Robert Smithson Learning From New Jersey And Elsewhere:

Robert Smithson Ann Morris Reynolds, Robert Smithson, 2003 An examination of the interplay between cultural context and artistic practice in the work of Robert Smithson **Robert Smithson** Ann Morris Reynolds, 1993 Robert Smithson Robert Smithson, Eugenie Tsai, Cornelia H. Butler, Thomas E. Crow, Alexander Alberro, Museum of Contemporary Art (Los Angeles, Calif.), Moira Roth, Whitney Museum of American Art, 2004 This catalogue is the major study of Smithson 1938 1973 who is most renowned as an early earthworks artist and creator of Spiral Jetty a 1 500 foot rock coil dramatically situated in the Great Salt Lake Allan Kaprow, Robert Smithson, and the Limits to Art Philip Ursprung, Fiona Elliott, 2013-05-10 This innovative study of two of the most important artists of the twentieth century links the art practices of Allan Kaprow and Robert Smithson in their attempts to test the limits of art both what it is and where it is Ursprung provides a sophisticated yet accessible analysis placing the two artists firmly in the art world of the 1960s as well as in the art historical discourse of the following decades Although their practices were quite different they both extended the studio and gallery into desert landscapes abandoned warehouses industrial sites train stations and other spaces Ursprung bolsters his argument with substantial archival research and sociological and economic models of expansion and limits **Anglo-American Exchange in Postwar Sculpture, 1945-1975** Rebecca Peabody, 2011-12-31 Anglo American Exchange in Postwar Sculpture 1945 1975 redresses an important art historical oversight Histories of American and British sculpture are usually told separately with artists and their work divided by nationality yet such boundaries obscure a vibrant exchange of ideas individuals and aesthetic influences In reality the postwar art world saw dynamic interactions between British and American sculptors critics curators teachers and institutions Using works of art as points of departure this book explores the international movement of people objects and ideas demonstrating the importance of Anglo American exchange to the history of postwar sculpture

Between Art Practice and Psychoanalysis Mid-Twentieth Century Beth Williamson, 2017-07-05 The work of mid twentieth century art theorist Anton Ehrenzweig is explored in this original and timely study An analysis of the dynamic and invigorating intellectual influences institutional framework and legacy of his work Between Art Practice and Psychoanalysis reveals the context within which Ehrenzweig worked how that influenced him and those artists with whom he worked closely Beth Williamson looks to the writing of Melanie Klein Marion Milner Adrian Stokes and others to elaborate Ehrenzweig s theory of art a theory that extends beyond the visual arts to music In this first full length study on his work including an inventory of his library previously unexamined archival material and unseen artworks sit at the heart of a book that examines Ehrenzweig s working relationships with important British artists such as Bridget Riley Eduardo Paolozzi and other members of the Independent Group in London in the 1950s and 1960s In Ehrenzweig s second book The Hidden Order of Art 1967 his thinking on Jackson Pollock is important too It was this book that inspired American artists Robert Smithson and Robert Morris when they deployed his concept of dedifferentiation Here Williamson offers new readings of process art c 1970

showing how Ehrenzweig's aesthetic retains relevance beyond the immediate post war era **The Ethics of Earth Art** Amanda Boetzkes, 2013-11-30 Since its inception in the 1960s the earth art movement has sought to make visible the elusive presence of nature Though most often associated with monumental land based sculptures earth art encompasses a wide range of media from sculpture body art performances and installations to photographic interventions public protest art and community projects In *The Ethics of Earth Art* Amanda Boetzkes analyzes the development of the earth art movement arguing that such diverse artists as Robert Smithson Ana Mendieta James Turrell Jackie Brookner Olafur Eliasson Basia Irland and Ichi Ikeda are connected through their elucidation of the earth as a domain of ethical concern Boetzkes contends that in basing their works relationship to the natural world on receptivity rather than representation earth artists take an ethical stance that counters both the instrumental view that seeks to master nature and the Romantic view that posits a return to a mythical state of unencumbered continuity with nature By incorporating receptive surfaces into their work film footage of glaring sunlight an aperture in a chamber that opens to the sky or a porous armature on which vegetation grows earth artists articulate the dilemma of representation that nature presents Revealing the fundamental difference between the human world and the earth Boetzkes shows that earth art mediates the sensations of nature while allowing nature itself to remain irreducible to human signification *SpatioTemporalities on the Line* Sebastian Dorsch, Jutta Vinzent, 2017-11-20 Lines are omnipresent in our everyday experience and language They reflect and influence the spatial and temporal structures of our world view Taking Tim Ingold's cultural history of the line as a starting point this book understands lines as expressions that allow insights into cultural theoretical phenomena and thus go beyond their mere form The essays will investigate this premise from various disciplines architecture art cartography film literature and philosophy **Creative Enterprise** Martha Buskirk, 2012-04-12 Intertwines a dual emphasis on evolving institutional priorities and major shifts in artistic production **Modern Sculpture** Douglas Dreishpoon, 2022-10-25 Artists of any ilk can be extremely opinionated when it comes to what they do how they do it and what it might mean Sculptors are no exception *Modern Sculpture Artists in Their Own Words* presents a selection of manifestos documents statements articles and interviews from more than ninety subjects including an ample selection of contemporary sculptors With this book editor Douglas Dreishpoon defers to sculptors whose varied points of view illuminate the medium's perpetual transformation from object to action concept to phenomenon over the course of two centuries Each chapter progresses in chronological sequence to highlight the dominant stylistic philosophical and thematic threads that unite each kindred group The result is a distinctive artist centric history and survey of sculpture that showcases the expansive dimensions and malleability of the medium
