Robert Frost: Sixteen Poems to Learn by Heart Robert Frost, Jay Parini, 2024-03-05 Celebrate Robert Frost's 150th birthday with a deluxe keepsake edition featuring 16 of his greatest poems with brilliant essays highlighting his special genius and the power of memorization to unlock the magic of his language. During a public reading, Robert Frost was once asked why he so frequently recited his poems from memory. With typical wit, he replied, "If they won't stick to me, I won't stick to them." Remarkably, among the modern poets, his poems stick to the reader. *Mending Wall* with its famous invocation of the rural maxim "Good fences make good neighbors." *The Road Not Taken* about the beguiling possibilities of life. *Birches* which reminds us that "One could do worse than be a swinger of birches." *Stopping by Woods on a Snowy Evening* with its unforgettable final line "And miles to go before I sleep." Here poet and Frost biographer Jay Parini presents these and 12 other Frost poems to learn by heart. In short accompanying commentaries, Parini illuminates the stylistic and imaginative features of each of the poems, drawing in biographical material from Frost's life to provide further context. The goal of this little book is to encourage readers to slow down, to listen to Frost's words and phrases, to locate their deepest rhythms and hear the tune of each poem as it unfolds. Memorizing a poem can teach us much about a poem's structure and argument and about the resonance of particular words. And best of all, memorization makes a poem part of our inner lives. Once committed to memory, a poem is available to us for recall at any time and the occasions for remembering it will make themselves known to us. It isn't something we have to work at. Anyone who has read and loved Frost's poetry will want to own and treasure this little gift edition. Those reading Frost for the first time or those wishing to become better acquainted with one of America's greatest poets will not find a better, more insightful guide than Jay Parini.

The Collected Prose of Robert Frost Robert Frost, 2006 Robert Frost is one of the most widely read, well-loved and misunderstood of modern writers. In his day, he was also an inveterate note taker, penning thousands of intense aphoristic thoughts, observations, and meditations in small pocket pads and school theme books throughout his life. These notebooks, transcribed and presented here in their entirety for the first time, offer unprecedented insight into Frost's complex and often highly contradictory thinking about poetics, politics, education, psychology, science, and religion; his attitude toward Marxism, the New Deal, World War, as well as Yeats, Pound, Santayana, and William James. Covering a period from the late 1890s to early 1960s, the notebooks reveal the full range of the mind of one of America's greatest poets. Their depth and complexity convey the restless and probing quality of his thought and show how the unruliness of chaotic modernity was always just beneath his

appearance of supreme poetic control Edited and annotated by Robert Faggen the notebooks are cross referenced to mark thematic connections within these and Frost's other writings including his poetry letters and other prose This is a major new addition to the canon of Robert Frost's writings

Robert Frost Morris Dickstein, 2010 This title presents in depth critical discussions of his life and works Widely celebrated during his lifetime as the greatest living American poet Robert Frost remains one of the few poets whose work is enjoyed by scholars and general readers alike A record four time winner of the Pulitzer Prize who gave readings across America and in countries as far flung as England Brazil and Russia Frost is nevertheless known not as a cosmopolitan but as a plainspoken portraitist of rural New England Yet despite this reputation Frost is much more than a regional poet his wit irony and willingness to rest in ambiguity make him a poet of the cosmic and universal In the age of Ezra Pound and T S Eliot he stood alone in writing a poetry that was simultaneously accessible complex and profound Edited and with an introduction by Morris Dickstein Distinguished Professor of English at the Graduate Center of the City University of New York and senior fellow of the Center for the Humanities this volume in the Critical Insights series brings together a variety of critical perspectives on Frost's life and works For readers new to Frost four original essays provide valuable context for understanding and assessing his work Together they outline the work's historical and cultural contexts survey the major pieces of Frost criticism examine Frost's relationship with modernist poetics and consider how his use of paradox and contradiction participate in and differ from the use established by Whitman and Emerson Nine other previously published essays deepen readers understanding and offer a sampling of the key concerns of contemporary Frost critics Among these essays David Sanders draws on Frost's letters and interviews to understand how he developed his poetic voice from careful observation of his New England neighbors and how he sought to make these people visible within the growing mass culture of twentieth century America Roger Gilbert further examines Frost's poetics in his discussion of the recurrence of the trope of the walk in Frost's poetry concluding that for Frost the trope parallels the

dynamic act of poetic composition Other essays examine Frost's politics with Frank Lentricchia considering how his poetry with its emphasis on replicating the rhythms of everyday speech rather than traditional conceptions of the literary gives evidence to the notion that poetics can be a register of social and political change and Tyler B Hoffman offering a unique reading of Frost's view of industrialism and the New Deal arguing that Frost was not the archconservative that leftist critics have made him out to be but rather took a highly nuanced view of the poet's obligations to politics Jeff Westover extends this vein of criticism by dissecting Frost's nationalism and Robert Bernard Hass discusses how Frost's interest in science especially astronomy impacted the religious beliefs his mother inculcated in him as a child Uniquely this volume also contains an original piece by Paris Review contributor Elizabeth Gumport who offers a writer's perspective on Frost's fierce independence Rounding out the collection is a brief biography and chronology of Frost's life and an extensive bibliography for readers wishing to study the poet's work in greater depth Each essay is 5,000 words in length and all essays conclude with a list of Works Cited along with endnotes
