Romanistisches Jahrbuch 2003:

A Companion to Anticlassicisms in the Cinquecento Marc Föcking, Susanne A. Friede, Florian Mehlretter, Angela Oster, 2023-03-06 Anticlassicisms as a plural react to the many possible forms of classicisms In the sixteenth century classicist tendencies range from humanist traditions focusing on Horace and the teachings of rhetoric via Pietro Bembo's canonization of a second antiquity in the works of the fourteenth century classics Petrarch and Boccaccio to the Aristotelianism of the second half of the century Correspondingly the various tendencies to destabilize or to subvert or contradict these manifold and historically dynamic classicisms need to be distinguished as so many anticlassicisms This volume after discussing the history and possible implications of the label anticlassicism in Renaissance studies differentiates and analyzes these anticlassicisms It distinguishes the various forms of opposition to classicisms as to their scope on a scale between radical poetological dissension to merely sectorial opposition in a given literary genre and to their alternative models be they authors like Dante or texts At the same time the various chapters specify the degree of difference or erosion inherent in anticlassicist tendencies with respect to their classicist counterparts ranging from implicit system disturbances to open intended antagonism as in Bernesque poetry with a view to establishing an overall picture of this field of phenomena for the first time

Linguistics and Literary Studies / Linguistik und Literaturwissenschaft Monika Fludernik, Daniel Jacob, 2014-04-01 Die Beiträge des Bandes zeigen, dass die disziplinäre Begegnung zwischen Sprach- und Literaturwissenschaft weit mehr ist als eine Tradition akademischer Institutionen. In 16 allgemein-theoretischen und textbezogenen Analysen werden Berührungspunkte zwischen den beiden Disziplinen beleuchtet; auch solcher institutioneller Art. Es werden die Gemeinsamkeiten und Unterschiede zwischen Alltagsdiskurs und Literatur herausgearbeitet, und linguistische Begrifflichkeiten auf literarische Texte angewandt. Dies betrifft Fragen wie Sprechakt, Referenz und Inferenz, die Strukturen und die Relevanz des kognitiven und kulturellen Hintergrunds für beide Diskursformen, Rhetorik und Perspektivierungen, Sprach- und Schreibstile, Gattungen und andere Ebenen diskursiver Traditionen

Eros and Noesis Don A. Monson, 2022-03-16 This is the first study to apply the results of modern cognitive science to medieval love literature. Covering the entire corpus of Occitan, French, and Latin love literature of twelfth and thirteenth century France, it explores the universal and the culturally specific in medieval poetic attitudes towards love, the cognitive structure of the love themes, and the cognitive basis for the system of courtly genres. It proposes a cognitive taxonomy of courtly literature based on three hyper-genres: the lyric as the basic mode for the expression of love, with courtly narrative and didactic literature arising through a process of amplification of the courtly themes. It also includes anti-courtly satire, which applies to courtly idealism, an innate human propensity for detecting cheating

Die Konstruktion von Reputation Julia Richter, 2015-11-15 Die Berühmtheit eines Wissenschaftlers lässt sich nicht ausschließlich an der Anzahl der auf seine Werke getriggerten Verweise ermes-sen. Auch die Vernachlässigung der Vollständigkeit eines Verweises auf den Urheber einer als grundlegend wahrgenommenen Idee stellt eine, wenn nicht gar die intensivste Form der Anerkennung dar. Julia Richter ermittelt, mit welchen Strategien wissenschaftliches Prestige erzeugt wird. Im Zentrum ihrer Analyse stehen die Verweise auf Ferdinand de Saussure im Diskurs der romanistischen Linguistik. Die Studie entwickelt sogleich eine diskursanalytische Methode, die geeignet ist, Verweise in wissenschaftlichen Texten auf ihr Potential hin zu untersuchen, bestimmte Akteure des Diskurses aufzuzeigen, und die Beziehungen zwischen diesen Diskursakteuren darzustellen

Aspects of Tenses, Modality, and Evidentiality, 2021-11-01 If there's a domain in linguistics which complexity calls for ever further research, it's clearly that of tense, aspect, modality, and evidentiality, often referred to as TAME. The reason for which these domains of investigation have been connected so tightly, as to deserve a common label, is that their actual intertwining is so dense that one can hardly measure their effects purely individually without regard to the other notions of the spectrum. On the other hand, despite their imbrications, tense, aspect, modality, and evidentiality remain needless to say separate theoretical entities. The papers gathered in this volume cover a range of issues and a variety of methods that help delineate each in its way, new perspectives on this broad domain

The Hallowing of Logic Simon J.G. Burton, 2012-05-03 While Richard Baxter 1615-91 has been called the chief of English Protestant schoolmen few studies of his theology exist and none of his major systematic work the *Methodus Theologiae* 1681 Through examining the scriptural and metaphysical foundations of his exemplaristic logic and engaging extensively with his medieval and early modern sources this study presents Baxter's understanding of method as the unfolding of the believer's relation with the Triune God through salvation history revealing his profound debt to Scotist and Nominalist thought In tracing the manifold ramifications of this method it offers a fresh reading of Baxter's soteriology countering the charges of moralism and rationalism often levelled at him and placing his thought within a scholastic paradigm of faith seeking understanding

Constructions in Spanish Inga Hennecke, Evelyn Wiesinger, 2023-07-15 *Constructions in Spanish* is the first book length English language volume in the field of usage based and Cognitive Construction Grammar dedicated exclusively to Spanish The contributions investigate a wide range of constructions from both a synchronic and a diachronic perspective cutting across morphology syntax semantics and pragmatics The constructionist perspective is also linked to comparative and typological research to language learning and teaching and to multi modal discourse analysis The volume aims both at increasing the visibility of constructionist approaches to Spanish and at offering data and analyses of Spanish for scholars working on constructional analyses of other languages The volume thus addresses both scholars in Spanish and Romance linguistics as it builds connections between more traditional approaches and constructionist approaches and construction grammarians generally especially scholars interested in comparative work

The German Pícaro and Modernity Bernhard Malkmus, 2014-03-13 *The German Pícaro and Modernity* reads the re emergence of the picaresque narrative in twentieth century German language writing as an expression of modernity and its social imaginaries Malkmus argues that the picaresque whose origins date back to the Spanish Renaissance and the Baroque Age re emerged as a reflection both of Germany's explosive modernizing processes

between 1880 and 1930 and of the most barbarous implosion of modern civilization under National Socialism Another reason for the fertility of this literary form at that particular cultural moment is rooted in the complexities of German Jewish relations and the history of Jewish assimilation in central Europe A considerable number of authors who used the picaresque form in the twentieth century are from a Jewish background and Malkmus demonstrates how the picaresque narrative template also offers a medium for German Jewish self reflection In highlighting these connections he contributes not only to scholarship in European literature but also but also to our understanding of major social economic and political issues at stake in modernity On the Discursive Deconstruction and Reconstruction of Europe Sabine Heinemann, Uta

Helfrich, Judith Visser, 2022-04-11 Europe is the name for a scintillating variety of historically emerged concepts constantly developed and discussed over time Its complexity and fuzziness is reflected in a multitude of myths topoi symbols and boundaries which all constitute shared knowledge of the concept of EUROPE and which continue to influence attempts to de and re construct European identity The case studies collected in this volume investigate the competing concepts of Europe in political and public discourses from a wide range of perspectives e g frame semantics discourse linguistics multimodal analysis focusing on the following aspects How is EUROPE conceptualised re negotiated and legitimised by different political actors political bodies and institutions How does the European idea change throughout history and how is the re emerging idea of nationality evaluated Exaptation and Language Change Muriel Norde, Freek Van de Velde, 2016-02-24 This volume

is the first collection of papers that is exclusively dedicated to the concept of exaptation a notion from evolutionary biology that was famously introduced into linguistics by Roger Lass in 1990 The past quarter century has seen a heated debate on the properties of linguistic exaptation its demarcation from other processes of linguistic change and indeed the question of whether it is a useful concept in historical linguistics at all The contributions in the present volume reflect these diverging points of view Along with a comprehensive introduction covering the history of the notion of exaptation from its conception in the field of biology to its adoption in linguistics the book offers extensive discussion of the concept from various theoretical perspectives detailed case studies as well as critical reviews of some stock examples The book will be of interest to scholars working in the fields of evolutionary linguistics historical linguistics and the history of linguistics **The Dynamics of the**

Linguistic System Hans-Jörg Schmid, 2020 This book offers a model of language that can be characterized as functionalist usage based dynamic and complex adaptive Schmid argues that linguistic structure is not stable but continually refreshed by usage conventionalization and entrenchment This wide ranging volume will be of interest to linguists from a wide range of fields **Crossing Languages to Play with Words** Sebastian Knospe, Alexander Onysko, Maik Goth, 2016-09-26 Wordplay

involving several linguistic codes is an important modality of ludic language This volume offers a multidisciplinary approach to the topic discussing examples from different epochs genres and communicative situations The contributions illustrate the multi dimensionality linguistic make up and the special interactive potential of wordplay across linguistic and cultural

boundaries including the challenging practice of translation , **Remade in France** Valérie Saugera, 2017-04-05

Remade in France Anglicisms in the Lexicon and Morphology of French chronicles the current status of French Anglicisms a popular topic in the history of the French language and a compelling example of the influence of global English The abundant data come from primary sources a large online newspaper corpus for unofficial Anglicisms and the dictionary for official Anglicisms and secondary sources This book examines the appearance and behavior of English items in the lexicon and morphology of French and explains them in the context of French neology and lexical activity The first phase of the latest contact period 1990 2015 has its own complex linguistic characterization including a significant influx of nonce borrowings and very low frequency Anglicisms heterogeneous and creative borrowing outcomes and direct phraseological borrowing This book is a counterargument to the well known criticism that Anglicisms are lexical polluters On the contrary the use of Anglicisms requires the inventive application of complex linguistic rules and the borrowing of Anglicisms into the French lexicon is convincing proof that language change is systematic The findings bring novel interdisciplinary insights to the domains of borrowing in a non bilingual contact setting global English as a source of lexical creativity in the French lexicon the phases patterns and processes of integration of English loanwords the morphology of borrowing and computational corpus linguistics The appended database is a snapshot of a synchronic period of linguistic contact and a useful lexicographic resource [Allegorical Bodies](#) Daisy Delogu,
