The Roman Army Pat Southern,2007-10-01 Written by a leading authority on Roman military history this fascinating volume spans over a thousand years as it offers a memorable picture of one of the world s most noted fighting forces paying special attention to the life of the common soldier Southern here illuminates the Roman army s history culture and organization providing fascinating details on topics such as military music holidays strategy the construction of Roman fortresses and forts the most common battle formations and the many tools of war from spears bows and arrows swords and slingshots to the large catapulta which fired giant arrows and bolts and the ballista which hurled huge stones Perhaps most interesting are the details Southern provides about everyday life in the Roman army everything from the soldiers pay they were paid three times per year but money was deducted for such items as food clothing weapons the burial club the pension scheme and so on to their often brutal life if whole units turned and ran about one tenth of the men concerned were chosen by lot and clubbed to death and the rest were put on barley rations instead of wheat Moreover soldiers who lost weapons or their shields would fight savagely to get them back or would die in the process rather than suffer the shame that attached to throwing weapons away or running from the battle Attractively illustrated this book offers a fascinating look at the life of the Roman soldier drawing on everything from Rome s rich historical and archaeological record to soldier s personal correspondence to depictions of military subjects in literature and art

The Roman Army at War Adrian Keith Goldsworthy,1998 This detailed examination of the way in which the Roman army operated during a war and how it fought a battle breaks away from existing studies which mostly concentrate on the army in peacetime and attempts to understand the army as an institution whose ultimate purpose was to wage war Adrian Goldsworthy explores the influence to the Roman army s organization on its behaviour during a campaign emphasizing its great flexibility in comparison to most of its opponents He considers the factors determining the result of a conflict and proposes contrary to orthodox opinion that the Roman army was able to adapt successfully to any type of warfare Following the technique pioneered by John Keegan in The Face of Battle 1976 Dr Goldsworthy builds up a precise picture of what happened during battle tactics employed weaponry leadership behaviour of individuals as well as groups of soldiers and of utmost importance morale

abandoned its role as depository of the values of the upper classes and the propertied. Instead it became an institution of the poor and drain on the power of the Empire. Santosuosso also investigates other topics such as the monopoly of military power in the hands of a few, the connection between the armed forces and the cherished values of the state, the manipulation of the lower classes so that they would accept the view of life control and power dictated by the oligarchy and the subjugation and dehumanization of subject peoples whether they be Gauls, Britons, Germans, Africans or even the Romans themselves.
