a Nation Melvyn Stokes, 2008-01-15 In this deeply researched and vividly written volume Melvyn Stokes illuminates the origins production reception and continuing history of this ground breaking aesthetically brilliant and yet highly controversial movie By going back to the original archives particularly the NAACP and D W Griffith Papers Stokes explodes many of the myths surrounding The Birth of a Nation 1915 Yet the story that remains is fascinating the longest American film of its time Griffith's film incorporated many new features including the first full musical score compiled for an American film It was distributed and advertised by pioneering methods that would quickly become standard Through the high prices charged for admission and the fact that it was shown at first only in live theaters with orchestral accompaniment Birth played a major role in reconfiguring the American movie audience by attracting more middle class patrons But if the film was a milestone in the history of cinema it was also undeniably racist Stokes shows that the darker side of this classic movie has its origins in the racist ideas of Thomas Dixon Jr and Griffith's own Kentuckian background and earlier film career The book reveals how as the years went by the campaign against the film became increasingly successful In the 1920s for example the NAACP exploited the fact that the new Ku Klux Klan which used Griffith's film as a recruiting and retention tool was not just anti black but also anti Catholic and anti Jewish as a way to mobilize new allies in opposition to the film This crisply written book sheds light on both the film's racism and the aesthetic brilliance of Griffith's filmmaking It is a must read for anyone interested in the cinema Beyond Free Speech and Propaganda Jay Douglas Steinmetz, 2017-11-24 In Beyond Free Speech and Propaganda The Political Development of Hollywood 1907 1927 Jay Douglas Steinmetz provides an original and detailed account of the political developments that shaped the American Film Industry in the silent years In the 1900s and 1910s the

American film industry often embraced the arguments of film free speech and extolled the virtues of propagandistic cinema the visual art of persuasion seen as part and parcel of deliberative democracy The development of American cinema in these years was formatively shaped by conflicts with another industry of cultural consumption liquor Exhibitors battled with their competitors the ubiquitous saloon while film producers often attacked the immorality of drink with explosive propaganda on the screen But the threat of censorship and economic regulation necessitated control and mastery over the social power of the cinema its capacity to influence the public through the visualization of ideas not an open medium of expression or an explicitly political instrument of molding public opinion By the early 1920s big producer distributors based in Southern California sidelined arguments for film free speech and tamped down the propagandistic possibilities of the screen Through their trade association the Motion Picture Producers and Distributors of America headed by Republican insider Will H Hays the emerging moguls of Hollywood negotiated government regulation prohibition and the insurgency of the Ku Klux Klan in the turbulent 1920s A complex and interconnected work of political history this volume also uncovers key aspects in the development of modern free speech propaganda in American political culture the modern Republican Party cultural developments leading up to prohibition and the rise and fall of the Ku Klux Klan in the 1920s This work will be of particular interest to film and political historians interested in social movements economic development regulation and the evolution of consumer capitalism in the early 20th century
