Lands and Peoples in Roman Poetry Richard F. Thomas, 2020-08-30 Fixed in diction and form the tradition of ethnographical prose extends from fifth century Greece through all of Latin literature Issues such as situation climate and fertility have a direct effect on the social and ethical status of a land's inhabitants and it is this uniformity of purpose that motivates the strictly formulaic nature of ethnographical texts In this volume Professor Thomas examines the influence of that tradition on the poetry of Virgil Horace and Lucan At their hands it emerges as a vehicle for the expression of attitudes not only towards civilized Italian society but also to landscapes and environments which are largely their own poetic creations and which are to be viewed in contrast to the world of Rome The work concludes with an examination of Tacitus place both in the acknowledged prose tradition and in the more allusive poetic tradition which this study has detected

Ancient Epic Poetry Charles Rowan Beye, 2006-01-01 *The Romantic Idea of the Golden Age in Friedrich Schlegel's Philosophy of History* Asko Nivala, 2017-02-03 The nineteenth century Romantic understanding of history is often confused with the longing for the past Golden Age In this book the Golden Age is seen from a new angle by discussing it in the context of the works of Friedrich Schlegel who saw it not as bygone but to be produced in the future

Love Poetry in the Spanish Golden Age Isabel Torres, 2013 Love poetry in the Spanish Golden Age redefines the lyric poetry that is located at the centre of Imperial Spanish culture's own self image and self definition This work engages with a broader evaluation of early modern poetics

that foregrounds the processes rather than the products of thinking The locus of the study is the Imperial home space where love poetry meets early modern empire at the inception of a very conflicted national consciousness and where the vernacular language Castilian emerges in the encounter as a strategic site of national and imperial identity The political is therefore a pervasive presence teased out where relevant in recognition of the poet's sensitivity to the ideologies within which writing comes into being But the primary commitment of the book is to lyric poetry and to poets individually and in their dynamic interconnectedness Moving beyond a re-evaluation of critical responses to four major poets of the period Garcilaso de la Vega Herrera Gongora and Quevedo this study disengages respectfully with the substantial body of biographical research that continues to impact upon our understanding of the genre and renegotiates the Foucauldian concept of the epistemic break often associated with the anti-mimetic impulses of the Baroque This more flexible model accommodates the multiperspectivism that interrogated Imperial ideology even in the earliest sixteenth century poetry and allows for the exploration of new horizons in interpretation Isabel Torres is Professor of Spanish Golden Age Literature and Head of Spanish and Portuguese Studies at Queen's University Belfast

Politics and Divinization in Augustan Poetry Bobby Xinyue, 2022-06-02 Politics and Divinization in Augustan Poetry offers a new interpretation of one of the most prominent themes in Latin poetry the divinization of Augustus and argues that this theme functioned as a language of political science for the early Augustan poets as they tried to come to terms with Rome's transformation from Republic to Principate Examining an extensive body of texts ranging from Virgil's Eclogues to Horace's final book of the Odes covering a period roughly from 43 BC to 13 BC this study highlights the multifaceted metaphorical force of divinizing language as well as the cultural complications of divinization Through a series of close readings this book challenges the view that poetic images of Augustus divinization merely reflect the poet's attitude towards Augustus or their recognition of his power and puts forward a new understanding of this motif as an evolving discourse through which the first generation of Augustan poets articulated interrogated and negotiated Rome's shift towards

authoritarianism **Didactic Poetry of Greece, Rome and Beyond** Lilah Grace Canevaro, Donncha O'Rourke, 2019-12-01

Here a team of established scholars offers new perspectives on poetic texts of wisdom learning and teaching related to the great line of Greek and Latin poems descended from Hesiod In previous scholarship a drive to classify Greek and Latin didactic poetry has engaged with the near total absence in ancient literary criticism of explicit discussion of didactic as a discrete genre The present volume approaches didactic poetry from different perspectives the diachronic mapping the development of didactic through changing social and political landscapes from Homer and Hesiod to Neo Latin didactic and the comparative setting the Graeco Roman tradition against a wider backdrop including ancient near eastern and contemporary African traditions The issues raised include knowledge in its relation to power the cognitive strategies of the didactic text ethics and poetics the interplay of obscurity and clarity playfulness and solemnity the authority of the teacher

The Reception of Vergil in Renaissance Rome Jeffrey A. Glodzik, 2023-01-16 In this work Jeffrey Glodzik argues that Vergil played a central role in the prevailing discourse of Renaissance Rome Roman humanists associated with the papacy employed the language of Vergil to express a vision for Rome and its divinely ordained destiny Using the transformation methodology allelopoiesis he shows that in their neo Latin works Roman humanists focused on a Christian interpretation of the fourth eclogue to highlight an incipient Golden Age ignored pessimistic readings of the Aeneid to emphasize the glories of a renewed imperium and encapsulated Vergil's words to celebrate papal Rome's unquestionable destiny Ultimately Glodzik demonstrates that the interpretation and application of Vergil were not uniform throughout Europe Vergil was instead shaped to fit the concerns of papal Rome
