architect is undeniably gendered While the male architect might be celebrated as the ideal man in Hollywood romantic comedies blessed with practicality and creativity in equal measure to impeccable taste and an enviable lifestyle the image of the woman architect is not so clear cut While women have been practicing and excelling in architecture for more than a hundred years their professional identity as constructed in the media is complex and sometimes contradictory This book explores the working lives and aspirations of women in architectural practice but more than this it explores how popular media newspapers magazines and websites serve to define and describe who a woman architect should be what she should look like and how she should behave Looking further into the way that professional characteristics are reinforced through awards like the Pritzker Prize the book demonstrates how idealised characteristics such as sensitivity and vision are seen to be neither entirely masculine nor feminine but instead a complex hybrid owing much to historic concepts of genius Drawing on history sociology media analysis and feminist theories of architectural practice the book will be of interest to all of those who seek to better understand the image and identity of the architect This book was published as a double special issue of *Architectural Theory Review* French XX Bibliography William J. American/Medieval Goes North Gillian R. Overing,Ulrike Wiethaus,2019-10-07 One of the great virtues of American

Medieval Goes North is a wide range of contributors with fascinatingly diverse relationships to the main terms of analysis. There are academic scholars, poets, filmmakers, tribal elders, teachers at various levels; there are Indigenous people, people from settler colonial cultures, expats, immigrants. Their analytic and imaginative encounters with the North catch at the intensely symbolic and political charge of that locus. At a time when Medieval Studies cannot afford to ignore the period's popular uptake, cannot continue with business as usual in the face of white supremacists' brazen appropriations of the Middle Ages, this volume points to new possibilities for grappling with the uneasy relationships between the American and the medieval. Prof. Carolyn Dinshaw, New York University.

White Ink Helene Cixous, Susan Sellers, 2014-12-05 Helene Cixous is widely regarded as one of the world's most influential feminist writers and thinkers. *White Ink* brings together her most revealing interviews available in English for the first time. Spanning over four decades and including a new interview with the editor Susan Sellers, this collection presents a brilliant running commentary on the subjects at the heart of Cixous' writing. Here Cixous discusses her books and her creative process, her views on and insights into literature, philosophy, theatre, politics, aesthetics, faith, and ethics, human relations, and the state of the world. As she responds to interviewers' questions, Cixous is prompted to reflect on her roles and activities as poet, playwright, feminist theorist, professor of literature, philosopher, woman, Jew. Each interview is a remarkable performance, an event in language and thought where Cixous' celebrated intellectual and poetic force can be witnessed in action. The accessibility of the interview format provides an excellent starting point for readers new to Cixous, while those already familiar with her work will find unexpected insights and fresh elucidations of her thought.

Livres hebdo, 2006 **La Quinzaine littéraire**, 2005 **Aka** Roni Horn, Dave Hickey, 2010. If language exists, it is because below the levels of identities and differences there is a foundation provided by resemblances, repetitions, and natural criss-crossings. Resemblance excluded from knowledge since the seventeenth century still constitutes the outer edge of language, the ring surrounding the domain of that which can be analyzed, reduced to order, and known. Discourse dissipates this murmur of resemblance, but without it we could not speak. Michel Foucault, *The Order of Things*.
