movement prior to World War I and her effort to rebuild the socialist movement on revolutionary foundations in its aftermath. Much of this material appears in English for the first time. Her incisive contributions on revolutionary strategy, the German and Russian Revolutions, and the transition to socialism reveal a profound commitment to radical democracy, which becomes evident as she elaborates on her lived experience with razor-sharp conceptualizations of the mass strike. Her democratic commitment is also highlighted in her deepening conflict with the bureaucratic conservatism afflicting the German Social Democratic Party. She is horrified yet at the same time grimly analytical while surveying the unfolding violence and brutality of the First World War. Deeply inspired by Russia's 1917 upsurge, she is nonetheless compelled to analyze and criticize fatal limitations of the Russian Revolution. Swept up in the revolutionary chaos sweeping through Germany in 1918-1919, which results in her own martyrdom, she gives voice to revolution's final testament: "I was I am I shall be." *The Complete Works of Rosa Luxemburg, Volume IV* (Rosa Luxemburg, 2022-03-15). Part Four of a comprehensive collection of Rosa Luxemburg's writing. This 600-page volume of Luxemburg's Complete Works contains her writings on Revolution from 1906 to 1909, covering the 1905-06 Russian Revolution, an epoch-making event and its aftermath. Over 80 per cent of writings on this volume have never before appeared in English. The volume contains numerous writings never before available in English, such as her pathbreaking essay "Lessons of the Three Dumas," which presents a unique perspective on the transition to socialism, her "Notes on the English Revolution of the 1640s," and numerous writings on the role of the mass strike in fomenting revolutionary transformation. All of the material in the volume consists of new translations from German, Polish, and Russian originals. *The Complete Works of Rosa Luxemburg, Volume II* (Rosa Luxemburg, 2016-08-23). Rosa Luxemburg's theoretical masterpiece. The second volume in Rosa Luxemburg's Complete Works, entitled "Economic Writings 2," contains a new English translation of Luxemburg's "The Accumulation of Capital: A Contribution to the Economic Theory of Imperialism," one of the most important works ever composed on capitalism's incessant drive for self-expansion and the integral connection between capitalism and imperialism. This new translation is the first to present the full work as composed by the author. It also contains her book-length response to her critics, "The Accumulation of Capital: Or What the Epigones Have Made Out of Marx's Theory: An Anti-Critique." Taken together, these two works represent one of the most important Marxist studies of the globalization of capital. Also included is an essay on the second and third volumes of Marx's "Capital," which had originally appeared as an unattributed chapter in Franz Mehring's book "Karl Marx." Thank you to David Gaharia for helping to support the translation of this book. Politically Red (Eduardo Cadava, Sara Nadal-Melsio, 2023-12-05). How reading and writing are collective acts of political pedagogy and why the struggle for change must begin at the level of the sentence. Reading is class struggle, writes Bertolt Brecht. "Politically Red" contextualizes contemporary demands for social and racial justice by exploring the shifting relations between politics and literacy. Through a series of creative readings of Karl Marx, Rosa Luxemburg, Walter Benjamin, W. E. B. Du Bois, Fredric Jameson, and others, it casts light on history as an accumulation of violence and in

doing so suggests that it can become a crucial resource for confronting the present resurgence of inequality racism and fascism Reading between the lines as it were and even behind them Cadava and Nadal Melsi engage in an inventive mode of activist writing to argue that reading and writing are never solitary tasks but always collaborative and collective and able to revitalize our shared political imagination Drawing on what they call a red common wealth an archive of vast resources for doing political work and in particular anti racist work they demonstrate that sentences as dynamic repositories of social relations are historical and political events *Women's International Thought: A New History* Patricia Owens, Katharina Rietzler, 2021-01-07 The first cross disciplinary history of women s international thought analysing leading international thinkers of the twentieth century **The Jewess Pallas Athena** Barbara Hahn, 2021-06-08 The Jewess Pallas Athena a line from a poem by Paul Celan It is a provocative phrase cutting across cultures and traditions But it poses questions How to reconstruct a culture that has been destroyed How to conceive of history after the catastrophes of the twentieth century This book begins in the mid eighteenth century with the first Jewish women to raise their voices in German It ends two hundred years later with another group of Jewish women looking back at a country from which they had been expelled and to which they would never want to return Among the many prominent female intellectuals and literary figures Barbara Hahn discusses are Hannah Arendt Gertrud Kantorowicz Rosa Luxemburg Else Lasker Sch ler Margarete Susman and Rahel Levin Varnhagen In examining their writing she reflects upon the question of how German culture was constructed with its inherent patterns of exclusion This is a book about hope and despair possibilities and preventions We see attempts at dialogue between Christians and Jews men and women Germans and Jews attempts initiated by these women that for the most part remained unanswered Finally the book reconstructs the changing notions of the Jewess a key word in modern German history with its connotations of salons beauty and esprit And yet a word that is also disastrous in which there culminated everything the dominant culture condemned as dangerous **May Stevens** Patricia Hills, 2005 May Stevens paintings weave themes of familial love and loss societal ills and the healing power of nature and the human community This book surveys the full range of her remarkable lifework from her early social protest paintings to her recent series of luminous large format images of lakes rivers and other bodies of water May Stevens offers an insightful in depth look at Stevens career drawing on her own recollections and rounded out by informed commentary Images and text bring to light Stevens personal history her humanitarian concerns and the social context within which her art evolved **Women in Political Theory** Jane Duran, 2016-02-11 The first volume to explore comprehensively the intersection of feminism politics and philosophy *Women in Political Theory* sheds light on the contributions of women philosophers and theorists to contemporary political thought With close attention to the work of five central thinkers Sarah Grimk Anna Julia Cooper Jane Addams Rosa Luxemburg and Hannah Arendt this book not only offers sustained analyses of the thought of these leading figures but also examines their relationship with established political theorists of the past such as Locke Machiavelli and the ancients Demonstrating that

each of the figures covered was indeed a political theorist of her time whilst highlighting the strength of her thought and the reasons for which it has not been accorded the attention that it merits *Women in Political Theory* offers a fascinating overview of the political thought of five theorists whose work is central to an understanding of modern thought As such it will be of interest to scholars and students of sociology philosophy political and social theory feminist thought and gender studies
