Onorato,Museum of Contemporary Art, San Diego,1997 Far from being the latest movement or a new development in contemporary art installation art one could argue is only the most recent manifestation of the oldest tradition in art going as far back as the prehistoric paintings on cave walls at Lascaux Fundamental to this work are its habitation and incorporation of a physical site a connection to real conditions be they visual historical or social and often a bridging of traditional art

boundaries The aesthetic power of installation art does not reside in the singular commodified object but rather in the artwork s ability to become not merely represent the continuum of real experience Blurring the Boundaries examines the subject of installation art through the permanent collection and exhibition record of the Museum of Contemporary Art San Diego an institution with a unique heritage in support of such art dating back to the 1960s   **Alumni Newsletter** University of Illinois at Urbana-Champaign.
