Roberts Story:

Robert's Story Stephen G. Michaud, 2022-09-13 Tired, disoriented and confused Robert East was no match for the wolves when they arrived. Robert East loved his older brother Tom but always resented Tom's favored role in the family cattle business based at their San Antonio Viejo ranch near Hebbronville, Texas, just north of the Rio Grande. Tom was a figure to be reckoned with, a cattleman with ambitions to supplant their Uncle Bob Kleberg, head of the enormous King Ranch, as the leading cattle raiser in Texas. Robert, by contrast, was a cowboy who cared little for what occurred beyond the San Antonio Viejo's main gate. Handsome and ornery with no head for business, he nevertheless chafed in his brother's shadow until 1984 when Tom died young of a heart attack, just as their father Tom East Sr. had 40 years earlier. Suddenly, Robert was the new and untested patrón of 250,000 acres of East Family ranchland and the majority owner of the ocean of natural gas pooled beneath East rangeland. It was his turn to issue the orders. Robert's contentious nature drove the Easts into bitter intra-family legal hostilities that persisted for a decade. He lost his beloved sister Lica to cancer, and as old age advanced, he found himself alone and isolated on a remote ranch with only an unreliable foreman and a scattering of vaqueros and other workers for company. The physical wear and tear from decades of working cattle on horseback began to show; Robert's knees gave out, and he developed serious cardiovascular problems. His doctors prescribed pain pills, sedatives, and medications for his chronic depression. In 2000, drillers hit the most productive gas well in the U.S., if not the world, on East property, making the rich old man suddenly and spectacularly wealthy beyond his comprehension. Soon enough, the wolves began to circle, and Robert's grotesque final days were at hand.

[The Stalker Affair and the Press](#) David Murphy, 2022-09-01 First published in 1991, *The Stalker Affair and the Press* documents the media treatment of police constable John Stalker's removal from his job and argues that this case presents a major difficulty for the standard academic analysis of the press in Britain, namely that it supports the status quo because it is part of the dominant class system. The author argues that the exclusion of non-official and dissident versions of the events can be explained by more direct causes: the ownership of the press and the routine nature of normal news production, which relies on official and established sources. Where such sources do not produce an account of events as in the case of the Stalker affair, the overwhelming majority of press output questioned the legitimacy of state actions, even to the extent of entertaining the notion that its agents had conspired to commit murder and to pervert the course of justice. David Murphy's fascinating analysis picks apart the notion of a system controlling production to demonstrate the complex interaction between methods of individual journalists, their sources, and the ways news is produced. This book will be of great interest to students and teachers of media studies, cultural studies, journalism, and communication studies.

Scripting Pentecost Mark J. Cartledge, A.J. Swoboda, 2016-07-07 *Scripting Pentecost* explores and develops an analysis of worship and liturgy in Pentecostal and Charismatic traditions. Organized into three main sections: history, theology, and contemporary practice, the first section quarries the historical trajectories of classic Pentecostalism, the Charismatic

movement Third Wave and Oneness Pentecostalism Particular attention is given to the liturgical approaches of some of the earliest leaders including William J Seymour Alexander Boddy and Aimee Semple McPherson The second section constructive theology offers theological approaches to liturgical studies from Pentecostal and Charismatic perspectives In this section the Pentecostal and Charismatic tradition is advanced and extended by an interaction with ecumenical sources The third section case studies in contemporary worship theology and practice examines the actual performance of liturgy through selected global case studies chosen to reflect a diversity of ecclesial practice in Africa Asia Europe North America Latin America and Oceania

Medical Treatment of Children and the Law Jo Bridgeman, 2020-11-19 The high profile cases of Charlie Gard Alfie Evans and Tafida Raqeeb raised the questions as to why the state intrudes into the exercise of parental responsibility concerning the medical treatment of children and why parents may not be permitted to decide what is in the best interests of their child This book answers these questions It argues for a reframing of the law concerned with the medical treatment of children to one which better protects the welfare of the individual child within the context of family relationships recognising the duties which professionals have to care for the child and that the welfare of children is a matter of public interest protected through the intervention of the state This book undertakes a rigorous critical analysis of the case law concerned with the provision of medical treatment to children since the first reported cases over forty years ago It argues that understanding of the cases only as disputes over the best interests of the child and judicial resolution thereof fails to recognise professional duties and public responsibilities for the welfare and protection of children that exist alongside parental responsibilities and which justify public or state intervention into family life and parental decision making Whilst the principles and approach of the court established in the early cases endure the nature and balance of these responsibilities to children in their care need to be understood in the changing social legal and political context in which they are exercised and enforced by the court The book will be a valuable resource for academics students and practitioners of Medical Law

Hard News Seth Mnookin,2004-11-09 On May 11 2003 The New York Times devoted four pages of its Sunday paper to the deceptions of Jayson Blair a mediocre former Times reporter who had made up stories faked datelines and plagiarized on a massive scale The fallout from the Blair scandal rocked the Times to its core and revealed fault lines in a fractious newsroom that was already close to open revolt Staffers were furious about the perception that management had given Blair more leeway because he was black about the special treatment of favored correspondents and most of all about the shoddy reporting that was infecting the most revered newspaper in the world Within a month Howell Raines the imperious executive editor who had taken office less than a week before the terrorist attacks of September 11 2001 and helped lead the paper to a record six Pulitzer Prizes for its coverage of the attacks had been forced out of his job Having gained unprecedented access to the reporters who conducted the Times s internal investigation top newsroom executives and dozens of Times editors former Newsweek senior writer Seth Mnookin lets us read all about it the story behind the biggest journalistic scam of our era and the profound implications of the scandal for the rapidly changing world of American journalism It s a true tale that reads like Greek drama with the most revered of American institutions attempting to overcome the crippling effects of a leader s blinding narcissism and a low level reporter s sociopathic deceptions Hard News will shape how we understand and judge the media for years to come

The Disinformation Age Eric Cheyfitz,2017-02-10 The Disinformation Age beginning in the present and going back to the American colonial period constructs an original historical explanation for the current political crisis and the reasons the two major political parties cannot address it effectively Commentators inside and outside academia have described this crisis with various terms income inequality the disappearance of the middle class the collapse of the two party system and the emergence of a corporate oligarchy While this book uses such terminology it uniquely provides a unifying explanation for the current state of the union by analyzing the seismic rupture of political rhetoric from political

reality used within discussion of these issues In advancing this analysis the book provides a term for this rupture Disinformation which it defines not as planned propaganda but as the inevitable failure of the language of American Exceptionalism to correspond to actual history even as the two major political parties continue to deploy this language Further in its final chapter this book provides a way out of this political cul de sac what it terms the limits of capitalism s imagination by thinking from a different place that is located in the theory and practice of the Indigenous peoples of the Americas
