book of Eli Climate Trauma also stretches the limits of the genre to include features such as Blindness The Happening Take Shelter and a number of documentaries on climate change These eclectic texts allow Kaplan to outline the typical blind spots of the genre which rarely depicts climate catastrophe from the vantage point of women or minorities Lucidly synthesizing cutting edge research in media studies psychoanalytic theory and environmental science Climate Trauma provides us with the tools we need to extract something useful from our nightmares of a catastrophic future **Framing Law and Crime** Caroline Joan "Kay" S. Picart, Michael Hviid Jacobsen, Cecil Greek, 2016-04-01 This cutting edge edited collection brings together 17 scholarly essays on two of cinema and television's most enduring and powerful themes law and crime With contributions by many of the most prominent scholars in law sociology criminology and film Framing Law and Crime offers a critical survey of a variety of genres and media integrating descriptions of technique with critical analysis and incorporating historical and socio political critique The first set of essays brings together accounts of the history of the Law and Cinema Movement the groundbreaking

genre of post apocalyptic fiction and the policy setting genesis of a Canadian documentary The second section of the book turns to the examination of a range of international or global films with an eye to assessing the strengths frailties and possible functions of law as depicted in fictional cinema After an international focus in the second section the third section focuses on law and crime in American film and television inclusive of both fictional and documentary modes of narration This section s expansion beyond film narratives to include television series attempts to broaden the scope of the edited collection in terms of media discussed it is also a nod to how the big screen although still a dominant force in American popular culture now has to compete to some extent with the small screen for influence over the collective American popular cultural imaginary The fourth section titled brings together various chapters that attempt to instantiate how a Gothic Criminology could be useful as an interpretative framework in analyzing depictions of law and crime in film and television The fifth and final section covers issues of pedagogy epistemology and ethics in relation to moving images of law and crime Merging wide ranging analyses with nuanced scholarly interpretations Framing Law and Crime examines key concepts and showcases original research reflecting the latest interdisciplinary trends in the scholarship of the moving image It addresses not only scholars but also fans and will heighten the appreciation of connoisseurs and newcomers to these topics alike Gender Innovation and Migration in Switzerland Francesca Falk,2018-11-21 This open access book analyses migration and its relation to socio political transformation in Switzerland It addresses how migration has made new forms of life possible and shows how this process generated gender innovation in different fields the changing division of work the establishment of a nursery infrastructure access to higher education for women and the struggle for female suffrage Seeing society through the lens of migration alters the perspective from which our past and thus our present is told and our future imagined

Religious Offence and Human Rights Lorenz Langer,2014-07-10 Should international law be concerned with offence to religions and their followers Even before the 2005 publication of the Danish Mohammed cartoons Muslim States have endeavoured to establish some reputational protection for religions on the international level by pushing for recognition of the novel concept of defamation of religions This study recounts these efforts as well as the opposition they aroused particularly by proponents of free speech It also addresses the more fundamental issue of how religion and international law may relate to each other Historically enforcing divine commands has been the primary task of legal systems and it still is in numerous municipal jurisdictions By analysing religious restrictions of blasphemy and sacrilege as well as international and national norms on free speech and freedom of religion Lorenz Langer argues that on the international level at least religion does not provide a suitable rationale for legal norms
