Scotch Baronial Miles Glendinning, Aonghus MacKechnie, 2019-01-10 As the debate about Scottish independence rages on this book takes a timely look at how Scotland's politics have been expressed in its buildings exploring how the architecture of Scotland in particular the constantly changing ideal of the castle has been of great consequence to the ongoing narrative of Scottish national identity Scotch Baronial provides a politically framed examination of Scotland's kaleidoscopic castle architecture tracing how it was used to serve successive political agendas both prior to and during the three unionist centuries from the early 17th century to the 20th century The book encompasses many of the country's most important historic buildings from the palaces left behind by the lost monarchy to revivalist castles and the proud town halls of the Victorian age examining their architectural styles and tracing their wildly fluctuating political and national connotations It ends by bringing the story into the 21st century exploring how contemporary neo modernist architecture in today's Scotland as exemplified in the Holyrood parliament relates to concepts of national identity in architecture over the previous centuries

Late Medieval Castles Robert Liddiard, 2016 A collection of the most significant articles in castle studies with contributions from scholars in history archaeology historic buildings and landscape archaeology The castles of the late medieval period represent some of the finest medieval monuments in Britain with an almost infinite capacity to fascinate and draw controversy They are also a source of considerable academic debate The contents of this volume represent key works in castle scholarship Topics discussed include castle warfare fortress customs architectural design and symbolism spatial planning and the depiction of castles in medieval romance The contributions also serve to highlight the diversity of approaches to the medieval castle ranging from the study of documentary and literary sources analysis of fragmentary

architectural remains and the recording of field archaeology The result is a survey that offers an in depth analysis of castle building from the thirteenth to the fifteenth centuries and places castles within their broader social architectural and political contexts Robert Liddiard is Professor of History University of East Anglia Contributors Nicola Coldstream Charles Coulson Philip Dixon Graham Fairclough P A Faulkner John Goodall Beryl Lott Charles McKean T E McNeill Richard K Morris Michael Prestwich Christopher Taylor Muriel A Whitaker *Art and Identity* Viccy Coltman,2019-11-14 This lively and erudite cultural history examines how Scottish identity was experienced and represented in novel ways *William Robertson and the Expansion of Empire* Stewart J. Brown,Stewart Jay Brown,1997-04-13 This is an exploration of William Robertson a leading figure in the eighteenth century Enlightenment **Robert Adam, Artist and Architect** Percy Hetherington Fitzgerald,1904 **Laurent-Benoît Dewez (1731-1812), Architect in the Age of Enlightenment** Dirk Van de Vijver,2025-02-11 Laurent Beno t Dewez 1731 1812 court architect to Charles of Lorraine was the most outstanding architect of his time in the Southern Low Countries After studying in Italy and serving in the eminent office of Robert Adam in London Dewez developed a personal classical style that came to embody the Eglise Belgique under the Austrian Habsburgs He designed numerous castles abbeys and churches across Belgium but time has not been kind to his legacy of his 80 architectural projects many have vanished However the Ch teau de Seneffe the abbey of Vlierbeek in Leuven and the churches in Andenne Floreffe and Harelbeke still stand as testaments to his remarkable talent This richly illustrated monograph presents for the first time a comprehensive collection and analysis of the complete works of Laurent Beno t Dewez Reading Architectural History Dana Arnold,2003-09-02 Architectural history is more than just the study of buildings Architecture of the past and present remains an essential emblem of a distinctive social system and set of cultural values and as a result it has been the subject of study of a variety of disciplines But what is architectural history and how should we read it Reading Architectural History examines the historiographic and socio cultural implications of the mapping of British architectural history with particular reference to eighteenth and nineteenth century Britain Discursive essays consider a range of writings from biographical and social histories to visual surveys and guidebooks to examine the narrative structures of histories of architecture and their impact on perception adn understanding of the architecture of the past Alongside this each chapter cites canonical histories juxtaposed with a range of social and cultural theorists to reveal that these writings are richer than we have perhaps recognised and that architectural production in this period can in interrogated in the same way as that from more recent past and can be read in a variety of ways The essays and texts combine to form an essential course reader for methods and critical approached to architectural history and more generally as examples of the kind of evidence used in the formation of architectural histories while also offering a thematic introduction to architecture in Britain and its social and cultural meaning **A Biographical Dictionary of Civil Engineers in Great Britain and Ireland: 1500-1830** A. Early Scottish Gardens Sheila Mackay, 2019-08-05 A personal account of the growth of the gardens of Scotland from the sixteenth century History of Scottish Architecture Miles Glendinning, 2019-07-30 At last here is a single volume authoritative history of Scottish architecture This compact yet comprehensive account combines factual description of the vast and fertile range of visual forms and key architects in each period with a wide ranging analysis of their social ideological and historical context As Scotland has often been closely involved with new trends in western architecture this book highlights the interaction of Scottish developments with broader European and international movements From the beginnings of the Renaissance in the 15th century right up to the 1990s this much needed survey covers the entire post medieval story in one volume **The Enlightenment and the Book** Richard B. Sher, 2008-09-15 The late eighteenth century witnessed an explosion of intellectual activity in Scotland by such luminaries as David Hume Adam Smith Hugh Blair William Robertson Adam Ferguson James Boswell and Robert Burns And the books written by these seminal thinkers made a significant mark during their time in almost every field of polite literature and higher learning throughout Britain Europe and the Americas In this magisterial history Richard B Sher breaks new ground for our understanding of the Enlightenment and the forgotten role of publishing during that period The Enlightenment and the Book seeks to remedy the common misperception that such classics as *The Wealth of Nations* and *The Life of Samuel Johnson* were written by authors who eyed their publishers as minor functionaries in their profession To the contrary Sher shows how the process of bookmaking during the late eighteenth century involved a deeply complex partnership between authors and their publishers one in which writers saw the book industry not only as pivotal in the dissemination of their ideas but also as crucial to their dreams of fame and monetary gain Similarly Sher demonstrates that publishers were involved in the project of bookmaking in order to advance human knowledge as well as to accumulate profits The Enlightenment and the Book explores this tension between creativity and commerce that still exists in scholarly publishing today Lavishly illustrated and elegantly conceived it will be must reading for anyone interested in the history of the book or the production and diffusion of Enlightenment thought A History of Scotland from the Roman Evacuation to the Disruption, 1843 Charles Sanford Terry, 1920 **A History of Scotland from the Roman Evacuation to the Disruption, 1843** Charles Sanford Terry, 1920 *Artful Virtue: The Interplay of the Beautiful and the Good in the Scottish Enlightenment* Leslie Ellen Brown, 2016-03-09 During the Scottish Enlightenment the relationship between aesthetics and ethics became deeply ingrained beauty was the sensible manifestation of virtue the fine arts represented the actions of a virtuous mind to deeply understand artful and natural beauty was to identify with moral beauty and the aesthetic experience was indispensable in making value judgments This book reveals the history of how the Scots applied the vast landscape of moral philosophy to the specific territories of beauty in nature aesthetics and ethics in the eighteenth century The author explores a wide variety of sources from academic

lectures and institutional record to more popular texts such as newspapers and pamphlets to show how the idea that beauty and art made individuals and society more virtuous was elevated and understood in Scottish society **1650-1850**, 1994
