European Regions, 1870 - 2020 Jordi Martí-Henneberg, 2021-08-20 This volume explains the national and regional border modifications that took place in Europe from 1870 to 2020 It provides insights that allow us to understand boundary changes for several different levels of territorial organization The text describes the state formation process related to the regional administrative structures in each European country and offers insight into the degree of centralization historically by describing the extent of legislative autonomy at different administrative levels and the competences reserved for each of them The book sheds light on the complex regional organization of Europe and the difficulties its reform has faced The main audience will be academics and PhD Masters students working in a variety of geography fields and the maps included in each chapter will also be of interest to a broader audience including undergraduate and secondary school students wishing to better understand the political history of Europe *Romania*

Stephen Roper,2004-08-02 The Romanian revolution was motivated by a desire for greater political and intellectual freedom and economic prosperity It was the bloodiest of the eastern European transitions due to Ceausescu s cult of personality However many of the goals of the revolution are still unfulfilled The lack of civil society charges of political corruption the failure to transform the economy and concerns over the protection of ethnic minority rights are all factors in Romania s failure to become a fully integrated European country Tracing the country s political history and examining Romania s postcommunist politics economic transition and foreign policy this book contemplates the prospects for this country as it enters the twenty first century     Spaces and Places in Central and Eastern Europe Gyula Horváth,2014-08-21 Across Europe there is a rapidly changing context for undertaking regional development In the 20th century development of the former planned economies Bulgaria Czech Republic Hungary Poland Romania and Slovakia was defined by these countries differences rather than their common ideological roots These disparities altered over time and were marked by changing social structures However the ranking of regions has remained the same as core areas have strengthened their positions while the structural obstacles to the modernisation of peripheral areas have remained due to a lack of coherent regional policy This book examines the specific regional development paths of Central and Eastern European countries and evaluates the effects of the determining factors of this process Through analysis of the system of objectives instruments and institutions used in different eras and case studies of Hungary East Germany and Germany development models are established and compared with Western European patterns The book summarises the experiences of Central and Eastern European regional cooperation and examines the basic nature of the cohesion problems of the Carpathian Basin trans national macro region It confirms by comparative historical analyses that the transformation was indeed unique This book will make a welcome addition to the literature for students and academics interested in the broader picture of Central and Eastern European politics future integration within the European Union and the history of regional development processes     Romania Business Law Handbook Volume 1 Strategic Information and Basic Laws IBP. Inc.,2017-11-15 2011 Updated Reprint Updated Annually Romania Business Law Handbook     **Democratization and Securitization** Adina Marina Stefan,2009 Securitization and Democratization reveals the mutual dependency between democratization and securitization two processes that while evolving reinforce each other The study of the democratic consolidation is complemented by the more complex and dynamic securitization elements that offer an in depth view of the internal threats to be faced Ms Stefan s analysis creates an articulated and coherent concept underlying the close dependence between democracy and security As a study case Romania provides a wide scale of situations in several security sectors and contributes to building a model that is operational in any post communist society     International Trade from Economic and Policy Perspective Vito Bobek,2012-08-22 Today s international trade is radically more complex The revolution in information and communication technologies fostered an internationalisation of supply chains which created a nexus between trade investment and services

which is at the heart of so much of today's international commerce. The degree of recent change has created an uncertainty that now demands new global trade systems, a new set of rules for the new environment. This book tackles some of the unresolved issues in international trade that will continue to press into the next decades. Covering an array of topics critical to today's scholar, economic policy designer, and business leader, the book *International Trade from Economic and Policy Perspective* is comprised of four sections: International Trade Theories, Trade Patterns, Government Policies, and International Trade and Business Perspective of International Trade. **Bulletin**, 2001

Retrofitting for Optimal Energy Performance Tantau, Adrian, 2019-06-14. Retrofitting expresses in a traditional approach the process of improving something after it has been manufactured, constructed, or assembled. These systems integrate new technologies, new functions, and new services that increase the energy performance in existing private, public, and commercial buildings. Retrofitting for Optimal Energy Performance is a comprehensive reference source that examines environmentally conscious technologies and their applications in advancing retrofitting practices. Providing relevant theoretical frameworks and the latest empirical research findings in the area, it highlights an array of topics such as climate change, energy management, and optimization modeling, and is essential for academicians, students, researchers, engineers, architects, entrepreneurs, managers, policymakers, and building owners. **Ethnicity and Intercultural Dialogue at the European Union Eastern Border** Mircea Brie, Sorin Sipos, 2014-09-26. Ethnicity and religious confession are concepts around which discussion and controversy arise, generating emotions and feelings of extreme intensity. Each of us belongs to such a community. By default, there is pressure on us to be subjective. Intercultural dialogue can be successfully provided where a community that is aware of the Other comes to communicate, cooperate, and build the structure of a multicultural society. Diversity throughout Central and South Eastern Europe can lead to either cooperation or conflict. Presently, we face discrimination, marginalization, low status, minorities, peripheral societies, and the inequitable distribution of resources that leads to unequal distribution of authority and power.

Soft Or Hard Borders? Joan DeBardeleben, 2017-07-05. Bringing together leading European and North American experts, this timely volume answers questions about the implications and management of the new external borders of the European Union following another phase of enlargement. Implications of the EU's new external border, especially its eastern border with Russia and Ukraine, will be a key issue for the new member countries for the EU and for the new neighbouring regions. The contributors address this emerging question from two perspectives. They examine whether an expanded Europe will create a new dividing line in Europe between insiders and outsiders and also consider the concrete problems of border management and how the issues will be handled. The book will be of particular value to those concerned with European

politics and the expansion of Europe and to those with an interest in political sociology      Building Engagement for Sustainable Development Laurențiu Tăchiciu, Gregor Weber, Markus Bodemann, 2019-05-13 The present volume addresses a set of challenges on the pass toward a more sustainable economy and society Departing from conventional rhetoric on sustainability the book is an invitation to reflect more closely on everyday routines on the fundamentals and effects of current activities      **The Paris Peace Conference and Its Consequences in Early-1920s Europe** Sorin Arhire, Tudor Roșu, Călin Anghel, 2023-04-12 The Paris Peace Conference had significant ramifications across Europe felt by the Great Powers but also by small states struggling for their recognition and independence setting the stage for the Second World War Despite the importance of this conference many perspectives from European historians remain inaccessible to international audiences because they have not yet been published in English This has led to a marginalization of voices from some of the countries which have been the most affected by the fallout from the conference This book remedies this by providing access to the latest research on the topic based on primary sources and critical analyses of existing publications      *Cestode Infections—Advances in Research and Treatment: 2012 Edition* , 2012-12-26 Cestode Infections Advances in Research and Treatment 2012 Edition is a ScholarlyPaper that delivers timely authoritative and intensively focused information about Cestode Infections in a compact format The editors have built Cestode Infections Advances in Research and Treatment 2012 Edition on the vast information databases of ScholarlyNews You can expect the information about Cestode Infections in this eBook to be deeper than what you can access anywhere else as well as consistently reliable authoritative informed and relevant The content of Cestode Infections Advances in Research and Treatment 2012 Edition has been produced by the world s leading scientists engineers analysts research institutions and companies All of the content is from peer reviewed sources and all of it is written assembled and edited by the editors at ScholarlyEditions and available exclusively from us You now have a source you can cite with authority confidence and credibility More information is available at [http www ScholarlyEditions com](http://www.ScholarlyEditions.com)      History of Romanian Technology and Industry Dorel Banabic, 2023-12-18 This volume showcases the valuable achievements of the Romanian technology and industry worldwide It started from the premise that the history of Romanian technique is scarcely known outside the borders of Romania The main Romanian contributions to the world s technological heritage are missing except for a few names in the field of aviation from the great encyclopedias and dictionaries published worldwide This is due among other reasons to the insufficient promotion in widely spoken languages of the history of Romanian technology The multidisciplinary approach of the volumes means that the field of technology had to be split into several branches The present volume includes the following industries mining metallurgy oil natural gas machine building agricultural machinery military textiles and construction Folk technology the formation of the industrial system and mechanics are tackled in separate chapters For each field are engaged the collaboration of authors who have already published a history of their field Certain chapters were drafted with the aid of specialists who have played the part of
