Mission Theology Today James J. Stamoolis,2001-11-02 The purpose of the ASM Series is to publish without regard for disciplinary national or denominational boundaries scholarly works of high quality and wide interest on missiological themes from the entire spectrum of scholarly pursuits e g theology history anthropology sociology linguistics health education art political science economics and development to articulate but a partial list Always the focus will be on Christian mission By mission in this context is meant a cross cultural passage over the boundary between faith in Jesus Christ and its absence In this understanding of mission the basic functions of Christian proclamation dialogue witness service fellowship worship and nurture are of special concern How does the transition from one cultural context to another influence the shape and interaction of these dynamic functions Missiologists know that they need the other disciplines And other disciplines we dare to suggest need missiology perhaps more than they sometimes realize Neither the insider's nor the outsider's view is complete in itself The world Christian mission has through two millennia amassed a rich and well documented body of experience to share with other disciplines Interaction will be the hallmark of this Series It desires to be a channel for talking to one another instead of about one another Secular scholars and church related missiologists have too long engaged in a

sterile venting of feelings about one another often lacking in full evidence Ignorance of and indifference to one another's work has been no less harmful to good scholarship The promotion of scholarly dialogue among missiologists may at times involve the publication of views and positions that other missiologists cannot accept and with which members of the Editorial Committee do not agree The manuscripts published reflect the opinions of their authors and are not meant to represent the position of the American Society of Missiology or the Editorial Committee of the ASM Series We express our warm thanks to various mission agencies whose financial contributions enabled leaders of vision in the ASM to launch this new venture The future of the ASM series will we feel sure fully justify their confidence and support William J Danker Chairperson ASM Series Editorial Committee

Ruling the Mongols of Manchuria Jiani He, 2025-10-01 At the turn of the twentieth century the Jirim League witnessed a linguistic struggle between Manchu Mongol Chinese Japanese and Russian powers The Qing Empire envisioned a trilingual educational system with the aim of improving the Jirim Mongols' ability to read Chinese Manchu and Mongolian Through this policy the Qing sought to transform loyal imperial subjects into modern patriotic nationals and incorporate them into an integrated and united China under a Manchu constitutional monarchy The late Qing's language policy and strategy for ruling the Mongols of Manchuria was an attempt to address the enduring multilingual legacies in Qing administration and people's everyday life growing local ethnic tensions cross boundary connections imperial rivalries and the rise of new ideas concerning nation modern state and international relations in East Asia This book challenges the notion of Chinese language reform as a story of linear progression towards national monolingualism highlights the power of multilingualism in Chinese nationalist discourse from a peripheral non Han Chinese perspective and questions the extent to which national languages dominate the writing of history

The Cambridge History of Christianity: Volume 7, Enlightenment, Reawakening and Revolution 1660-1815 Stewart J. Brown, Timothy Tackett, 2006-12-07 The Cambridge History of Christianity offers a comprehensive chronological account of the development of Christianity in all its aspects theological intellectual social political regional global from its beginnings to the present day Each volume makes a substantial contribution in its own right to the scholarship of its period and the complete History constitutes a major work of academic reference Far from being merely a history of Western European Christianity and its offshoots the History aims to provide a global perspective Eastern and Coptic Christianity are given full consideration from the early period onwards and later African Far Eastern New World South Asian and other non European developments in Christianity receive proper coverage The volumes cover popular piety and non formal expressions of Christian faith and treat the sociology of Christian formation worship and devotion in a broad cultural context The question of relations between Christianity and other major faiths is also kept in sight throughout The History will provide an invaluable resource for scholars and students alike How did Christianity fare during the tumultuous period in world history from 1660 to 1815 This volume examines issues of church state society and Christian life in Europe and in the wider world It explores the intellectual and political movements that

challenged Christianity from the rise of science and the Enlightenment to the French Revolution with its state supported programme of de Christianisation It also considers the movements of Christian renewal and reawakening during this period and Christianity's encounters with world religions in colonial and missionary settings Book jacket *Spies and Scholars* Gregory Afinogenov, 2020-04-14 A Financial Times Best Book of the Year The untold story of how Russian espionage in imperial China shaped the emergence of the Russian Empire as a global power From the seventeenth to the nineteenth century the Russian Empire made concerted efforts to collect information about China It bribed Chinese porcelain makers to give up trade secrets sent Buddhist monks to Mongolia on intelligence gathering missions and trained students at its Orthodox mission in Beijing to spy on their hosts From diplomatic offices to guard posts on the Chinese frontier Russians were producing knowledge everywhere not only at elite institutions like the Academy of Sciences in St Petersburg But that information was secret not destined for wide circulation Gregory Afinogenov distinguishes between the kinds of knowledge Russia sought over the years and argues that they changed with the shifting aims of the state and its perceived place in the world In the seventeenth century Russian bureaucrats were focused on China and the forbidding Siberian frontier They relied more on spies including Jesuit scholars stationed in China In the early nineteenth century the geopolitical challenge shifted to Europe rivalry with Britain drove the Russians to stake their prestige on public facing intellectual work and knowledge of the East was embedded in the academy None of these institutional configurations was especially effective in delivering strategic or commercial advantages But various knowledge regimes did have their consequences Knowledge filtered through Russian espionage and publication found its way to Europe informing the encounter between China and Western empires Based on extensive archival research in Russia and beyond *Spies and Scholars* breaks down long accepted assumptions about the connection between knowledge regimes and imperial power and excavates an intellectual legacy largely neglected by historians *Beijing's Power and China's Borders* Bruce Elleman, Stephen Kotkin, Clive Schofield, 2015-05-18 China shares borders with 20 other countries Each of these neighbors has its own national interests and in some cases these include territorial and maritime jurisdictional claims in places that China also claims Most of these 20 countries have had a history of border conflicts with China some of them never amicably settled This book brings together some of the foremost historians geographers political scientists and legal scholars on modern Asia to examine each of China's twenty land or sea borders **Red at Heart** Elizabeth McGuire, 2018 From a debut author an intimate multigenerational narrative of the Russian and Chinese revolutions through the eyes of the Chinese youth who traveled to the Soviet Union and the fate of their blended offspring *Science In China, 1600-1900: Essays By Benjamin A Elman* Benjamin A Elman, 2015-05-07 Distinguished historian Benjamin A Elman's collective volume on the history of science in imperial China brings together over 30 years of historical literature on the subject With updates to the literature and new material including transcripts of podcasts and translated interview articles *Science in China* takes the reader on a journey starting in the early

17th century with the missionary efforts of the Jesuits in China and ending with the Protestant missions in the 19th century. These two milestone encounters brought Western sciences to local Chinese scholars with great success in shaping modern Chinese science. Elman studies the interaction between Western and Chinese sciences through philological research and evidence and treats the two encounters not as separate events but as a continuum of creative exchange of scientific knowledge and discourse.

Mirrorlands Ed Pulford, 2019-08-01. *Mirrorlands* is a journey through space and time to the meeting points of Russia and China, the world's largest and most populous countries. Charting an unconventional course southeast through Siberia, Inner Mongolia, the Russian Far East, and Manchuria, anthropologist and linguist Ed Pulford sketches a rich series of encounters with people and places unknown not only to outsiders but also to most residents of the capital cities where his journey begins and ends. What Russia and China have in common goes much deeper than their status as authoritarian post-socialist states or perceived menaces to Western hegemony. Their shared history can only fully be appreciated from an intimately local borderland perspective. Along remote roads, rivers, and railways in cosmopolitan cities and indigenous villages of the northeast Asian frontiers, Pulford maps the strikingly similar ways in which these two vast empires have ruled their Eurasian domains before, during, and after socialism. With great cultural nuance, *Mirrorlands* thoughtfully evokes the diverse daily interactions between residents of the Russia-China borderlands and their resulting visions of Europe and Asia. It is a vivid portrait of centuries of cross-border encounter, mimicry, and conflict, key to understanding the global place and identity of two leading world powers.

Russian Poetry and Literary Life in Harbin and Shanghai 1930-1950, 2024-09-16. *The Sichuan Frontier and Tibet* Yingcong Dai, 2011-07-01. During China's last dynasty, the Qing (1644-1911), the empire's remote bleak and politically insignificant Southwest rose to become a strategically vital area. This study of the imperial government's handling of the southwestern frontier illuminates issues of considerable importance in Chinese history and foreign relations. Sichuan's rise as a key strategic area in relation to the complicated struggle between the Zunghar Mongols and China over Tibet, Sichuan's neighbor to the west, and consequent developments in governance and taxation of the area. Through analysis of government documents, gazetteers, and private accounts, Yingcong Dai explores the intersections of political and social history, arguing that imperial strategy toward the southwestern frontier was pivotal in changing Sichuan's socioeconomic landscape. Government policies resulted in light taxation, immigration into Sichuan, and a military market for local products, thus altering Sichuan but ironically contributing toward the eventual demise of the Qing. Dai's detailed objective analysis of China's historical relationship with Tibet will be useful for readers seeking to understand debates concerning Tibet's sovereignty, Tibetan theocratic government, and the political dimension of the system of incarnate Tibetan lamas, of which the Dalai Lama is one.
