**Navigating Women's Friendships in American**

**Literature and Culture** Kristi Branham, Kelly L. Reames, 2022-11-10 This volume presents a collection of critical essays that center women's friendship in women's literary and artistic production. Analyzing cultural portrayals of women's friendships in fiction, letters, and film, these essays collectively suggest new models of literary interpretation that do not prioritize heterosexual romance. Instead, this book represents friendships as mature and meaningful relationships that contribute to identity formation and political coalition. Both the supportive and competitive aspects of friendships are shown to be crucial to women's identities as individuals, political citizens, and artists. Addressing the complexities of how 20th and 21st century cultural texts construe women's friendships as they navigate patriarchal institutions, this collection advances scholarship on friendship beyond men and masculine models. [A Study of the Types of Literature](#) Mabel Irene Rich, 1921 [The Oxford Handbook of American Folklore and Folklife Studies](#) Simon J. Bronner, 2019-08-06 The Oxford Handbook of American Folklore and Folklife Studies surveys the materials, approaches, concepts, and applications of the field to provide a sweeping guide to American folklore and folklife, culture, history, and society. Forty-three comprehensive and diverse chapters delve into significant themes and methods of folklore and folklife study, established expressions and activities, spheres and locations of folkloric action, and shared cultures and common identities. Beyond the longstanding arenas of academic focus developed throughout the 350-year legacy of folklore and folklife study, contributors at the forefront of the field also explore exciting new areas of attention that have emerged in the twenty-first century, such as the Internet, bodylore, folklore of organizations and networks, sexual orientation, neurodiverse identities, and disability groups. Encompassing a wide range of cultural traditions in the United States, from bits of slang in private conversations to massive public demonstrations, ancient beliefs to contemporary viral memes, and a simple handshake greeting to group festivals, these chapters consider the meanings in oral, social, and material genres of dance, ritual, drama, play, speech, song, and story, while drawing attention to tradition-centered communities such as the Amish and Hasidim, occupational groups, and their workaday worlds, and children and other age groups. Weaving together such varied and manifest traditions, this handbook pays significant attention to the cultural diversity and changing national boundaries that have always been distinctive in the American experience, reflecting on the relative youth of the nation, global connections of customs brought by immigrants, mobility of residents, and their relation to an indigenous, urbanized, and racialized population, and a varied landscape and settlement pattern. Edited by leading folklore scholar Simon J. Bronner, this handbook celebrates the extraordinary richness of the American social and cultural fabric, offering a valuable resource not only for scholars and students of American studies but also for the global study of tradition, folk arts, and cultural practice. **Necessary Madness** Gregg Camfield, 1997-09-25 In this rich, exciting new book, Gregg Camfield explores nineteenth-century American humor from the perspective of gender and domestic ideology, challenging recent theory, asserting a broad gulf between men's and women's humor during the period, and contributing vital new insights to the study of humor in general. Capturing in part I a vision of humor unique to the era, Camfield examines the

period's faith in what was called amiable humor a genial and supple comic mode whose non aggression makes it resist easy assimilation to theories stressing humor's basis in hostility negation rage and other combative or displaced energies Seeking to illuminate this distinct comedy Camfield probes a related central cultural strand the domesticity ideal that so often is a subject of this humor carefully tracking contact between the two discourses and identifying their common social and intellectual roots Turning next to four literary case studies powerfully revealing of this contact Camfield in part II pairs male and female humorists Washington Irving and Fanny Fern Harriet Beecher Stowe and Herman Melville Mark Twain and Marietta Holley and George Washington Harris and Mary Wilkins Freeman not only to demonstrate the way these influential writers approach domesticity with genial humor but also to support his claim that gender difference does not always correlate to differences in viewpoint and practice within this common style Where many argue nineteenth century women's humor constitutes a genre unto itself Camfield finds that like women men filtered reaction to the constraints and opportunities of home life through genial comedy and that women like their male counterparts wrote humor marked by extravagance expansion caricature fantasy and posturing Broadening out to an intriguing consideration of humor theory in part III Camfield draws on recent work in psychology culture studies neo pragmatist philosophy and neuroscience to model a compelling alternative view of humor capable of negotiating both the complexities of nineteenth century American humor and the comic art of periods before and since Students and scholars of humor nineteenth century American literature and culture and women's writing will find *Necessary Madness* to be a provocative essential achievement

**Transnational Representations of the Region, 1840-1940**

Giulia Bruna, Marguérite Corporaal, Christopher Cusack, Sophie van Os, Anneloek Scholten, 2025-09-08 The nineteenth century witnessed an upsurge of interest in the region across Europe and North America in media ranging from literary fiction to the illustrated periodical and from visual arts to architecture This rise of regionalism has often been linked to nationalism and nation building However depictions of the region circulated across borders or interacted with transnational cultural repertoires of the local These often overlooked transnational aspects are the focus of this volume which considers cultural representations of the region during the long nineteenth century in its variety of dimensions across all expressive media This collection consistently draws out the border crossing dynamics through which the very perception of regions is generated and maintained Contributions by established and emerging scholars all rise to the challenge of contextualizing representations of specific regions in transnational networks of exchange The volume is resolutely interdisciplinary

encompassing various literary genres as well as music visual arts and world fairs It will ensure that the region is in the best possible sense all over the place Rapha l Ingelbien Professor of English Literature at KU Leuven      **Adulthood and Other Fictions** Sari Edelstein,2019 This volume explores the idea of age in American literature over the course of the nineteenth century and examines how writers such as Louisa May Alcott Frederick Douglass and Henry James used literature as a space to imagine alternative ideas about aging and to challenge conventional definitions of adulthood      **Sharing Secrets** Christine Palumbo-DeSimone,2000 The study reveals how the female world ultimately defined what constituted a story for nineteenth century women and presents a way for today s reader to approach these sometimes puzzling works of short fiction
