Angelo Solomon Rappoport

Man And The Elementals Earth Water Air And Fire:

Man or Matter Ernst Lehrs, 2022-09-04 In *Man or Matter* Ernst Lehrs delves into the intricate relationship between human consciousness and the material world challenging traditional dichotomies that separate mind from matter Set against the backdrop of early 20th century philosophical inquiry Lehrs employs a rich tapestry of literary styles merging philosophical discourse with poetic reflections His exploration is heavily influenced by anthroposophy and the spiritual science movement seeking to bridge the gap between scientific rationalism and spiritualism Through his keen analysis Lehrs presents a compelling case for a profound interconnectedness positing that humanity must recognize its role within the cosmos Ernst Lehrs was a notable figure in anthroposophical circles deeply influenced by the teachings of Rudolf Steiner His educational pursuits in philosophy and the natural sciences provided him with a robust foundation in both scientific inquiry and metaphysical exploration This duality shaped his perspective in *Man or Matter* as he sought to articulate a vision of humanity that transcends mere materialism embedding rich spiritual dimensions into everyday existence This book is a must read for anyone intrigued by the philosophical underpinnings of human existence and the metaphysical implications of modern science Lehrs eloquent prose not only enlightens but also inspires readers to reflect upon their own consciousness in relation to the universe making it an essential addition to the libraries of philosophers scientists and spiritual seekers alike

Elemental and Ancestral Spirits, Or the Gods and the Glorified Gerald Massey, 2008-11-01 The two primary elements were those of darkness and light Sut was the power of darkness Horus the power of light In one representation the two elements were imaged by means of the black bird of Sut and the white bird or golden hawk of Horus Thus we can identify two elemental powers as old as night and day which are primeval in universal mythology and these two powers or animistic souls were divinized as the two gods Sut and Horus with the two birds of darkness and light the black vulture and the gold hawk depicted back to back as their two representative types or personal totems from *Elemental and Ancestral Spirits or The Gods and the Glorified* It goes unappreciated by modern Egyptologists but it is embraced by those who savor the concept of a hidden history of humanity and those who approach all human knowledge from the perspective of the esoteric Gerard Massey's massive *Ancient Egypt The Light of the World* first published in 1907 and the crowning achievement of the self taught scholar redefines the roots of Christianity via Egypt proposing that Egyptian mythology was the basis for Jewish and Christian beliefs Here Cosimo proudly presents Book 3 of *Ancient Egypt* in which Massey explains how the original elemental spirits of early humans were transformed into deities and how the concept of a soul developed from animalistic representations of natural forces Peculiar and profound this work will intrigue and delight readers of history religion and mythology British author GERALD MASSEY 1828 1907 published works of poetry spiritualism Shakespearean criticism and theology but his best known works are in the realm of Egyptology including *A Book of the Beginnings* and *The Natural Genesis* **The Thomsonian Materia Medica** Samuel Thomson, 1841 **The Ascent of Science** Brian L.
