*The Afterlives of Walter Scott* Ann Rigney, 2012-03-08 Sir Walter Scott 1771 1832 once an immensely popular writer is now largely forgotten This book explores how works like Waverley Ivanhoe and Rob Roy percolated into all aspects of cultural and social life in the nineteenth century and how his work continues to resonate into the present day even if Scott is no longer widely read Will Cuppy, American Satirist Wes D. Gehring, 2013-10-11 Back in the golden age of humor books late 1920s early 1950s when wits of the pantheon like Robert Benchley James Thurber and S J Perelman were producing their signature works there was another singular satirist who more than held his own with such fast company Will Cuppy 1884 1949 This factual funnyman s metier is dark comedy that flirts with nihilism His agenda is baldly stated in such classic Cuppy book titles as *How to Be a Hermit* 1929 *How to Tell Your Friends from the Apes* 1931 and *The Decline and Fall of Practically Everybody* 1950 This biography doubles as a critical study of a satirist whose shish kebabing of humanity was often done through the veiled anthropomorphic use of animals For a biographer Will Cuppy represents a treasure trove of possibilities He was a great humorist and most of his best work is still in print but until now he has never been the subject of a book length study His mesmerizingly complex and eccentric private life almost trumps the comic accomplishments of his public persona **Pan-Africanism, and the Politics of African Citizenship and Identity** Toyin Falola, Kwame

Essien, 2013-10-08 There is no recent literature that underscores the transition from Pan Africanism to Diaspora discourse This book examines the gradual shift and four major transformations in the study of Pan Africanism It offers an academic post mortem that seeks to gauge the extent to which Pan Africanism overlaps with the study of the African Diaspora and reverse migrations how Diaspora studies has penetrated various disciplines while Pan Africanism is located on the periphery of the field The book argues that the gradual shift from Pan African discourses has created a new pathway for engaging Pan African ideology from academic and social perspectives Also the book raises questions about the recent political waves that have swept across North Africa and their implications to the study of twenty first century Pan African solidarity on the African continent The ways in which African institutions are attracting and mobilizing returnees and Pan Africanists with incentives as dual citizenship for diasporans to support reforms in Africa offers a new alternative approach for exploring Pan African ideology in the twenty first century Returnees are also using these incentives to gain economic and cultural advantage The book will appeal to policy makers government institutions research libraries undergraduate and graduate students and scholars from many different disciplines Apologetics in 3D Peter S. Williams, 2021-09-03 This collection of papers and other materials from English philosopher Peter S Williams develops a holistic vision for Christian apologetics centered around a biblical understanding of spirituality Grounded in two decades of practical experience here is a vision of apologetics that s interested in communicating through beauty and goodness as well as logic and arguments Lost Land of the Dodo Anthony Cheke, Julian P. Hume, 2009-01-01 The Mascarene islands in the southern Indian Ocean Mauritius R union

and Rodrigues were once home to an extraordinary range of birds and reptiles. Evolving on these isolated volcanic islands in the absence of mammalian predators or competitors, the land was dominated by giant tortoises, parrots, skinks, and geckos. Burrowing boas, flightless rails, the birds, and tortoises were slaughtered indiscriminately while introduced rats, cats, pigs, and monkeys destroyed their eggs. The once extensive forests, logged and invaded by introduced plants from all over the tropics, devastated the ecosystem. The now familiar icon of extinction, the Dodo, was gone from Mauritius within 50 years of human settlement, and over the next 150 years many of the Mascarenes, other native vertebrates, followed suit. The product of over 30 years' research by Anthony Cheke, *Lost Land of the Dodo* provides a comprehensive yet hugely enjoyable account of the story of the islands' changing ecology, interspersed with human stories, the islands' biogeographical anomalies, and much else. Many French publications, old and new, especially for Réunion, are discussed and referenced in English for the first time. The book is richly illustrated with maps and contemporary illustrations of the animals and their environment, many of which have rarely been reprinted before. Illustrated box texts look in detail at each extinct vertebrate species, while Julian Hume's superb colour plates bring many of the extinct birds to life. *Lost Land of the Dodo* provides the definitive account of this tragic yet remarkable fauna and is a must read for anyone interested in islands, their ecology, and the history of our relationship with the world around us. [Landscapes of Realism](#) Svend Erik Larsen, Steen Bille Jørgensen, Margaret R. Higonnet, 2022-03-15

Few literary phenomena are as elusive and yet as persistent as realism. While it responds to the perennial impulse to use literature to reflect on experience, it also designates a specific set of literary and artistic practices that emerged in response to Western modernity. *Landscapes of Realism* is a two-volume collaborative interdisciplinary investigation of this vast territory, bringing together leading-edge new criticism on the realist paradigms that were first articulated in nineteenth-century Europe but have since gone on globally to transform the literary landscape. Tracing the manifold ways in which these paradigms are developed, discussed, and contested across time, space, cultures, and media, this second volume shows, in its four core essays and twenty-four case studies, four major pathways through the landscapes of realism: the psychological pathways focusing on emotion and memory; the referential pathways highlighting the role of materiality; the formal pathways demonstrating the dynamics of formal experiments; and the geographical pathways exploring the worlding of realism through the encounters between European and non-European languages from the nineteenth century to the present. This volume is part of a book set which can be ordered at a special discount. **Play Among Books** Miro Roman, Alice \_ch3n81, 2021-12-06

How does coding change the way we think about architecture? This question opens up an important research perspective. In this book, Miro Roman and his AI, Alice\_ch3n81, develop a playful scenario in which they propose coding as the new literacy of information. They convey knowledge in the form of a project model that links the fields of architecture and information through two interwoven narrative strands in an infinite flow of real books. Focusing on the intersection of information technology and architectural formulation, the authors create an evolving intellectual reflection on digital architecture and

**Multicultural Origins of the Global Economy'** John M. Hobson,2020-12-10 Develops a fresh non Eurocentric analysis of the rise and development of the global economy in the last half millennium      **Publishers' Circular and Booksellers' Record of British and Foreign Literature** ,1895      **The Future of Consumer Society** Maurie J. Cohen,2016-11-03

Consumer society in the United States and other countries is receding due to demographic ageing rising income inequality political paralysis and resource scarcity At the same time steady jobs that compensate employees on a salaried or hourly basis are being replaced by freelancing and contingent work The rise of the so called sharing economy the growth of do it yourself production and the spreading popularity of economic localization are evidence that people are striving to find new

ways to ensure livelihoods for themselves and their families in the face of profound change. Indications are that we are at the early stages of a transition away from a system of social organization predicated on consumerism. These developments have prompted some policy makers to suggest providing households with a non labor source of income that would enable more adequate satisfaction of their basic needs. These proposals include a universal basic income, a citizen's dividend, and a legal framework for broad based stock ownership in corporations. However, extreme political fractiousness makes it unlikely that these recommendations will receive prompt and widespread legislative endorsement in most countries. In the meantime, we seem to be moving incontrovertibly toward a twenty first century version of feudalism. How might we chart a different path founded on social inclusiveness and economic security? A practicable option entails establishment of networks of interlinked worker consumer cooperatives that organizationally unify production and consumer. Such modes of mutual assistance already exist. The Future of Consumer Society profiles several successful examples from around the world. If replicated and scaled, worker consumer cooperatives could smooth the transition beyond consumer society and facilitate a future premised on sufficiency, resiliency, and well being.

The Publisher, 1909      *An Ordinary Family - Extra-Ordinary Times* Roy L. Bebee, 2016-03-24. Bound for the New World: an English father of seven dies at sea in 1650. Only the children fulfill their fathers dream in the beginning of the New London colonial settlement. This narrative follows the Beebe family who survive the vortex of the Wyoming Valley Massacre, Pennsylvania, and its aftermath at the cost of the breadwinners own life. Mary Secord Beebe, mother of seven, escapes the oncoming reprisals of the Continental forces by fleeing to Fort Niagara, NY. British Headquarters. Starting over in a remote village within the Province of Quebec, Canada, one descendant returns to Pennsylvania and eventually homesteads in the Sandhills of Nebraska. Follow this intriguing story of an ordinary family living in extra ordinary times.

**La Parisienne in cinema** Felicity Chaplin, 2017-07-21. Chic, sophisticated, seductive, and enigmatic, the Parisienne possesses a *je ne sais quoi* that makes her difficult to define. But who or what is the Parisienne, and how is she depicted in cinema? The first book length study on the subject combines scholarship in the fields of art history, literature, and fashion to enrich our understanding of this intriguing cinematic figure, simultaneously offering new perspectives on film. Accessible and wide ranging, it will be of immediate interest to students and researchers working in film studies, French studies, and the broader humanities, as well as cinephiles and Francophiles alike.

The Illustrated London News: Chess, 1848      **The Rise and Fall of Japan's LDP** Ellis S. Krauss, Robert J. Pekkanen, 2011-06-15. After holding power continuously from its inception in 1955, with the exception of a ten month hiatus in 1993, 1994, Japan's Liberal Democratic Party (LDP) lost control of the national government decisively in September 2009. Despite its defeat, the LDP remains the most successful political party in a democracy in the post World War II period. In *The Rise and Fall of Japan's LDP*, Ellis S. Krauss and Robert J. Pekkanen shed

light on the puzzle of the LDP's long dominance and abrupt defeat. Several questions about institutional change in party politics are at the core of their investigation: What incentives do different electoral systems provide? How do politicians adapt to new incentives? How much does structure determine behavior and how much opportunity does structure give politicians to influence outcomes? How adaptable are established political organizations? The electoral system Japan established in 1955 resulted in a half century of one party democracy. But as Krauss and Pekkanen detail sweeping political reforms in 1994 changed voting rules and other key elements of the electoral system. Both the LDP and its adversaries had to adapt to a new system that gave citizens two votes: one for a party and one for a candidate. Under the leadership of the charismatic Koizumi Junichiro the LDP managed to maintain its majority in the Japanese Diet but his successors lost popular support as opposing parties learned how to operate in the new electoral environment. Drawing on the insights of historical institutionalism Krauss and Pekkanen explain how Japanese politics functioned before and after the 1994 reform and why the persistence of party institutions, factions, *PARC* *koenkai* and the transformed role of party leadership contributed both to the LDP's success at remaining in power for fifteen years after the reforms and to its eventual downfall. In an epilogue the authors assess the LDP's prospects in the near and medium term.
