## **Roots Of Relational Ethics Responsibility In Origin And Maturity In H Richard Niebuhr:**

Roots of Relational Ethics R. Melvin Keiser, 1996 H Richard Niebuhr's major work which he did not live to complete was to be on theological ethics Based on the published and unpublished writings that Niebuhr completed during the last decade of his life Roots of Relational Ethics demonstrates that Niebuhr's conception of responsibility was the culmination of his thought about self God Christ the church ethics and decision making and social evil R Melvin Keiser examines the limitations and potential of Niebuhr's use of responsibility in comparison with relevant themes in liberation and feminist theological ethics He suggests that Niebuhr's mature work can contribute to the alleviation of environmental exploitation sexism anti-Judaism war racism and classism

**Transforming Faith** Joshua Leonard Daniel, 2015-09-09 In the face of apparently rampant individualism there has been a steady call for a return to community and tradition particularly in religious communities and in recent Christian theology and ethics The form of contemporary life upheld by modern ideals like freedom and universalism the story goes turns out to divide people from each other and from the communal sources of our traditionally moral values But the call to community too often confuses individualism with individuality assuming that any appeal to individuality as a value or ideal is a rejection of communal goods rather than a mode of promoting those goods What's necessary now is a recovery of the individual that understands individuality to serve community even in resistance to it In Transforming Faith Joshua Daniel offers a fresh reading of H Richard Niebuhr's theological ethics that provides an account of individuality and individual creativity as both the fruits and reformers of community What is theologically at stake in Daniel's reconstructive interpretation is the human's existentially resonant relation with God and the christological revitalization of our symbolic and virtuous activity

Tirres,2014-01-17 What is the future of liberation thought in the Americas In this groundbreaking work Christopher D Tirres takes up this question by looking at the methodological connections between two quintessentially American traditions liberation theology and pragmatism He explains how pragmatism lends philosophical clarity and depth to some of liberation theology s core ideas and assumptions Liberation theology in turn offers pragmatism a more nuanced and sympathetic approach to religious faith especially its social and pedagogical dimensions Ultimately Tirres crafts a philosophical foundation that ensures the continued relevance of liberation thought in today s world Keeping true to the method of pragmatism the book begins inductively with a set of actual experiences the Good Friday liturgies at the San

Fernando Cathedral in San Antonio Texas and provides a compelling description of the way these performative rituals integrate the aesthetic and ethical dimensions of faith Subsequent chapters probe this integration deductively at three levels of theoretical analysis experience metaphysics sociality and pedagogy As Tirres shows the aesthetic and ethical dimensions of faith emerge in different yet related ways at all three levels He argues that utilizing the categories of the aesthetic and ethical enables a richer understanding of the dynamic relationship between faith and politics This book builds new bridges between a number of discourses and key figures and will be of interest to all who are interested in the liberatory potential of engaged faith praxis especially when it is expressed in the form of religious ritual **Seeds of Silence** R. Melvin

Keiser,2021-11-26 This book is destined to be a classic of Quaker theology and spirituality A deep dive into the roots coherence and originality of Quaker living this text is a stunning articulation of what and how Quakers believe Keiser draws on recent philosophers and early Quaker authors to articulate the contemporary vitality of Quaker insights regarding issues such as equality interrelation and mending creation However the brilliance of the book is not ultimately educational but invitational Every page emerges from the depths of Keiser s own mature spirituality shaped by a lifetime of Quaker commitment experience and practice The reader is carried into a particularly Quaker way of being in the world Like the works of Kelly or Thurman the book leaves one both satisfied and longing comforted and unsettled encouraged and challenged to live more deeply in this strange and sacred world Rev Dr Shannon Craig Snell Professor of Theology Louisville Presbyterian Theological Seminary author of Silence Love and Death Saying Yes to God in the Theology of Karl Rahner R Melvin Keiser delves into the depths of Quaker spirituality and their philosophy showing us that we require silence to unlock our relationship with God **Seeds of Silence** Essays in Quaker Spirituality and Philosophical Theology questions the modern world s addiction to distractions and instant gratification and leads us toward a semi forgotten Christian tradition of contemplative thinking Early Quakers and Their Theological Thought Stephen W. Angell,Pink Dandelion,2015-07-08 This

book provides the most comprehensive theological analysis to date of the work of early Quaker leaders Spanning the first seventy years of the Quaker movement to the beginning of its formalization Early Quakers and their Theological Thought examines in depth the lives and writings of sixteen prominent figures These include not only recognized authors such as George Fox William Penn Margaret Fell and Robert Barclay but also lesser known ones who nevertheless played equally important roles in the development of Quakerism Each chapter draws out the key theological emphases of its subject offering fresh insights into what the early Quakers were really saying and illustrating the variety and constancy of the Quaker message in the seventeenth century This cutting edge volume incorporates a wealth of primary sources to fill a significant gap in the existing literature and it will benefit both students and scholars in Quaker studies **Breaking Through the Plate Glass Window—Prophetic Fragments** Michael Granzen,2022-05-31 This is a selection of writings on themes of trauma and transformation hope and anguish in a time of reckoning The first section offers biographical fragments about life

**Feminist Theology and the Challenge of Difference** Margaret D. Kamitsuka, 2007-07-20 In the early years of contesting patriarchy in the academy and religious institutions feminist theology often presented itself as a unified front a sisterhood The term feminist theology however is misleading It suggests a singular feminist purpose driven by a unified female cultural identity that struggles as a cohesive whole against patriarchal dominance Upon closer inspection the voice of feminist theology is in fact a chorus of diverging perspectives each informed by a variety of individual and communal experiences and an embattled scholarly field marked by the effects of privilege and power imbalances This complexity raises an important question How can feminist theologians respect the irreducible diversity of women's experiences and unmask entrenched forms of privilege in feminist theological discourse In *Feminist Theology and the Challenge of Difference* Margaret D. Kamitsuka urges the feminist theological community to examine critically its most deeply held commitments assumptions and goals especially those of feminist theologians writing from positions of privilege as white or heterosexual women Focusing on women's experience as portrayed in literature biblical narrative and ethnographic writing Kamitsuka examines the assumptions of feminist theology regarding race and sexuality She proposes theoretical tools that feminist theologians can employ to identify and hopefully avoid the imposition of racial or sexual hegemony thus providing invaluable complexity to the movement's identity and ultimately contributing to current and future Christian theological issues Blending poststructuralist and postcolonial theoretical resources with feminist and queer concerns *Feminist Theology and the Challenge of Difference* makes constructive theological proposals ranging from sin to christology The text calls feminist theologians to a more rigorous self critical approach as they continue to shape the changing face of Christian theological discourse

**Bliss Against the World** Kirill Chepurin, 2024 *Bliss Against the World* critically analyzes and systematically reconstructs the work of German Idealist and Romantic philosopher Friedrich Schelling 1775-1854 In Schelling's concept of bliss *Seligkeit* the idea of salvation from the world mutates into a burning concern with the negativity of the modern world and with the way modernity inherits the Christian promise of a non alienated future that never arrives Schelling emerges from this account as a key thinker of

modernity and of the Christian modern trajectory as a path to salvation in the shadow of whose failure we continue to live

**Opting for the Margins** Jeorg Rieger, 2003-09-11 Ideas like the preferential option for the poor arguing that people marginalized by the economy have a claim to special consideration have been among the most significant insights in twentieth century Christian theology Arising out of various theologies of liberation options for the poor and for people at the margins of society have provided major new impulses for biblical studies systematic theology church history ecclesial practice and the academic study of religion Opting for the margins continues to be an important issue at a time when the gap between rich and poor is growing at an alarming rate both in the United States and in many other parts of the world and when other gaps based for example on differences in gender or race continue to linger Recently however options for the margins have been challenged by postmodern shifts in intellectual social political and economic realities that often replace preferential options with other emphases such as general concerns for pluralism otherness and difference Options for the margins are therefore at best reduced to the special interests of certain minority groups or at worst rejected as antiquated and irrelevant for the twenty first century The essays in this volume show how some forms of postmodern thought and theology can mask patterns of oppression and provide an excuse for deafness to voices from the margins The authors writing from a wide variety of national ethnic and theological perspectives seek to revive the preferential option for the poor for the postmodern world showing how options for the margins can engage postmodernity in new ways and break new ground in religious theological and ethical as well as social political and economic thinking The essays connect philosophical and theological arguments to the concrete realities of the postmodern world and to uncover new sources of energy in the life and death struggles of people across the globe

**Secularism and Religion-Making** Markus Dressler, Arvind

Mandair, 2011-10-03 This book investigates the universalization of religious and secular knowledges that emerged in their particular modern forms originally in the Christian West It is an attempt to explore the epistemological grounds and political implications of the formation and codependency of secular and religious discourses and practices

**Making Magic**

Randall Styers, 2004-01-15 Since the emergence of religious studies and the social sciences as academic disciplines the concept of magic has played a major role in defining religion and in mediating the relation of religion to science Across these disciplines magic has regularly been configured as a definitively non modern phenomenon juxtaposed to distinctly modern models of religion and science Yet this notion of magic has remained stubbornly amorphous In Making Magic Randall Styers seeks to account for the extraordinary vitality of scholarly discourse purporting to define and explain magic despite its failure to do just that He argues that this persistence can best be explained in light of the Western drive to establish and secure distinctive norms for modern identity norms based on narrow forms of instrumental rationality industrious labor rigidly defined sexual roles and the containment of wayward forms of desire Magic has served to designate a form of alterity or deviance against which dominant Western notions of appropriate religious piety legitimate scientific rationality and orderly

social relations are brought into relief Scholars have found magic an invaluable tool in their efforts to define the appropriate boundaries of religion and science On a broader level says Styers magical thinking has served as an important foil for modernity itself Debates over the nature of magic have offered a particularly rich site at which scholars have worked to define and to contest the nature of modernity and norms for life in the modern world **Attunement** Natalie Carnes,2024 What is a feminist theologian to do with Christianity's patriarchal inheritance She can avoid the most patriarchal aspects of the theological tradition and seek resources for constructive work elsewhere Or she can critique misogynistic texts and artifacts exposing their strategies of domination to warn against replicating them Both approaches have merits and yet without other interpretive strategies they reaffirm that the theological tradition does not belong to women and others marginalized by gender They cannot transform the discourse But within feminist theology are the seeds of another approach aimed at just such transformation by reworking the theological landscape to become hospitable to all those marginalized by gender **Attunement** The Art and Politics of Feminist Theology identifies trajectories resonant with this alternative approach and from them describes and develops attunement as a third generative path for feminist theologians Attunement is an aesthetically invested approach to texts and artifacts that self consciously co creates as it interprets Aware of what the text affords the reader attunement constellates images texts and insights to build or augment positive affordances in the text and diminish negative ones Natalie Carnes describes why this approach is significant for feminist theology maps its roots in a long history of gender marginalized individuals claiming authority describes how it casts interpretation as both an aesthetic and political event and notes how it might provide a way forward in vexed topics in feminist theology **Fortunate Fallibility** Jason A. Mahn,2011-07-06 Jason Mahn traces the concept of the fortunate Fall through the later writings of Soren Kierkegaard examining Kierkegaard's blunt critique of Idealism's justification of evil as well as his playful deconstruction of romantic celebrations of sin *The Metaphysics of Dante's Comedy* Christian Moevs,2008-10-13 The recovery of Dante's metaphysics which are very different from our own is essential argues Christian Moevs if we are to resolve what has been called the central problem in the interpretation of the Comedy That problem is what to make of the Comedy's claim to the status of revelation vision or experiential record as something more than imaginative literature In this book Moevs offers the first sustained treatment of the metaphysical picture that grounds and motivates the Comedy and the relation between those metaphysics and Dante's poetics Moevs arrives at the radical conclusion that Dante believed that all of what we perceive as reality the spatio temporal world is in fact a creation or projection of conscious being Armed with this new understanding Moevs is able to shed light on a series of perennial issues in the interpretation of the Comedy **Converging on Culture** Delwin Brown,Sheila Greeve Davaney,Kathryn Tanner,2001-10-04 Theologians are increasingly looking to cultural analysis and criticism rather than philosophy as a dialogue partner for cross disciplinary studies This book explores the importance of this shift by bringing together scholars from a variety of theological perspectives to analyze different contemporary theories

of culture and cultural movements The essays here examine the theoretical relationship between theology and cultural studies and then discuss a series of controversial topics that cry out for theological reflection
