Gender Identity, Equity, and Violence Geraldine B. Stahly, 2023-07-03 The authors of the thirteen chapters in this volume bring excitement and innovations to teaching about gender from a wide range of theoretical and discipline perspectives They exhibit the inclusiveness that is central to feminist pedagogy a perspective that centers the educational enterprise in the analysis of the interconnectedness of social categories that have traditionally divided and given root to inequality and oppression and aims for no less than social transformation Empowerment is a core value in gender education and the experiential approach nurtures that goal This volume provides many examples of the power of learning through

experience as the authors demonstrate that the authority of the feminist teacher as intellectual and theorist finds expression in the goal of making students themselves theorists of their own lives by interrogating and analyzing their own experience Weiler 1991 To stimulate the adaptation of the approaches described in these books each volume includes an Activity Methodology table that summarizes key elements of each example such as class size pedagogy and other disciplinary applications **America in European Consciousness, 1493-1750** Karen Ordahl Kupperman,1995 America in European Consciousness 1493 1750 *Volcanic Processes* Laura Loria,2017-12-15 Destructive and awe inspiring the eruption of a volcano is a dramatic demonstration of nature s power However there is much more to the process than what we see on the surface Readers will explore the geological structure that makes volcanic activity possible and follow the sequence of events that culminate in an eruption In addition to eruptions this text examines other geothermal activities the benefits of which may surprise young readers It includes vivid photographs to heighten interest and clear diagrams to enhance comprehension

Quinn,2022-06-08 The Conning of America examines for the first time from a literary perspective the propaganda writings produced in the United States during the period of World War I This American propaganda literature was written in two distinct stages the first stage was written by the pro War establishment based on the East Coast of the United States before American entry into the conflict It attempted to vilify Germany and her Allies while at the same time showing England France and Russia as the victims of a well planned organized German plan for world domination beginning with the invasion of neutral Belgium The literature urged the United States to prepare for a German invasion of America and to be wary of German Americans who most likely were spies in the employ of the Imperial German government The second stage of propaganda literature occurred when America declared war on the Central Powers in April 1917 While still using the blood thirsty militaristic Hun as a symbol of

German inherent evil the propaganda literature began to portray the Americans as the saviors of European culture American boys were being sent to Europe on a spiritual mission to purify decadent European culture while at the same time their sacrifice would rejuvenate and sanctify American values in the fire of the conflict in order for America to take her proper place in the new post war order *The Image of the Jew in American Literature* Louis Harap,2003-01-01 Praiseworthy and complete scholarship make this the definitive work on the subject
