Magan was almost certainly identical with the land of the Gerraci of the Greek geographers. It was then this Semitic people who entered Mesopotamia before 3000 B.C., from Magan and Arabia Felix, bringing with them the ancient Semitic deities of South Arabia. The names of the three principal deities were Shamshu, 'Athtar, and Shahar the Moon-god.

In South Arabia the Sun-god is a female deity, and 'Athtar, or god of the planet Venus, is a male deity. But the Accadians, having identified these deities with the Sumerian Sun-god, Utu or Babbar of Ellasar and Sippar,

Semitic (Mythology of All Races,) Stephen H. Langdon, 1975-01-01 To find more information about Rowman and Littlefield titles please visit www.rowmanlittlefield.com *The Mythology of All Races. Volume 5, Semitic* Stephen Langdon, 1931 [Journal of the Society of Oriental Research](#) Society of Oriental Research, Chicago, 1929 [Mekal, the God of Beth-Shan](#) Thomas L. Thompson, 2024-09-16 **The Early Writings of Harold W. Clark and Frank Lewis Marsh** Ronald L. Numbers, 2021-10-17 Originally published in 1995 The Early Writings of Harold W. Clark and Frank Lewis Marsh is the eighth volume in the Creationism in Twentieth Century America series reissued in 2019 The book is a collection of original writings by the prominent creationist Harold W. Clark and the biologist educator and young Earth creationist Frank Lewis Marsh. Although both were significant figures in the anti-evolutionist movement of the early 20th century, unlike other members of the movement, both Marsh and Clark were trained scientists studying under eminent evolutionists of the time. Both writers struggled to reconcile new scientific understandings of geology, botany, and palaeontology supported by Darwin's theory of evolution with their own creationist beliefs in genesis and flood theory. Both scientists, as such, began to develop their own theories of evolution that remained in line with creationist beliefs. This compact and unique collection includes the writings of Marsh and Clark from this period, featuring some of their well-known works on the subject, including *Back to Creation* and *Fundamental Biology*. This volume of original sources will be of interest to academics of religion, natural history, and historians of the 19th century. **Alexandria 5** David Fidler, 2000-04-01 In ancient Egypt, the city of Alexandria was a flourishing cultural center where philosophical, spiritual, and cosmological teachings flowed together to create vital new syntheses. Today, Alexandria provides a meeting place for everyone who is interested in ancient and modern cosmological speculation and how the humanities may contribute to contemporary life. Page 4 of cover [Encyclopedia of Goddesses and Heroines](#) Patricia Monaghan, 2009-12-18 This two-volume set provides a comprehensive guide to the vast array of feminine divine figures found throughout the world. Drawn from a variety of sources ranging from classical literature to early ethnographies to contemporary interpretations, the *Encyclopedia of Goddesses and Heroines* provides a comprehensive introduction to the ways goddess figures have been viewed through the ages. This unique encyclopedia of over thousands of figures of feminine divinity describes the myths and attributes of goddesses and female spiritual powers from around the world. The two-volume set is organized by culture and religion, exploring the role of women in each culture's religious life and introducing readers to the background of each pantheon as well as the individual figures who peopled it. Alternative names for important divinities are offered, as are lists of minor goddesses and their attributes. Interest in women's spirituality has grown significantly over the last 30 years, both among those who remain in traditional religions and those who explore spirituality outside those confines. This work speaks to them all. *Creative Mythology* Joseph Campbell, 1991-11-01 This volume explores the whole inner story of modern culture since the Dark Ages, treating modern man's unique position as the

creator of his own mythology (*Dissertationes* Città del). Facoltà di teologia Pontificia università della Santa Croce (Vaticano), *Fate and Life* Michael Allen Fox, 2024-05-14 Some believe that fate rules our lives while others dismiss the idea outright Fate remains central to many cultural outlooks and in our age of conflict climate change and pandemic it features conspicuously in debates about the future A careful examination of this important idea its background many meanings and significance for everyday life is not only informative and intriguing but also timely In *Fate and Life* Michael Fox confronts the idea of fate head on and demonstrates that how we interpret and apply this concept can make it work for rather than against us Many discussions characterize fate negatively or as part of the occult representing it as a supernatural force that stifles our freedom Fateful ideas have also helped rationalize and promote the persecution of certain groups But viewed more positively fate can be understood as the given conditions of existence and the imponderable way certain unanticipated events momentarily alter the path we follow over time Thinking about fate teaches us about who we are how we see the world and our evaluation of the possibilities of life *Fate and Life* provides a multicultural and global account of how we talk about the idea of fate how we use and misuse it and how it contrasts with notions like destiny and karma Fox's original perspective a breakthrough in philosophy and the history of ideas shows that fate is supported by experience it is compatible with our sense of agency and purpose and it helps us make sense of our lives *a historical lie the stone age*, *The Mythology of All Races ...* Louis Herbert Gray, George Foot Moore, John Arnott MacCulloch, 1927 ***The Mythology of All Races ...***, 1920 *The Mythology of all Races* Hartley Burr Alexander, Ph.D., 1920 *The Jewish Quarterly Review* Cyrus Adler, Solomon Schechter, Abraham Aaron Neuman, Solomon Zeitlin, 1933 *Mekal* Henry O. Thompson, 1970 *A Handbook of Gods and Goddesses of the Ancient Near East* Douglas R. Frayne, Johanna H. Stuckey, 2021-02-12 From the tragic young Adonis to Zashapuna first among goddesses this handbook provides the most complete information available on deities from the cultures and religions of the ancient Near East including Anatolia Syria Israel Sumer Babylonia Assyria and Elam The result of nearly fifteen years of research this handbook is more expansive and covers a wider range of sources and civilizations than any previous reference works on the topic Arranged alphabetically the entries range from multiple pages of information to a single line sometimes all that we know about a given deity Where possible each record discusses the deity's symbolism and imagery connecting it to the myths rituals and festivals described in ancient sources Many of the entries are accompanied by illustrations that aid in understanding the iconography and they all include references to texts in which the god or goddess is mentioned Appropriate for both trained scholars and nonacademic readers this book collects centuries of Near Eastern mythology into one volume It will be an especially valuable resource for anyone interested in Assyriology ancient religion and the ancient Near East ***Bulletin*** Massachusetts Library Club, 1927 ***The Hebrew Goddess*** Raphael Patai, 1990-09-01 *The Hebrew Goddess* demonstrates that the Jewish religion far from being pure monotheism contained from earliest times strong polytheistic elements chief of which was the cult of the mother goddess Lucidly written and richly illustrated this third
