The Vatican «Ostpolitik» 1958-1978 Autori Vari,2017-04-06T00:00:00+02:00 The appraisal of the political dialogue and negotiations with the communist regimes of East Central Europe commenced by the Holy See in the 1960s did not provoke only lively debates among contemporaries but remains to the present day one of the most debated questions of the twentieth century history should it be assessed as a fixed path to which no alternative existed or was it a flawed initiative which merely served the international legitimacy of the communist totalitarian system This volume enriches the results of earlier historiography with new perspectives and confirms inter alia that a black and white reading often based on a one sided use of sources of Ostpolitik is incorrect just as the critical assessment which frequently places local considerations at the forefront requires revision the at times apologetic outlook defending the Vatican s Eastern policy is also untenable Only a nuanced and source focused analysis of the ambitions of the Roman and Muscovite centers and of local politics and Churches as well as dialogue between the various research trends can help us to gain a more thorough knowledge of and make us

better understand those fixed paths upon which the Roman and local ecclesiastics of the era were forced to travel and which limited the possibility of success

The Pius War Joseph Bottum, David G. Dalin, 2010-03-16 In the brutal fight that has raged in recent years over the reputation of Pope Pius XII leader of the Catholic Church during World War II the Holocaust and the early years of the Cold War the task of defending the Pope has fallen primarily to reviewers These reviewers formulated a brilliant response to the attack on Pius but their work was scattered in various newspapers magazines and scholarly journals making it nearly impossible for the average reader to gauge the results In The Pius War Weekly Standard s Joseph Bottum has joined with Rabbi David G Dalin to gather a representative and powerful sample of these reviews deliberately chosen from a wide range of publications Together with a team of professors historians and other experts the reviewers conclusively investigate the claims attacking Pius XII The Pius War and a detailed annotated bibliography that follows will prove to be a definitive tool for scholars and students destined to become a major resource for anyone interested in questions of Catholicism the Holocaust and World War II

The Legal System of the Vatican City State Konrad Dyda, 2025-10-24 This book examines one of the fundamental phenomena in jurisprudence Legal Transplants reception of law the study of which allows us both to determine the relationships between various legal systems and between civil law and other normative systems Taking the Vatican City State as a case study the work explores the theoretical and practical significance of canon law in the legal system It analyses the sources of law and how it is applied in practice especially in the jurisprudence of the Vatican courts and other bodies applying the law The characteristic feature of this transplantation of law is the borrowing by the legislative and judicial authorities of the State of various norms both of a strictly religious nature and those arising from the law of the Italian Republic the European Union the norms of international law and their creative use to produce a distinct system of law It is this creative use that constitutes the essence of the reception of law in the Vatican City State The book determines similarities and differences between the reception of law in the Vatican City State and other examples of

reception of law including the implementation of European Union law by individual Member States the relationship between the reference by the Vatican legislator to the axiological foundations of the legal order and the role of legal principles in secular legislation how the confessional character of the Vatican City State affects the content of legal norms applicable in the State and whether this mechanism can be applied in secular states The book will be of interest to academics and researchers working in the areas of Law and Religion Canon Law and Legal Philosophy **Catalogue of the Petrarch Collection Bequeathed by Willard Fiske** Cornell University. Pietro sino ai nostri giorni specialmente intorno ai principali santi ...* Gaetano Moroni Romano,1858 **Herodoti Historia per Matthiam Palmierum Pisanum e Graeco in Latinum versa** Ioannis Deligiannis,2025-06-16 The book contains the editio princeps of Mattia Palmieri s mid fifteenth century Latin translation of Herodotus Histories almost contemporary or even earlier than that by Lorenzo Valla It also investigates the intellectual and historical milieu in which Palmieri produced it as preparatory work for his historical works and to secure patronage under a church prelate by offering it to Cardinal Prospero Colonna It includes some information on Palmieri s life and work and Herodotus fortuna a brief comparison between Palmieri s and Valla s translations Palmieri s Greek model and Livy s influence on him in language and style It finally approaches some methodological issues related to editing a text preserved in authorially revised versions because the translation shows three different stages of revision This first approach of Herodotus by Western scholars is significant because Herodotus was foremost read as a quarry of information of ethnographical geographical historical and anthropological nature in order for the Europeans to understand peoples they encountered on their exploratory voyages and the Ottomans who were considered as descendants of the Persians **Giuseppe Campani, "Inventor Romae," an Uncommon Genius** Silvio Bedini,2021-07-05 The ingenious and ambitious Campani brothers Matteo Pier Tommaso and Giuseppe were at the core of thriving activity of technological and scientific innovation that involved popes the Sun King and other rulers of baroque Europe Especially Giuseppe s outstanding production of innovating clocks telescopes and microscopes attracted the attention of the most important scientific characters and experimental academies of the time This posthumous book by Silvio Bedini is the result of a fifty year long study that will serve not just as a reference work for scholars interested in seventeenth century clockmaking practical optics astronomy and science and technology in general but it also will provide you with unique insights into the scientific and technological landscape of baroque Rome and its links to a broader European scene The author s narrative style and the many illustrations which accompany the story make this book also for non specialists an enjoyable read **Catalogue of the Books Relating to Architecture, Construction & Decoration in the Public Library of the City of Boston** Boston Public Library,1894 *Roma E Il Vaticano* Pier Fancesco Listri,2014-06-15 Covers Rome and the Vatican City including the Museums and the catacombs all in Italian *Dizionario di erudizione storico-ecclesiastica da S.
