Revolutions without Borders Janet Polasky, 2015-03-01 Nation based histories cannot do justice to the rowdy radical interchange of ideas around the Atlantic world during the tumultuous years from 1776 to 1804 National borders were powerless to restrict the flow of enticing new visions of human rights and universal freedom This expansive history explores how the revolutionary ideas that spurred the American and French revolutions reverberated far and wide connecting European North American African and Caribbean peoples more closely than ever before Historian Janet Polasky focuses on the eighteenth century travelers who spread new notions of liberty and equality It was an age of itinerant revolutionaries she shows who ignored borders and found allies with whom to imagine a borderless world As paths crossed ideas entangled The author investigates these ideas and how they were disseminated long before the days of instant communications and social media or even an international postal system Polasky analyzes the paper records books broadsides journals newspapers novels letters and more to follow the far reaching trails of revolutionary zeal What emerges clearly from rich historic records is that the dream of liberty among America s founders was part of a much larger picture It was a dream embraced throughout the far flung regions of the Atlantic world Freedom as Marronage Neil Roberts, 2015-02-11 What is the opposite of freedom In Freedom as Marronage Neil Roberts answers this question with definitive force slavery and from there he unveils powerful new insights on the human condition as it has been understood between these poles Crucial to his investigation is the concept of marronage a form of slave escape that was an important aspect of Caribbean and Latin American slave systems Examining this overlooked phenomenon one of action from slavery and toward freedom he deepens our understanding of freedom itself and the origin of our political ideals Roberts examines the liminal and transitional space of slave escape in order to develop a theory of freedom as marronage which contends that freedom is fundamentally located within this space that it is a form of perpetual flight He engages a stunning variety of writers including Hannah Arendt W E B Du Bois Angela Davis Frederick Douglass Samuel Taylor Coleridge and the Rastafari among others to develop a compelling lens through which to interpret the quandaries of slavery freedom and politics that still confront us today The result is a

sophisticated interdisciplinary work that unsettles the ways we think about freedom by always casting it in the light of its critical opposite

The Smell of Slavery Andrew Kettler, 2020-05-28 In the Atlantic World different groups were aromatically classified in opposition to other ethnic gendered and class assemblies due to an economic necessity that needed certain bodies to be defined as excremental which culminated in the creation of a progressive tautology that linked Africa and waste through a conceptual hendiadys born of capitalist licentiousness The African subject was defined as a scented object appropriated as filthy to create levels of ownership through discourse that marked African peoples as unable to access spaces of Western modernity Embodied cultural knowledge was potent enough to alter the biological function of the five senses to create a European olfactory consciousness made to sense the African other as foul Fascinating informative and deeply researched *The Smell of Slavery* exposes that concerns with pungency within the Western self were emitted outward upon the freshly dug outhouse of the mass slave grave called the Atlantic World

British Abolitionism and the Rhetoric of Sensibility B. Carey, 2005-08-31 British Abolitionism and the Rhetoric of Sensibility argues that participants in the late eighteenth century slavery debate developed a distinct sentimental rhetoric using the language of the heart to powerful effect in the most important political and humanitarian battle of the time Examining both familiar and unfamiliar texts including poetry novels journalism and political writing Carey shows that slave owners and abolitionists alike made strategic use of the rhetoric of sensibility in the hope of influencing a reading public thoroughly immersed in the cult of feeling

Harlequin Empire David Worrall, 2015-09-30 Under the 1737 Licensing Act Covent Garden Dury Lane and regional Theatres Royal held a monopoly on the dramatic canon This work explores the presentation of foreign cultures and ethnicities on the popular British stage from 1750 to 1840 It argues that this illegitimate stage was the site for a plebeian Enlightenment

Romantic Art in Practice Thora Brylowe, 2018-08-09 Exploring the relationship between visual art and literature in the Romantic period this book makes a claim for a sister arts moment when the relationship between painting sculpture pottery and poetry held

special potential for visual artists engravers and artisans Elaborating these cultural tensions and associations through a number of case studies Thora Brylowe sheds light on often untold narratives of English labouring craftsmen and artists as they translated the literary into the visual Brylowe investigates examples from across the visual spectrum including artefacts such as Wedgwood s Portland Vase antiquarianism through the work of William Blake the career of engraver John Landseer and the growing influence of libraries and galleries in the period particularly Boydell s Shakespeare Gallery Brylowe artfully traces the shifting cultural connections between the imaginative word and the image in a period that saw new print technologies deluge Britain with its first mass media

Race, Romanticism, and the Atlantic Paul Youngquist, 2016-05-23 In highlighting the crucial contributions of diasporic people to British cultural production this important collection defamiliarizes prevailing descriptions of Romanticism as the expression of a national character or culture The contributors approach the period from the perspective of the Atlantic maritime economy making a strong case for viewing British Romanticism as the effect of myriad economic and cultural exchanges occurring throughout a circum Atlantic world driven by an insatiable hunger for sugar and slaves Typically taken for granted the material contributions of slaves sailors and servants shaped Romanticism both in spite of and because of the severe conditions they experienced throughout the Atlantic world The essays range from Sierra Leone to Jamaica to Nova Scotia to the metropole examining not only the desperate circumstances of diasporic peoples but also the extraordinary force of their creativity and resistance Of particular importance is the emergence of race as a category of identity class and containment *Race Romanticism and the Atlantic* explores that process both economically and theoretically showing how race ensures the persistence of servitude after abolition At the same time the collection never loses sight of the extraordinary contributions diasporic peoples made to British culture during the Romantic era
