journals letters and classic literary staples such as *Treasure Island* and *The Strange Case of Dr Jekyll and Mr Hyde* to rarely read masterpieces such as *The Master of Ballantrae* or *The Ebb Tide* While much recent scholarship on Stevenson foregrounds geography the present volume also examines the theme of movement across memory time and generic boundaries Taken together the essays offer a view of Stevenson that demonstrates how the protean nature of his literary output reflects the radical developments in science technology and culture that characterized the age in which he lived
