Roman Medallions Numismatic Studies:

Roman Medallions Jocelyn M. C. Toynbee, 1986 *Roman Medallions* Jocelyn M. C. Toynbee, 1944 *Roman Medallions* American Numismatic Society, Jocelyn M. C. Toynbee, Karl Pink, 1952 **Roman Medallions** Jocelyn Mary Catherine Toynbee, 1976 **Imperial Ideology and Provincial Loyalty in the Roman Empire** Clifford Ando, 2013-08-29 The Roman empire remains unique Although Rome claimed to rule the world it did not Rather its uniqueness stems from the culture it created and the loyalty it inspired across an area that stretched from the Tyne to the Euphrates Moreover the empire created this culture with a bureaucracy smaller than that of a typical late twentieth century research university In approaching this problem Clifford Ando does not ask the ever fashionable question Why did the Roman empire fall Rather he asks Why did the empire last so long Imperial Ideology and Provincial Loyalty in the Roman Empire argues that the longevity of the empire rested not on Roman military power but on a gradually realized consensus that Roman rule was justified This consensus was itself the product of a complex conversation between the central government and its far flung peripheries Ando investigates the mechanisms that sustained this conversation explores its contribution to the legitimation of Roman power and reveals as its product the provincial absorption of the forms and content of Roman political and legal discourse Throughout his sophisticated and subtle reading is informed by current thinking on social formation by theorists such as Max Weber Jürgen Habermas and Pierre Bourdieu **Roman Medallions** William E. Metcalf, 1979 **Postcolonising the Medieval Image** Eva Frojmovic, Catherine E. Karkov, 2017-03-16 Postcolonial theories have transformed literary historical and cultural studies over the past three decades Yet the study of medieval art and visualities has in general remained Eurocentric in its canon and conservative in its approaches Postcolonising as the eleven essays in this volume show entails active intervention into the field of medieval art history and visual studies through a theoretical reframing of research This approach poses and elicits new research questions and tests how concepts current in postcolonial studies such as diaspora and migration under represented artistic cultures accented art making displacement intercultural versus transcultural hybridity presence absence can help medievalists to reinvigorate the study of art and visuality Postcolonial concepts are deployed in order to redraft the canon of medieval art thereby seeking to build bridges between medievalist and modernist communities of scholars Among the varied topics explored in the volume are the appropriation of Roman iconography by early medieval Scandinavian metalworkers multilingualism and materiality in Anglo Saxon culture the circulation and display of Islamic secular ceramics on Pisan churches cultural negotiation by Jewish minorities in Central Europe and the Iberian peninsula Holy Land maps and medieval imaginative geography and the uses of Thomas Becket in the colonial imaginary of the Plantagenet court The Numismatic Chronicle and Journal of the Royal Numismatic Society Second Series W. S. W. Vaux, John Evans, Barclay V. Head, 2024-09-10 Reprint of the original first published in 1874 **Paganism in the Roman Empire** Ramsay MacMullen, 1981-01-01 MacMullen has published several books in recent years which establish him rightfully as a leading

social historian of the Roman Empire The current volume exhibits many of the characteristics of its predecessors the presentation of novel revisionist points of view discrete set pieces of trenchant argument which do not necessarily conform to the boundaries of traditional history and an impressive authoritative and up to date documentation especially rich in primary sources A stimulating and provocative discourse on Roman paganism as a phenomenon worthy of synthetic investigation in its own right and as the fundamental context for the rise of Christianity Richard Brilliant History MacMullen s latest work represents many features of paganism in its social context more vividly and clearly than ever before Fergus Millar American Historical Review The major cults are examined from a social and cultural perspective and with the aid of many recently published specialized studies Students of the Roman Empire should read this book Robert J Penella Classical World A distinguished book with much exact observation An indispensable mine of erudition on a grand theme Henry Chadwick Times Literary Supplement Ramsay MacMullen is Dunham Professor of History and Classics at Yale University and the author of Roman Government s Response to Crisis A D 235 337 and Roman Social Relations 50 B C to A D 284 *The Numismatic Chronicle, and Journal of the Numismatic Society*, 1874 *Numismatics* Elvira Eliza Clain-Stefanelli, 1965 *The Senatus Consultum de Cn. Pisone Patre* Alison E. Cooley, 2023-02-23 Examines the emergence of dynastic rule at Rome in the early Principate via analysis of the senatorial decree concerning Piso **Numismatic Chronicle, and Journal of the Royal Numismatic Society**, 1913 Vols for 1842 include the proceedings of the Society *Numismatic Notes and Monographs* American Numismatic Society, 1921 **Catalogue of the Byzantine and Early Mediaeval Antiquities in the Dumbarton Oaks Collection** Dumbarton Oaks, 1962 Language and Culture in the Growth of Imperialism Sharron Gu, 2012-09-13 Political science interpretations of international relations tend to focus on abstract terms of economic interest domination rights and justice Trapped within this limited horizon the discipline fails to explain why nations of similar economic structure would have variant ideas for their foreign policies and why nations with different economic structures and ideologies could develop a similar global posture during certain periods of their histories This innovative study examines imperialism from a cultural and linguistic perspective portraying the rise and fall of ancient Greek Roman medieval Islamic modern British Russian and American empires as a part of the natural life of world civilizations As these imperial cultures matured through centuries of literary accumulation and interaction with other cultures they finally found their confidence on the world stage and transitioned from an aggressive policy towards others to a more tolerant one **The Roman Emperor and his Court c. 30 BC-c. AD 300: Volume 2, A Sourcebook** Benjamin Kelly, Angela Hug, 2022-10-20 At the centre of the Roman empire stood the emperor and the court surrounding him The systematic investigation of this court in its own right however has been a relatively late development in the field of Roman history and previous studies have focused on narrowly defined aspects or on particular periods of Roman history This book makes a major contribution to understanding the history of the Roman imperial court The first volume presents nineteen original essays covering all the major dimensions of the court

from the age of Augustus to the threshold of Late Antiquity The second volume is a collection of the ancient sources that are central to studying that court The collection includes translations of literary sources inscriptions and papyri plans and computer visualizations of archaeological remains and photographs of archaeologic sites and artworks depicting the emperor and his court **A History of the Ostrogoths** Thomas S. Burns,1991-02-22 Thorough and convincing likely to become the standard work on the subject Library Journal Highly readable Medieval Literature A major work of synthesis Walter E Kaegi Burns has achieved much for the modern study of Ostrogoths Antiquaries Journal The Senate of Imperial Rome Richard J.A. Talbert,2022-02-08 Richard J A Talbert examines the composition procedure and functions of the Roman senate during the Principate 30 B C A D 238 Although it is of central importance to the period this great council has not previously received such scholarly treatment Offering a fresh approach to major ancient authors Pliny and Tacitus in particular the book also draws on inscriptions and legal writers never before fully exploited for the study of the senate Classical Numismatic Auctions XIV ,

Eventually, you will no question discover a other experience and talent by spending more cash. nevertheless when? do you consent that you require to acquire those every needs subsequent to having significantly cash? Why dont you try to acquire something basic in the beginning? Thats something that will guide you to comprehend even more with reference to the globe, experience, some places, with history, amusement, and a lot more?
