H. Winnick,1966 The Life of Robert Frost Henry Hart,2017-04-17 The Life of Robert Frost presents a unique and rich
approach to the poet that includes original genealogical research concerning Frost s ancestors and a demonstration of how
mental illness plagued the Frost family and heavily influenced Frost s poetry A widely revealing biography of Frost that
discusses his often perplexing journey from humble roots to poetic fame revealing new details of Frost s life Takes a unique

Frost s complexity Discusses the traumatic effect on Frost of his father s early death and the impact on his poetry and
outlook Presents original information on the influence of his mother s Swedenborgian mysticism **Critical Companion to**
Robert Frost Deirdre J. Fagan,2007 Known for his favorite themes of New England and nature Robert Frost may well be the
most famous American poet of the 20th century This is an encyclopedic guide to the life and works of this great American
poet It combines critical analysis with information on Frost s life providing a one stop resource for students Projecting
Words, Writing Images John R. Leo,Marek Paryz,2011-08-08 This compilation of essays by 20 scholars trained in comparative
literatures art history critical theory and American cultural studies further explores and expands the spirited and energetic
field of visual cultural studies and its cognate or supplemental projects of visual practices and visual literacy Their topics and
perspectives engage contemporary re theorizations of text of word and image while their alignments ruptures slippages and
aporias fall across a range of media practices and institutions These include photography and exhibition film television
entertainment journalism poetry and literature as visual and spectacular performances and graphic narratives but also their
discursive intersections with race and ethnicity their conjugations of gender their tense and constitutive relations within
multiple public spheres and post modernities **Robert Frost and New England** John C. Kemp,2015-03-08 Though critics
traditionally have paid homage to Robert Frost s New England identity by labeling him a regionalist John Kemp is the first to
investigate what was in fact a highly complex relationship between poet and region Through a frankly revisionist
interpretation he not only demonstrates how Frost s relationship to New England and his attempt to portray himself as the
Yankee farmer poet affected his poetry he also shows that the regional identity became a problem both for Frost and for his

MacArthur,2008-08-04

Robert Frost Elizabeth Bishop and John Ashbery stand out among major American poets all three shaped the direction and pushed the boundaries of contemporary poetry on an international scale Drawing on biography cultural history and original archival research MacArthur shows us that these distinctive poets share one surprisingly central trope in their oeuvres the Romantic scene of the abandoned house This book scrutinizes the popular notion of Frost as a deeply rooted New Englander demonstrates that Frost had an underestimated influence on Bishop whose preoccupation with houses and dwelling is the obverse of her obsession with travel and questions dominant anti biographical readings of Ashbery as an urban identified poet As she reads poems that evoke particular landscapes and houses lost and abandoned by these poets MacArthur also sketches relevant cultural trends including patterns of rural de settlement the transformation of rural economies from agriculture to tourism and modern American s increasing mobility and rootlessness

Cramer,2007-07-30

Based on the arrangement of *The Poetry of Robert Frost* 1969 Part One of this work attempts to identify Frost's intentions by placing each poem in the biographical historical and geographical context of his life It further examines conscious and unconscious points of association annotates words and phrases and provides when possible a date of composition along with the place of publication Part Two consists of an annotated bibliography of poems published during Frost's life but uncollected at the time of his death and those published posthumously or yet collected *Edwin Arlington Robinson* Scott

Donaldson,2007-01-09 At the time of his death in 1935 Edwin Arlington Robinson was regarded as the leading American poet the equal of Frost and Stevens In this biography Scott Donaldson tells the intriguing story of this poet's life based in large part on a previously unavailable trove of more than 3 000 personal letters and recounts his profoundly important role in the development of modern American literature Born in 1869 the youngest son of a well to do family in Gardiner Maine Robinson had two brothers Dean a doctor who became a drug addict and Herman an alcoholic who squandered the family fortune Robinson never married but he fell in love as many as three times most lastingly with the woman who would become his brother Herman's wife Despite his shyness Robinson made many close friends and he repeatedly went out of his way to give them his support and encouragement Still it was always poetry that drove him He regarded writing poems as nothing less than his calling what he had been put on earth to do Struggling through long years of poverty and neglect he achieved a voice and a subject matter all his own He was the first to write about ordinary people and events an honest butcher consumed by grief a miser with eyes like little dollars in the dark ancient clerks in a dry goods store measuring out their days like bolts of cloth In simple yet powerful rhetoric he explored the interior worlds of the people around him Robinson was a major poet and a pivotal figure in the course of modern American literature yet over the years his reputation has declined With his biography Donaldson returns this remarkable talent to the pantheon of great American poets and sheds new light on his enduring legacy *The Brain of Robert Frost* Norman N. Holland,2024-02-02 Originally published in 1988 this book

brings brain science to literary criticism *The Brain of Robert Frost* combines psychoanalysis with the findings of brain research and cognitive psychology to model the way we create and respond to literature Norman Holland draws three central ideas from the mind's new science the critical supercharged period in infancy when individuality is formed the binding of emotion to intellect deep in the old brain the top down inside out feedback processing of language in the new Then using Robert Frost as an example both of a writer and a reader and comparing Frost's reading of a poem to readings by six professors of literature Holland builds a new powerful way of thinking about literary criticism and teaching A book about literary cognition *The Brain of Robert Frost* furthers our understanding of the reading process of poet's brains and of our own **Imagined Human Beings** Bernard J. Paris,1997-10 One of literature's greatest gifts is its portrayal of realistically drawn characters human beings in whom we can recognize motivations and emotions In *Imagined Human Beings* Bernard J Paris explores the inner conflicts of some of literature's most famous characters using Karen Horney's psychoanalytic

theories to understand the behavior of these characters as we would the behavior of real people When realistically drawn characters are understood in psychological terms they tend to escape their roles in the plot and thus subvert the view of them advanced by the author A Horneyan approach both alerts us to conflicts between plot and characterization rhetoric and mimesis and helps us understand the forces in the author's personality that generate them The Horneyan model can make sense of thematic inconsistencies by seeing them as the product of the author's inner divisions Paris uses this approach to explore a wide range of texts including *Antigone* *The Clerk's Tale* *The Merchant of Venice* *A Doll's House* *Hedda Gabler* *Great Expectations* *Jane Eyre* *The Mayor of Casterbridge* *Wuthering Heights* *Madame Bovary* *The Awakening* and *The End of the Road*

Dickinson's Nerves, Frost's Woods William Logan, 2018-06-05 In *Dickinson's Nerves Frost's Woods* William Logan the noted and often controversial critic of contemporary poetry returns to some of the greatest poems in English literature He reveals what we may not have seen before and what his critical eye can do with what he loves In essays that pair different poems *Ozymandias* *On First Looking Into Chapman's Homer* *In a Station of the Metro* *The Red Wheelbarrow* *After great pain a formal feeling comes* and *Stopping by Woods on a Snowy Evening* among others Logan reconciles history and poetry to provide new ways of reading poets ranging from Shakespeare and Shelley to Lowell and Heaney In these striking essays Logan presents the poetry of the past through the lens of the past attempting to bring poems back to the world in which they were made Logan's criticism is informed by the material culture of that world whether postal deliveries in Regency London the Metro lighting in 1911 Paris or the wheelbarrows used in 1923 Deeper knowledge of the poet's daily existence lets us read old poems afresh providing a new way of understanding poems now encrusted with commentary Logan shows that criticism cannot just root blindly among the words of the poem but must live partly in a lost world in the shadow of the poet's life and the shadow of the age
