Sellar, 1892 Exemplary Traits J. Mira

Seo, 2013-05-01 How did Roman poets create character The mythological figures that dot the landscape of Roman poetry entail their own predetermined plotlines and received characteristics the idea of a gentle maternal Medea is as absurd as a spineless and weak Achilles For Roman poets the problem is even more acute since they follow on late in a highly developed literary tradition The fictional characters that populate Roman literature such as Aeneas and Oedipus link text and reader in a form of communication that is strikingly different from a first person narrator to an addressee With Exemplary Traits Mira Seo addresses this often overlooked question Her study offers an examination of how Roman poets used models dynamically to create character and how their referential approach to character reveals them mobilizing the literary tradition Close readings of Virgil Lucan Seneca and Statius offer a more nuanced discussion of the expectations of both authors and audiences in the Roman world than those currently available in scholarly debate By tracing the philosophical and rhetorical concepts that underlie the function of characterization Exemplary Traits allows for a timely reconsideration of it as a fruitful literary technique **Intertextuality and the Reading of Roman Poetry** Lowell Edmunds, 2003-05-01 How can we

explain the process by which a literary text refers to another text For the past decade and a half intertextuality has been a central concern of scholars and readers of Roman poetry In Intertextuality and the Reading of Roman Poetry Lowell Edmunds proceeds from such fundamental concepts as author text and reader which he then applies to passages from Vergil Horace Ovid and Catullus Edmunds combines close readings of poems with analysis of recent theoretical models to argue that allusion has no linguistic or semiotic basis there is nothing in addition to the alluding words that causes the allusion or the reference to be made Intertextuality is a matter of reading **Roman Poetry** Edward Ernest Sikes, 1923 **Perspectives**

**of Roman Poetry** Karl Galinsky, 2014-07-03 Written by leading specialists the essays in Perspectives of Roman Poetry seek to provide a broad range of readers with a good understanding of some essential aspects of major Roman poets and poetic genres The value of the essays is enhanced for comparative purposes by their extensive reference to modern authors such as Shakespeare and Tolkien For the modern reader Latin quotations are accompanied by effective English translations The

essays and their authors are as follows The Woman s Role in Latin Love Poetry by Georg Luck Autobiography and Art in Horace by William S Anderson Some Trees in Virgil and Tolkien by Kenneth J Reckford The Business of Roman Comedy by Erich Segal Ovid s Metamorphosis of Myth by G Karl Galinsky The preface and concluding panel discussion illumine the situation of literary criticism in the classics and point out the need for diversity Perspectives of Roman Poetry resulted from a symposium held at the University of Texas at Austin in 1972 These essays offer different and in some cases heterodox interpretations that will serve as a basis for future discussions

*Ezra Pound and Roman Poetry: A Preliminary Survey* Peter Davidson, 2023-08-14 Ezra Pound and Roman Poetry is an examination of a crucial phase in the development of Pound as translator and therefore of creative translation in the twentieth century The book provides a survey of Pound s attempt to appropriate the poetry of Classical Rome by tracing the histories of the poet s involvement with Horace Virgil Catullus Ovid and Propertius in order to express his own marginal position within London during the First World War No extensive critical discussion is attempted but attention is given to Pound s critical writings on the Latin poets as well as his translations from their work Dr Davidson also treats other aspects of Pound s problematic relation to the Classical Tradition the use and abuse of dictionaries Laforgue and Baudelaire as a third term haunting Pound s translations the difficult monolith of English classicism the invention of an oppositional romanitas It is hoped that this work may encourage others to produce the comprehensive survey which Pound s sustained and Protean relationship to the classical languages would appear to demand Pound s readings of Latin poetry are inevitably readings also of English poetry in the context of England and particularly London in the first two decades of the twentieth century
