Orthodoxy and Secularism Kristina Stoeckl, 2020-07-20 Russian Orthodoxy and Secularism surveys the ways in which the Russian Orthodox Church has negotiated its relationship with the secular state with other religions and with Western modernity from its beginnings until the present It applies multiple theoretical perspectives and draws on different disciplinary approaches to explain the varied and at times contradictory facets of Russian Orthodoxy as a state church or as a critic of the state as a lived religion or as a civil religion controlled by the state as a source of dissidence during Communism or as a reservoir of anti Western anti modernist ideas that celebrate the uniqueness and superiority of the Russian nation Kristina Stoeckl argues that three decades after the fall of Communism the period of post Soviet transition is over for Russian Orthodoxy and that the Moscow Patriarchate has settled on its role as national church and provider of a new civil religion of traditional values Inventing Modernity in Medieval European Thought, ca. 1100–ca. 1550 Cary J. Nedermann, Bettina

Koch, 2019-01-14 One of the most challenging problems in the history of Western ideas stems from the emergence of Modernity out of the preceding period of the Latin Middle Ages This volume develops and extends the insights of the noted scholar Thomas M Izbicki into the so called medieval modern divide The contributors include a wide array of eminent international scholars from the fields of History Theology Philosophy and Political Science all of whom explore how medieval ideas framed and shaped the thought of later centuries This sometimes involved the evolution of intellectual principles associated with the definition and imposition of religious orthodoxy Also addressed is the Great Schism in the Roman Church that set into question the foundations of ecclesiology In the same era philosophical and theoretical innovations reexamined conventional beliefs about metaphysics epistemology and political life perhaps best encapsulated by the fifteenth century philosopher theologian and political theorist Nicholas of Cusa **The Orthodox Icon and Postmodern Art** C.A.

Tsakiridou, 2024-08-29 This study examines the theories of postmodern visuality and representation and identifies concepts that resonate with Orthodox theology and iconography C A Tsakiridou frees the Orthodox icon from iconological precepts that limit its aesthetic and expressive range The book s key argument is that poststructuralist thought is not alien to Orthodox theology and iconography Dissonance liminality and ambiguity are essential for conveying the paradoxes of Christian faith and recognizing the hagiopneumatic vitality and openness of the Orthodox tradition Perichoresis or coinherence a concept in patristic theology that defines the relationship between the three persons of the Holy Trinity and

the two natures of Christ acquires a feminine dimension in the person of the Theotokos Like the ascetical concept of *nepsis* it has aesthetic implications Intermedial qualities present in iconography photography and cinema help explain how icons become hosts to transcendent realities and how their experience in Orthodox liturgy and devotion has anticipated and resolved the postmodern disorientation of visuality and representation The book will be of interest to scholars working in art history postmodernism philosophy theology religion and gender studies

For Him Who Has Eyes to See Edmund J. Rybarczyk, 2016-09-30 Too many Christians are afraid of beauty This fear disconnects these Christians from their larger culture a culture that is increasingly visual increasingly aware of the presence and power of images and more commonly fascinated by the power of beauty and form This historical theological overview presents the thought of ten theologians and one philosopher in an attempt to give Christians helpful vocabulary concerning beauty and aesthetics It is time to use beauty and aesthetics for the mission of Christ And yet rather than simply parrot the larger post Christian culture Christians and churches need to employ beauty and aesthetics in a manner that echoes God's own revelation creation and redemption through Jesus Christ We need to develop a sensitivity that can perceive beauties ignored We need theological framing that both respects the glory of God's handiwork and keeps it from becoming idolatrous We need to live with wonder for the bounty that routinely surrounds us In short we need eyes to see

Anthropologies of Orthodox Christianity Candace Lukasik, Sarah Riccardi-Swartz, 2025-11-04 Anthropologically explores the entanglement of theology and politics among contemporary Orthodox Christians Much of the anthropological literature on Christianity tends to concentrate on Protestants and Catholics in the Global South The contemporary scholarly interest in such communities descends from histories of missionization and colonization of these regions as well as a sense of their theological kinship with the secularized visions of Western political and social life Orthodox Christianity however has largely been rendered marginal in mainstream anthropological engagement because of its theological and social alterity from such Western anthropological traditions of knowledge production Because of this Orthodox Christian lifeworlds in and beyond the academy are created contested and transformed in relation to various others whether they be religious political secular or historical with an eye toward a discursive opposition between modernity and Orthodoxy Each of the essays in *Anthropologies of Orthodox Christianity* texture a new trajectory in the study of this religious tradition that take seriously the theopolitical aspects of Orthodox life through anthropological inquiry The volume engages and moves beyond the tension between populist and institutional framings of religion and critically addresses the ontological gap in both anthropology and theology as social cultural and geopolitical interest in Orthodox Christianity continues to expand and grow

The Cambridge Companion to Orthodox Christian Theology Elizabeth Theokritoff, 2008-12-18 Orthodox Christian theology is often presented as the direct inheritor of the doctrine and tradition of the early Church But continuity with the past is only part of the truth it would be false to conclude that the eastern section of the Christian Church is in any way static Orthodoxy building on its patristic foundations

has blossomed in the modern period This volume focuses on the way Orthodox theological tradition is understood and lived today It explores the Orthodox understanding of what theology is an expression of the Church s life of prayer both corporate and personal from which it can never be separated Besides discussing aspects of doctrine the book portrays the main figures themes and developments that have shaped Orthodox thought There is particular focus on the Russian and Greek traditions as well as the dynamic but less well known Antiochian tradition and the Orthodox presence in the West **Useful**
