N. Bradley, Alex Taek-Gwang Lee, Manoj N.Y., 2023-01-12 Is the self or subject discontinuous across technological platforms Do technological developments increase inequality and exploitation Is the new media landscape creating a dangerous distraction from the climate crisis Connecting the work of critical postmedia studies to Deleuze and Guattari's concept of schizoanalysis this book marks a bifurcatory shift in the radical theory on technology A range of critical perspectives are explored by international authors who engage with ecology ecosophy climate change the postmedia condition and the Anthropocene Answering the above questions editors Joff P N Bradley Alex Taek Gwang Lee and Manoj N Y frame the volume's chapters as urgent responses to unbridled technological advance and impending climate disaster Using ecological philosophy as a core focus the volume analyses new media technologies of the self the power of algorithms and technologies of resistance to outline a materialist paradigm capable of addressing crises across the cultural biological and informational spheres Through contesting economies built on desire and destruction and questioning the infiltration of capitalism in all of its spheres of negative influence the editors review recent technological developments in light of Deleuze and Guattari's earlier seminal theories to make bold new connections and critiques in the study of media philosophy and the environment DSK John Solomon, 2025-06-25 The sex scandal that toppled Dominique Strauss Kahn gripped the world with its salacious allegations dramatic twists and a stunning turnabout in court But the public saw only a fraction of what really went on behind the scenes where justice played second fiddle to egos political pressures and investigative missteps Now award winning reporter John Solomon exposes the story you didn't know delivering a searing indictment of American justice at its moment of intense international scrutiny When Strauss Kahn arrived in New York on Friday May 13 2011 he was an international political powerhouse and favorite to win the French presidential election By Monday he was sitting in the notorious Rikers Island jail his career in tatters Likewise when hotel maid Nafissatou Diallo arrived at work on Saturday morning she never could have predicted that a brief encounter with a VIP guest would put her at the center of a legal and public relations battle that would leave her life in shambles Those seven minutes in Suite 2806 would throw international politics into turmoil eliminate one of the key players in Europe's debt crisis and create a trial by fire for Manhattan's rookie district attorney And it would all happen under the eye of a frenzied media which at first

presumed guilt before suddenly turning the tables on the alleged victim The public was left wondering Was Dominique Strauss Kahn guilty or innocent Solomon goes past the headlines to show how personal clashes ambition and media leaks took precedence over facts and evidence He chronicles the personal battles that went on behind the scenes from suicide worries to AIDS scares and the toll they took on key players He lays out in gripping detail all the facts good and bad pro and con so that finally the public can judge what really happened in one of the most fascinating criminal cases of the last decade

The Month that Changed the World Gordon Martel, 2014 On 28 June 1914 the Austrian Archduke Franz Ferdinand was assassinated in the Balkans Five fateful weeks later the Great Powers of Europe were at war Much time and ink has been spent ever since trying to identify the guilty person or state responsible or alternatively attempting to explain the underlying forces that inevitably led to war in 1914 Unsatisfied with these explanations Gordon Martel now goes back to the contemporary diplomatic military and political records to investigate the twists and turns of the crisis afresh with the aim of establishing just how the catastrophe really unfurled What emerges is the story of a terrible unnecessary tragedy one that can be understood only by retracing the steps taken by those who went down the road to war With each passing day we see how the personalities of leading figures such as Kaiser Wilhelm II the Emperor Franz Joseph Tsar Nicholas II Sir Edward Grey and Raymond Poincaré were central to the unfolding crisis how their hopes and fears intersected as events unfolded and how each new decision produced a response that complicated or escalated matters to the point where they became almost impossible to contain Devoting a chapter to each day of the infamous July Crisis this gripping step by step account of the descent to war makes clear just how little the conflict was in fact premeditated preordained or even predictable Almost every day it seemed possible that the crisis could be settled as so many had been over the previous decade almost every day there was a new suggestion that gave statesmen hope that war could be avoided without abandoning vital interests And yet as the last month of peace ebbed away the actions and reactions of the Great Powers disastrously escalated the situation So much so that by the beginning of August what might have remained a minor Balkan problem had turned into the cataclysm of the First World War

Women and Revolution Marie Josephine Diamond, 2013-06-29 Taking its starting point from women's contributions to the French revolution this important anthology goes far beyond any particular historical European or American context and expands its scope in space and time to an all inclusive global theme namely the contributions of radical women towards an ever changing world and its revolutionary

transformations everywhere The superbly edited essays by diverse contributors from various continents and disciplines explore a wide platform of women s revolutionary involvements and elucidate the broad range of contributions by women scholars scientists and activists to movements of social transformation as well as to a reexamination of established methods of cultural analysis from enlightened liberalism to Marxism The contributions of women scholars and activists from Africa Asia and Latin America are particularly significant in that they transcend and expand European North American feminism as relevant primarily to its own socio cultural context and focus on women acting in terms of their own non Western traditions and cultures that is on non Western models based on indigenous strategies of social transformation This rich anthology shuns any postulation of a single global model for revolution Yet despite the emergence of a problematic relationship between Western or Western educated theorists and the causes of the oppressed women s diverse social cultural and historical experiences and strategies are united in this edition as in their common causes as emphasized by the following statement in the introduction the female body has become a privileged site for social analysis in the context of international capitalism as well as in the critique of traditional socialism Sabine Jell Bahlsen Ogbuide Films Women and Revolution covers an enormous socio historical space four continents Europe Africa Asia and Latin America and quite a few countries within them This huge field of human experience is looked at from the focal point which runs explicitly and implicitly through all nineteen chapters the active if not revolutionary role women have played individually and collectively in various determining social situations a role regularly suppressed by the coercive power of institutionalized domination The impetus for this endeavor was the commemoration of the bicentennial of the French Revolution an occasion to take an in depth look at its less obvious agendas through a focus on the activity of women and on Olympe de Gouges in particular But as Olympe de Gouges became acquainted with Mr Guillotine the considerable role of women became suppressed not only actually but as a kind of damnatio memoriae which the old Romans had already invented As this work shows there have been multiple forms and contents through which women have taken history into their own hands and have participated in emancipatory struggles throughout the world They are at their best in their use of the resources of local village traditions of dense social contexts of mutual aid and in turning such grassroots resources into radical democratic struggles for the future A fascinating and timely book Wolf Dieter Narr Freie Universit t Berlin The vital role played by women in struggles for social transformation has scarcely been appreciated and with the sense of defeat that hangs over the revolutionary project stands to be further forgotten That is why the publication of Women and Revolution is both welcome and necessary on intellectual and scholarly grounds but also because these are stories which have to be told if we are to resume the march toward a better world Joel Kovel Bard College
