**Monumentality and the Roman Empire** Edmund Thomas, 2007-11-16 The quality of monumentality is attributed to the buildings of few historical epochs or cultures more frequently or consistently than to those of the Roman Empire It is this quality that has helped to make them enduring models for builders of later periods This extensively illustrated book the first full length study of the concept of monumentality in Classical Antiquity asks what it is that the notion encompasses and how significant it was for the Romans themselves in moulding their individual or collective aspirations and identities Although no single word existed in antiquity for the qualities that modern authors regard as making up that term its Latin derivation from monumentum a monument attests plainly to the presence of the concept in the mentalities of ancient Romans and the development of that notion through the Roman era laid the foundation for the classical ideal of monumentality which reached a height in early modern Europe This book is also the first full length study of architecture in the Antonine Age when it is generally agreed the Roman Empire was at its height By exploring the public architecture of Roman Italy and both Western and Eastern provinces of the Roman Empire from the point of view of the benefactors who funded such buildings the architects who designed them and the public who used and experienced them Edmund Thomas analyses the reasons why Roman builders sought to construct monumental buildings and uncovers the close link between architectural monumentality and the identity and ideology of the Roman Empire itself

"The Spectacle of Clouds, 1439?650 " Alessandra Buccheri, 2017-07-05 The studies in which history of art and theatre are considered together are few and none to date investigate the evolution of the representation of clouds from the early Renaissance to the Baroque period This book reconsiders the origin of Italian Renaissance and Baroque cloud compositions while including the theatrical tradition as one of their most important sources By examining visual sources such as paintings frescos and stage designs together with letters guild ledgers descriptions of performances and relevant treatises a new methodology to approach the development of this early modern visuality is offered The result is an historical reconstruction where multiple factors are seen as facets of a single process which led to the development of Italy s visual culture The book

also offers new insights into Leonardo da Vinci's theatrical works Raphael's Disputa Vasari's Lives and Pietro da Cortona's fresco paintings The Spectacle of Clouds 1439-1650 examines the different ways Heaven has been conceived imagined and represented from the fifteenth to the seventeenth century crossing over into the fields of history religion and philosophy
