*Reframing the "Desert Frontier"* Rebecca Repper, M.C. Bishop, Dr Robert Bewley, 2025-03-01 The eastern frontier of the Roman Empire its network of roads trade routes towns and forts is often conceived of as an edge of both empire and civilisation but this borderland is also part of a rich cultural landscape Our awareness and appreciation of these cultures has increased dramatically over the course of the last century Scholarship has deepened methods have advanced and perspectives have shifted Across 20 chapters *Reframing the Desert Frontier* offers new insights into the rich cultural history of this region through the re-examination of existing material such as archives historical accounts and previous surveys and through the use of novel archaeological approaches The bringing together of different methodological approaches to the archaeology of the region in a single volume highlights synergies and offers important comparisons for archaeologists to consider This volume highlights the work of Emeritus Professor David Kennedy whose contribution to the study of the Roman army the archaeology of Jordan and aerial archaeology has inspired and enhanced multiple projects that have reframed this so-called desert frontier *Reframing the Desert Frontier* encapsulates the enriched view of this ancient region generated by new techniques of survey and analysis changed perspectives on older materials a more intense engagement with the rural landscapes surrounding ancient towns and the addition of new discoveries that alter previous consensus [Barrington Atlas of the Greek and Roman World](#) Richard J.A. Talbert, 2000-10-08 In 102 full color maps spread over 175 pages the Barrington Atlas re-creates the entire world of the Greeks and Romans from the British Isles to the Indian subcontinent and deep into North Africa It spans the territory of more than 75 modern countries Its large format 13 1/4 x 18 in or 33 7/8 x 46 4 cm has been custom designed by the leading cartographic supplier MapQuest.com Inc and is unrivaled for range clarity and detail Over 70 experts aided by an equal number of consultants have worked from satellite-generated aeronautical charts to return the modern landscape to its ancient appearance and to mark ancient names and features in accordance with the most up-to-date historical scholarship and archaeological discoveries Chronologically the Barrington Atlas spans archaic Greece to the Late Roman Empire and no more than two standard scales 1:500,000 and 1:1,000,000 are used to represent most regions Since the 1870s all attempts to map the classical world comprehensively have failed The Barrington Atlas has finally achieved that elusive and challenging goal It began in 1988 at the University of North Carolina Chapel Hill under the

direction of the distinguished ancient historian Richard Talbert and has been developed with approximately 4.5 million in funding support. The resulting Barrington Atlas is a reference work of permanent value. It has an exceptionally broad appeal to everyone worldwide with an interest in the ancient Greeks and Romans, the lands they penetrated and the peoples and cultures they encountered in Europe, North Africa and Western Asia. Scholars and libraries should find it essential. It is also for students, travelers, lovers of fine cartography and anyone eager to retrace Alexander's eastward marches, cross the Alps with Hannibal, traverse the Eastern Mediterranean with St Paul or ponder the roads, aqueducts and defense works of the Roman Empire. For the new millennium, the Barrington Atlas brings the ancient past back to life in an unforgettably vivid and inspiring way.

Map by Map Directory: A Map by Map Directory to the Barrington Atlas is available online: [http://assets.press.princeton.edu/B\\_ATLAS/B\\_ATLAS.PDF](http://assets.press.princeton.edu/B_ATLAS/B_ATLAS.PDF) and in a separate two-volume print edition of close to 1,500 pages. The Directory is designed to provide information about every place or feature in the Barrington Atlas. The section for each map comprises a concise text drawing attention to special difficulties in mapping a region, such as extensive landscape change since antiquity or uneven modern exploration; a listing of every name and feature on the map with basic data about the period of occupation; the modern equivalents of ancient placenames; the modern country within which they are located; and brief references to relevant ancient testimony or modern studies; a bibliography of works cited. The Map by Map Directory is an essential accompaniment to the Barrington Atlas. As a uniquely rich, comprehensive, up-to-date distillation of evidence and scholarship, it has no match elsewhere and opens the way to an immense variety of further research initiatives.

**Rome in the East** Warwick Ball, 2016-06-10. This new edition of Rome in the East expands on the seminal work of the first edition and examines the lasting impact of the Near Eastern influence on Rome on our understanding of the development of European culture. Warwick Ball explores modern issues as well as ancient and overturns conventional ideas about the spread of European culture to the East. This volume includes analysis of Roman archaeological and architectural remains in the East as well as links to the Roman Empire as far afield as Iran, Central Asia, India and China. The Near Eastern client kingdoms under Roman rule are examined in turn and each are shown to have affected Roman and ultimately European history in different but very fundamental ways. The highly visible presence of Rome in the East, mainly the architectural remains, some among the greatest monumental buildings in the Roman world, are examined from a Near Eastern perspective and demonstrated to be as much, if not more, a product of the Near East than of Rome. Warwick Ball presents the story of Rome in the light of Rome's fascination with the Near East, generating new insights into the nature and character of Roman civilisation and European identity from

Rome to the present Near Eastern influence can be seen to have transformed Roman Europe with perhaps the most significant change being the spread of Christianity This new edition is updated with the latest research and findings from a range of sources including field work in the region and new studies and views that have emerged since the first edition Over 200 images most of them taken by the author demonstrate the grandeur of Rome in the East This volume is an invaluable resource to students of the history of Rome and Europe as well as those studying the Ancient Near East

Rosser, 2012 The Byzantine Empire dates back to Constantine the Great the first Christian ruler of the Roman Empire who in 330 AD moved the imperial capital from Rome to a port city in modern day Turkey which he then renamed Constantinople in his honor From its founding the Byzantine Empire was a major anchor of east west trade and culture art architecture and the economy all prospered in the newly Christian empire As Byzantium moved into the middle and late period Greek became the official language of both church and state and the Empire's cultural and religious influence extended well beyond its boundaries In the mid 15th century the Ottoman Turks put an end to 1 100 years of Byzantine history by capturing Constantinople but the Empire's legacy in art culture and religion endured long after its fall In this revised and updated second edition of the Historical Dictionary of Byzantium author John H Rosser introduces both the general reader and the researcher to the history of the Byzantine Empire This comprehensive dictionary includes detailed alphabetical entries on key figures ideas places and themes related to Byzantine art history and religion and the second edition contains numerous additional entries on broad topics such as transportation and gender which were less prominent in the previous edition An expanded introduction introduces the reader to Byzantium and a guide to further sources and suggested readings can be found in the extensive bibliography that follows the entries A basic chronology and various maps and illustrations are also included in the dictionary This book is an excellent access point for students researchers and anyone wanting to know more about Byzantium      **Rome, the Greek World, and the East** Fergus Millar, 2011-05-01 This volume completes the three volume collection of Fergus Millar's essays which together with

his books transformed the study of the Roman Empire by shifting the focus of inquiry onto the broader Mediterranean world and beyond The eighteen essays presented here include Millar s classic contributions to our understanding of the impact of Rome on the peoples cultures and religions of the eastern Mediterranean and the extent to which Graeco Roman culture acted as a vehicle for the self expression of the indigenous cultures In an epilogue written to conclude the collection Millar argues for rethinking the focus of ancient history itself and for considering the Levant and the eastern Mediterranean from the first millennium B C to the Islamic conquests a valid scholarly framework and an appropriate educational syllabus for the study of antiquity English translations of extended ancient passages in Greek Latin and Semitic languages in all the essays make Millar s most important articles accessible for the first time to specialists and nonspecialists alike Trajan Julian Bennett,2003-09-02 Did Trajan really deserve his reputation as the embodiment of all imperial virtues Why did Dante writing in the Middle Ages place him in the sixth sphere of Heaven among the Just and Temperate rulers In this the only biography of Trajan available in English Julian Bennett rigorously tests the substance of this glorious reputation Surprisingly for a Roman emperor Trajan comes through the test with his reputation relatively intact *Frontiers of the Roman Empire: The Upper Germanic Limes* David J.
