Robert Winchelsey and the crown 1294 - 1313 Jeffrey Howard Denton,1980 *Robert Winchelsey and the Crown 1294-1313* Jeffrey H. Denton,2002-05-09 This is the first detailed study of the career of one of the most important medieval archbishops of Canterbury Robert Winchelsey sought to defend ecclesiastical rights and liberties at a time when the English Church was under constant pressure from the king and his government and he suffered suspension from office as a result of his opposition to Edward I The theme of the book is the relationship of this learned and saintly archbishop with the Crown during the last troubled years of Edward I s reign and the first equally troubled years of Edward II s reign **Robert Winchelsey and the Crown, 1294-1313. A Study in the Defence of Ecclesiastical Liberty** J. H. Denton,1980 Vita Edwardi Secundi Wendy R. Childs,Noël Denholm-Young,2005-02-03 The Vita Edwardi Secundi is the best and most readable of the chronicles of the reign of Edward II and throws a fascinating light on the world of high politics The anonymous author was close to the centre of politics probably a royal clerk and possibly John Walwayn or someone with a similar career His focus is largely on domestic politics and the relationship of the king and his barons and he records the clashes and reconciliations of the period 1311 22 in valuable detail He also has much to say on the Scottish war the appointment of bishops and the outbreak of the French war The work ends in the winter of 1325 6 with Queen Isabella s refusal to return from France while Despenser remained with the king The work is much more than a simple chronicle The author consciously wrote history and so commented extensively on personalities and also on causation motivation and the vices of his age He was generous to Gaveston despite his pride more condemning of the Despensers greed and lamented Lancaster s wasted gifts His reports on the arguments of both sides in the clashes between the king and his opponents are particularly enlightening and show how serious were the threats to the king s authority especially those voiced in 1321 The author s fear of civil war and attempts to define the fine line dividing resistance and treason probably reflect the concerns of many close to the court at that time Recent research has emphasized that the Vita should be seen as a journal rather than a memoir and this enhances its value further allowing historians to chart the changing views of a well placed observer during the dramatic events of Edward s reign The Vita has been edited three times before once in each century since its discovery in 1728 but the last edition of 1957 has long been out of print This new edition revises the Latin text and translation provides a completely new introduction and historical notes to take account of recent scholarship and includes a new and full apparatus and indices

Rochester 1235-1318 Philippa Mary Hoskin,2022-12-15 A new volume in the English Episcopal Acta series editing the surviving records of the bishops of Rochester 1235 1318 with appendices including full itineraries of the bishops and a full contextual introduction The volume allows us to access the work of the bishops lives of ordinary individuals in one part of medieval England *A Great and Terrible King* Marc Morris,2015-03-15 The first major biography of a truly formidable king whose reign was one of the most dramatic and important of the entire Middle Ages leading to war and conquest on an

unprecedented scale Edward I is familiar to millions as Longshanks conqueror of Scotland and nemesis of Sir William Wallace in Braveheart Yet that story forms only the final chapter of the king's action-packed life Earlier Edward had defeated and killed Simon de Montfort in battle traveled to the Holy Land conquered Wales extinguishing its native rulers and constructing a magnificent chain of castles He raised the greatest armies of the Middle Ages and summoned the largest parliaments notoriously he expelled all the Jews from his kingdom The longest lived of England's medieval kings Edward fathered fifteen children with his first wife Eleanor of Castile and after her death erected the Eleanor Crosses the grandest funeral monuments ever fashioned for an English monarch In this book Marc Morris examines afresh the forces that drove Edward throughout his relentless career his character his Christian faith and his sense of England's destiny a sense shaped largely by the tales of the legendary King Arthur Morris also explores the competing reasons that led Edward's opponents including Robert Bruce to resist him The result is a sweeping story immaculately researched yet compellingly told and a vivid picture of medieval Britain at the moment when its future was decided

Bath and Wells 1275-1302 Richard Huscroft, 2023-11-09 The documents issued by medieval bishops cast an important light on their affairs and on the history of the English Church during the Middle Ages English Episcopal Acta 47 brings together the surviving documents issued by the Bishops of Bath and Wells both of whom served in King Edward I's government

Officers and Accountability in Medieval England 1170--1300 John Sabapathy, 2019-09-13 The later twelfth and thirteenth centuries were a pivotal period for the development of European government and governance A mentality emerged that trusted to procedures of accountability as a means of controlling officers' conduct The mentality was not inherently new but it became qualitatively more complex and quantitatively more widespread in this period across European countries and across different sorts of officer The officers exposed to these methods were not just state ones but also seignorial ecclesiastical and university college officers as well as urban communal ones This study surveys these officers and the practices used to regulate them in England It places them not only within a British context but also a wide European one and explores how administration law politics and norms tried to control the insolence of office The devices for institutionalising accountability analysed here reflected an extraordinarily creative response in England and beyond to the problem of complex government inquests audits accounts scrutiny panels syndication Many of them have shaped the way in which we think about accountability today Some remain with us So too do their practical problems How can one delegate control effectively How does accountability relate to responsibility What relationship does accountability have with justice This study offers answers for these questions in the Middle Ages and is the first of its kind dedicated to an examination of this important topic in this period

Politics, Finance and the Church in the Reign of Edward II Mark Buck, 1983-05-12 Walter Stapeldon fifteenth bishop of Exeter was the founder of Exeter College Oxford and the greatest of Edward II's treasurers of the Exchequer As Edward's regime crumbled in 1326 he paid the price of his master's rapacious policies of which he was the chief instrument This study shows how the Plantagenet

revolution in government the most massive overhaul of the Exchequer ever undertaken in medieval England was shaped with a clear financial purpose On the basis of his extensive research in the Exchequer archives Dr Buck reveals for the first time the extent and severity of the government's action on the levying of debts to the Crown which although initiated earlier was exacerbated in the early 1320s when parliament and the clergy were refusing the king supply Placing the policies of Stapeldon's treasurership in their political and parliamentary context he argues that the Exchequer was Edward's most powerful weapon against the aristocratic opposition and in the process reassesses the accepted interpretation of these years of turmoil

Christian Culture and Society in Later Catholic England, 2024-08-05 This book in memory of F Donald Logan explores different aspects of Christian culture and society in England from the twelfth to the sixteenth century Although this period has traditionally been interpreted in terms of decline and decay this excessively gloomy picture has slowly given way over the last eighty years or so to a more positive view of Christian civilization during these centuries The twenty two studies brought together here seek to build on this ongoing reassessment of Later Catholic England especially in those areas in which Professor Logan himself had done so much to deepen our understanding of Christian English society Contributors are Travis Baker Caroline Barron Nicholas Bennett Barbara Bombi Paul Brand Janet Burton James G Clark Karen Corsano Virginia Davis Charles Donahue Jr Anne J Duggan Joan Greatrex Diana Greenway Michael Haren R H Helmholtz Philippa Hoskin Henry Ansgar Kelly Frederik Pedersen Seymour Phillips Michael J P Robson Jens R hrkasten Jane Sayers R N Swanson Daniel Williman and Patrick Zutshi
